KING SHOWS SUBSTANTIAL IMPROVEMENT

Still Gravity of Operation Is a Bar to Too Great Optimism.

ROYAL RELATIVES AWAIT THE CRISIS

They Will Remain in London Until Sunday for More Reassuring News.

PATIENT IS ALLOWED TO READ AND SMOKE

LONDON, June 28.—King Edward's improvement was maintained at 1 o'clock this morning.

[SPECIAL CABLE TO THE GAZETTE.]
(Copyright, 1902, by New York Herald Co.)

London, June 27.—The king has made a substantial improvement. Such is the last and cheery word from the sick room tonight. It breathes a spirit of encouragement, and hope and is more explicit in its meaning than any bulletin issued heretofore. There is a definite comparison made. Instead of being told his majesty's condition is satisfactory, or that he rested well, we have the unqualified announcement that no matter what his condition was in the morning, he was better at night.

This is something tangible. At the same time, it must not be forgotten that the serious nature of the king's ailment and the gravity of the operation forbid taking too optimistic a view. Some days must yet elapse before the success of the operation can be absolutely assumed. There is, however, not the slightest reason for anything like alarm. A great deal of importance is attached to the return of pain in the wound, but, according to medical opinion, such symptoms are of ordinary occurrence. The mere process of healing tends to contract the tissues, to a certain extent; and this would naturally cause a certain amount of discomfort, the seat of the operation being, of course, affected by the patient's breathing.

King Shows More Interest.

What is far more important is that his majesty is taking an ever increasing interest in what is going on in the world outside; that his appetite is improving and that there are no feverish symptoms. These are signs of the greatest promise and form sufficient proof of the statement made by the medical advisers that the king is showing recuperative power of a most wonderful order.

As to the weather, is was very hot today. The sick room, by means of an electric fan, was kept at even temperature. The queen is cheerful and hopeful, and continues to display the most devoted solicitude. She was in the sick room the greater part of the day. The king is able to take plenty of nourishment.

His majesty also is allowed to smoke occasionally. He still opens and reads many of his personal telegrams and letters, and even dictates some replies. He is able to peruse some of the newspapers. All functions of the patient are working admirably. Of course, any remaining danger lies in the possibility of pus reappearing and reforming in the wound, but of this there is as yet no trace; nor is there any trace of organic disease of any kind.

Sir Henry Thompson today said the king's recovery was hopeful. It was, however, too early to say his majesty was out of danger; but if the present improvement continued till a week or ten days from the time of the operation had elapsed, he thought preparation for the coronation might be resumed. The only danger to be feared, in his opinion, is the possibility of the cellular or other tissues in the region of the wound being affected. But from what other medical men say the steady improvement in his majesty's condition is attributed to the fact that he has been able to maintain his strength, and if the king continues to hold his own in this respect, his recovery is assured.

New Evidence of Confidence.

Perhaps more significant than official news given out from London is a short telegram from the Daily Mail's correspondent at Copenhagen, which says that while King Christian, who is in excellent health, had intended coming to London, Queen Alexandra wired him that there was no necessity for him undertaking the journey, as King Edward was making excellent progress. Crown Prince Waldemar also telegraphed an equally reassuring message to King Christian.

As to the critical period it is significant that some of the foreign princes and near relatives of his majesty propose to remain in London until Sunday. It is understood their object is to see the crisis over. If favorable reports are made up to and including Sunday, it may be taken that the king will then be practically out of danger.

At Buckingham palace tonight there was little change from preceding nights. A crowd gathered there in the morning. One of the earliest callers at the palace

CITY PREPARES FOR A REVIVAL OF FESTIVITIES

Colonial Troops to Be Reviewed on Tuesday or Wednesday.

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

London, June 27.—The prospect of the king's rapid recovery has led to a revival of the projects for festivities. It has practically been decided that the Indian and colonial troops here shall be reviewed next Tuesday or Wednesday by the prince and princess of Wales on the horse guards parade, Queen Alexandra attending to take the salute on behalf of the king, as she did recently at Aldershot. This idea was warmly advocated by the colonial premiers in London, and it has been approved by Joseph Chamberlain, the colonial secretary.

It is also likely that as soon as his majesty is pronounced to be out of danger London will indulge in a general illumination. Very few of the illumination devices in the city have been disturbed, their owners awaiting the decision of the prince of Wales in the matter. The prince has not yet ordered the removal of the devices from Marlborough house.

It is not impossible that the abandonment of the naval review, set for June 28, will be reconsidered in the interests of the colonial and Indian visitors, who are greatly disappointed at missing this sight. Other entertainments for the nation's colonial and Indian guests are also being arranged. Thus, if there is no setback in his majesty's progress, there will be a partial revival of the interrupted festivities.

RUMOR OF A CONCERN TO RIVAL U. S. STEEL

Percival Roberts, Jr., Said to Be at Its Head, but He Denies the Whole Story.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

PHILADELPHIA, June 27.—The North American tomorrow will say: Another great steel company has been formed to compete with the United States Steel Corporation.

Several of the highest salaried experts of the Pencoyd iron works, part of the American Bridge Company, have left that concern and cast their lot with the capitalist who is behind the new company. This man, one of those concerned declares, is Percival Roberts, Jr., formerly president of the American Bridge Company, and formerly a member of the board of directors of the steel combine.

The old plant of the Pottsville, Pa., iron and steel works has been purchased and will be remodelled. The new concern, the Schuylkill Valley Iron and Steel Works, will have one of the finest and largest establishments in the country.

It is understood that the new company will own 1,500 acres of land near Pottsville. It will be particularly valuable, because on it are coal veins which will supply the furnaces. The advantage this will give the company may be gathered from the fact that the Pencoyd company pays $2 30 a ton freight on its coal.

The North American also prints a brief interview with Mr. Roberts, who denies the truth of the publication.

GALVESTON IS SAFE.

Serious Storms Wreck the Wires and Texas Was Badly Alarmed.

DALLAS, TEX., June 27.—The long drouth prevailing in Texas was quite generally relieved today. Heavy rains are reported from Dallas south to the gulf, and many sections north, east and west.

There was considerable alarm for the safety of Galveston throughout the day, as a severe gale was reported raging there early this morning and telegraphic communication was entirely interrupted during the day. It was later learned that no damage had been sustained and the water was but slightly above normal.

PLANS FOR TRIP ON ROYAL YACHT FOR KING EDWARD

His Majesty to Be Moved to Cowes for Period of Convalescence.

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

London, June 28.—The Daily Mail this morning says that all King Edward's functions are working admirably. The drainage pipe has not yet been removed, says the paper, but the king's general progress is very sure and steady. His diet already includes soup, fish and baked apples. It is probable that next week the number of daily bulletins will be diminished.

"It has been informally settled," says the paper, "that as soon as it is safe to do so his majesty will be moved to Cowes and placed on board the royal yacht for his period of convalescence."

The prince and princess of Wales dined at Buckingham palace tonight in company with several foreign royal personages. All the diners returned early to their homes.

The unanimity among prominent physicians in expressing their opinions as to the case of the king is quite remarkable. All the professional opinions gathered are distinctly favorable and hopeful; the doctors regard the danger of peritonitis as now almost past and believe his majesty's recovery entirely probable.

Liverpool was illuminated tonight in recognition of the good news.

$750,000 FOR ADDITIONS TO ORMSBY YARDS

Three Complete Blocks of South Side Realty to Be Bought.

FACILITIES FOR HOLDING 500 CARS

The Pennsylvania railroad interests are completing plans for an extensive addition to the Ormsby yards of the Pittsburgh, Virginia & Charleston railroad which will cost $750,000. Three complete blocks of South Side realty are under option or have been bought for this purpose. Complete plans have not yet been drawn, but in the course of three months work will start on the extensions to the yards, which will give additional facilities for holding 500 cars at one time for classification.

Deeds have already been passed for much of the property. It extends along Carson street, from Thirty-third to Thirty-sixth streets and back to Sarah street. Immediately adjoining this at Thirty-third street is a block which has already been covered with terminal facilities, an extensive roundhouse and repair shops. These have just been completed.

The present Ormsby yards, recently extended and improved, cover all the territory from Thirtieth street to the city line, a stretch of seven blocks. They cover all the property between Sarah street and

BALTIMORE DEAL CLOSED AND CITY HAS CASH IN HAND

New Directors of the Western Maryland Railroad Have Been Elected.

Baltimore, Md., June 27.—Baltimore city's holdings in the Western Maryland Railroad Company were formally transferred to the Fuller syndicate, representing the Wabash railway system, today. The check in payment for the securities was for $3,651,370. Various Baltimore banks and financial institutions had arranged to borrow this money at about 3 per cent, and it was immediately turned over to them.

In addition to the purchase price the Fuller syndicate deposited $500,000 in accordance with the provisions of the ordinance of sale requiring $3,000,000 guarantee that the new owners will construct tidewater terminals.

Mayor Hayes sent a letter to each of the directors representing the city on the board requesting that they immediately tender their resignations.

Col. Myron T. Herrick said today that the board of directors to be installed in charge of the Western Maryland railroad would be only a temporary one. The plan is to consolidate the Western Maryland with the West Virginia Central, which the syndicate also owns. Then a board of directors will be chosen to manage the consolidated properties.

A temporary organization was effected this evening and the following directors were chosen: Edwin Gould, Winslow S. Pierce, H. B. Henson, Lawrence Green and W. H. McIntire of New York; John M. Hood, former president of the road; Leon Greenbaum, George F. Gaither and S. Davies Warfield of Baltimore and F. S. Landstreet of the West Virginia Central & Pittsburgh railway.

Gen. Thomas J. Shryock, George B. Baker and Charles W. Slagle, directors elected by the stockholders, remain on the board. Winslow Pierce is mentioned for the presidency of the consolidated road.

SHOOTING IN A SALOON CAUSED LARKIN'S DEATH

Fatal Ending of Political Argument in Penn Avenue Barroom.

THREE ARRESTS MADE BY POLICE

William Larkin, 25 years old, a laborer living at No. 2622 Mulberry alley, is dead, and three other men are locked in No. 3 police station in Penn avenue, near Twenty-sixth street, as a result of a shooting affray in the barroom of the Alexander hotel, Penn avenue and Twenty-sixth street, shortly before 12 o'clock last night. The shooting is said to have grown out of an argument over politics.

A crowd of men had assembled in the barroom of the hotel shortly before midnight and an argument arose over a relative of one of the men in the crowd who is a candidate at the Democratic primaries which are to be held today. The men became excited and in the heat of the argument someone pulled a revolver and shot Larkin.

Policeman H. L. House, who patrols Penn avenue in the vicinity of Twenty-sixth street, was passing the saloon when the shot was fired and, rushing in, placed John Broadwick, 28 years old, of No. 2309 Penn avenue; John McGovern of Stockholm street and Jerome Murray of No. 36 Denny street under arrest and sent them to No. 3 police station.

Larkin was hurried to the West Penn hospital, where he died shortly after being admitted. At the hospital an examination showed that the bullet entered just above the pit of the stomach and penetrated the bowels, which resulted in his bleeding to death. A revolver was found on Broadwick at the police station. All three men are held on a charge of being suspicious persons.

Michael Larkin, a brother of the dead man, was with the crowd in the barroom when his brother was shot and accompanied him to the hospital. This morning he was so overcome by the affair that he was unable to give an intelligent account of how the shooting occurred.

DIED WHILE DRIVING ON THE BOULEVARD

Wife of M. S. Simms Suddenly Expired While Entertaining Her Sister and a Niece.

Mrs. Ida Lamont Simms, wife of M. S. Simms of No. 513 St. Clair street, died suddenly last evening while out driving in a trap on the Beechwood boulevard, near Forbes street. Her death was due to heart failure and was so sudden that no aid could be given her.

With a sister and a niece from Ohio, who are visiting at the Simms home, Mrs. Simms was driving about 8:15 o'clock in one of her husband's traps. She sat in the rear seat with her sister and the niece sat with the driver. The party was engaged in conversation when suddenly, without warning, Mrs. Simms threw her hands to her breast and gasping several times, fell forward and expired.

In a moment the trap was surrounded by the occupants of the carriages and automobiles that thronged the boulevard and everything possible was done to revive the woman, but she was past any aid.

Mr. Simms, who was at his livery stable at No. 5628 Baum street, was telephoned to and he immediately hurried, with Dr. F. E. Luke, the family physician, to the boulevard, but when they arrived a physician called from the Country club house had already pronounced Mrs. Simms dead.

The deceased was 42 years old and is survived by her husband and a son, Dudley, aged 18 years, a recent graduate of the Pittsburgh high school.

PRISON DOORS TO BE OPENED ON THE FOURTH

Every Filipino Therein to Be Released by the President's Word.

IT ALL DEPENDS UPON CONGRESS

If Houses Agree on Civil Government Bill Amnesty Will Be Declared.

DEWEY'S FRENCH LEAVE OF SENATE COMMITTEE

[BY ASSOCIATED PRESS TO THE GAZETTE.]

Washington, D. C., June 27.—General amnesty for all political prisoners, Aguinaldo included, is to be proclaimed in the Philippine islands on the Fourth of July. At a meeting of the cabinet today the terms of the proclamation were agreed upon.

For some time past the war department has had under consideration the draft of a proclamation and has found it necessary to make a number of changes in its text. In its modified form, as agreed to by the cabinet, Secretary Root will cable it to Acting Governor Wright for his inspection. If it meets Wright's approval nothing will remain but for the president, if the Philippine civil government bill is a law on that day, as is now expected it will be, to issue on independence day a formal proclamation setting forth terms of amnesty for all political offenders in the islands, including those held at Guam.

The proclamation is based on the general objects of the Philippine government bill, namely, to restore peace in the archipelago and substitute a civil for a military administration. That bill is now in conference, and the proclamation will not be issued until the Philippine government measure has been agreed upon by both houses, and the president has affixed his signature to it.

Waiting on Congress to Act.

The proclamation will declare that a state of peace now exists in the Philippine islands, save in the parts of the archipelago where the Mindanao or pagan tribes are giving the United States a great amount of trouble, and will declare in effect that with the transfer of the government of the archipelago from a military to a civil status, all those arrested and held for political offenses shall be restored to liberty, granted full amnesty and allowed to participate in the civil government that is to be inaugurated in the islands.

There is no intention, it is said, to release those prisoners convicted of other than political offenses.

When the islands are turned over to the civil authorities they will not be left without adequate military protection, as no more troops will be ordered home for the present, and every precaution will be taken for the military safeguarding of the islands under the new civil administration.

Purchase of Friars' Lands.

Another subject under consideration at the cabinet meeting today was the negotiations for the purchase of the friars' lands in the Philippines. Secretary Root took with him to the meeting all the correspondence which has passed between himself and Governor Taft while Taft has been carrying on his negotiations at Rome. Secretary Root feels great confidence in a successful outcome of Governor Taft's efforts.

Admiral Dewey created a sensation during his testimony before the Philippine commission today. He characterized Aguinaldo as a looter and a robber. Senator Carmack, in attempting to corner the admiral on cross-examination, so angered him that the naval hero picked up his hat and left the room.

The admiral said he had begun negotiations with the governor general of the Philippines, Gen. Jaudenes, for the surrender of the city and the negotiations were conducted through the Belgian consul. The admiral said he had informed Gen. Merritt of the proffer of Gen. Jaudenes, but he did not believe Merritt had taken much stock in it. Dewey was the first man to see the white flag of surrender.

The Monterey Saved Blood.

"I continued all my preparations for battle up to the last moment," said the admiral. "I learned afterward that they came very near firing upon my ships from the city. One Spanish officer in charge of one of the 10-inch guns wanted to fire. They had some conversation about it. One of the Spaniards said: 'They won't dare to bombard this city with so small a fleet.' But one of the monitors, the Monterey, was lying with her guns trained on the city. Another of the Spaniards spoke up and said: 'Anyone that is such a fool as to cross the ocean in a thing like that would do anything.' So I think it is probable that the presence of the Monterey saved us from the necessity of bombarding the city."

Speaking of Aguinaldo's loyalty the witness said that he had become suspicious of that leader before the receipt of his proclamation of July 15. He said: "I began to suspect that he was not loyal to us when he demurred to moving out of Cavite when our troops arrived."

"Knowing of Aguinaldo's expectation and purpose to secure independence," said Mr. Patterson, in beginning a question, but before the had concluded he was interrupted by the witness, who said: "No, I did not know that."

"Then you believed such to be his purpose?"

"I didn't believe it, and since you have asked my opinion, I will say that I believe he was there for gain—for loot, for money, and I further believe that independence never entered his head."

Mr. Carmack asked the witness why he had done so much to aid a man whom he regarded as "a common robber and plunderer."

The admiral did not reply immediately. His face reddened and he laughed. He then said the senator had not quoted him accurately, but he admitted that he had said Aguinaldo had gone to Manila for pillage and plunder. He added:

"You know the old saying, 'All is fair in war.'"

"Do you consider it fair in war to assist a known plunderer and robber in an enemy's territory to pillage without restraint?"

"I believe it is, as I read history?"

"Then you admit that you assisted this robber and plunderer to organize, etc?"

"I didn't then call him a robber and plunderer; I called him the 'insurgent leader.' I have said here that he was there for money and loot. I think those were my words, and I think that is what he was there for. Do you," he said, turning interlocutor himself, "think he was there for anything else?"

"I do," responded the senator.

"Well, I don't," said the admiral.

And as if to express his opinion still more emphatically, he repeated: "I don't," and added, "I swear I don't."

Dewey Takes French Leave.

In the midst of a long series of questions by Senator Carmack, which plainly annoyed the witness, Senator Lodge as chairman of the committee had announced that 12 o'clock, the hour of adjournment, had arrived. The admiral took advantage of this announcement to cut short the line of inquiry. In the middle of a question he arose, took his hat, and saying, "I think I shall not answer that question," politely left the room without being excused. He will be examined again tomorrow.

The conference of the two houses of congress on the Philippine civil government bill held their first meeting at 2 o'clock today and adjourned at 6 o'clock without having disposed of any important items of difference. The bill of rights as agreed to by the senate was accepted, and a portion of the house provision added to it. There was a rearrangement of the senate court provisions and the house provision granting appeals from the insular courts to the United States supreme court only in cases involving $25,000 or more was accepted.

The conference had only entered on the question of the disposal of the public lands of the islands when an adjournment was taken. There is a difference of opinion between the two houses as to the method of disposing of these lands, the house providing for their sale and the senate only for the leasing of them when large acreages are involved. The important differences of the bill relating to the questions of coinage, banking, mining and territorial legislation and the disposal of the friars' lands were left for the future.

MINORITY VERY SMALL.

United States Steel Stock Voted Against Conversion Slightly Over a Tenth of One Per Cent.

TRENTON, N. J., June 27.—(Special.)—One of the facts dwelt upon by R. V. Lindabury of counsel for the United States Steel Corporation in the argument that was closed yesterday in the suit of Miriam Berger to restrain the corporation from converting $200,000,000 worth of 7 per cent preferred stock into 5 per cent bonds was the very small percentage of stockholders that had voted against the proposed change. Mr. Lindabury said that out of the 11,000,000 shares of stock of the corporation 7,716,828 were voted, and that of this large number only 12,540 shares were voted in the negative. These negative votes, representing only a shade more than one-tenth of 1 per cent of all the shares of stock of the corporation, were cast by 35 persons, while the number of owners of the stock voting affirmatively was 14,176. The consent of these 14,176 stockholders, representing 3,745,751 shares of preferred stock and 3,968,557 shares of common stock, have been filed at the office of the secretary of state. All of these shares were voted through proxies by Henry De Forrest and Myles Tierney, who certify to the correctness of the list of more than 14,000 names.

GOT A GOOD PIANO?

Yes, Anyone to Play It? No, Too Bad; Get an Angelus.

Possibly you have spent several hundred dollars for a good piano, but you haven't any one to play it—at least, not the way you like to hear it. So that your investment isn't paying—your piano is nothing more than a fine piece of furniture. This shouldn't be. It is neither just to the good piano nor yourself. If you buy an Angelus you can play your piano better than you could if you had a ten-year-five-thousand-dollar musical education. That's true. Come in and we'll prove it. If you get an Angelus and it can't do what we say, you get your money back.

AMERICAN PARTY TO BE RECEIVED BY QUEEN TODAY

Audience to Ambassador Reid and Wife by Prince and Princess of Wales.

DULL PROCESSION DAY

Friday Was Day Set for One of Gayest Events of Coronation Season. London Streets Almost Deserted. Visitors Rapidly Leaving.

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

London, June 27.—The American special ambassador, Whitelaw Reid, and Mrs. Reid called by appointment on the prince and princess of Wales this afternoon to take official leave of their royal highnesses. Mr. Reid is preparing to close up the special embassy and go to Portsmouth to visit Rear Admiral Arent S. Crowninshield, commander-in-chief of the European station, on the United States flagship Illinois.

Rear Admiral John C. Watson, who was to have represented the United States navy at the coronation, went to Paris yesterday evening, and Gen. James H. Wilson, the representative of the United States army in the special embassy, is to follow him. Col. John Biddle, Gen. Wilson's aid, will return to America.

After Mr. Reid's audience with the prince of Wales today it was decided that the flag shall remain flying over the special United States embassy tomorrow, owing to the receipt of an official intimation that Queen Alexandra will personally receive Mr. and Mrs. Reid at Buckingham palace on Saturday.

Royal Family's Hopefulness.

Mr. Reid's audience with the prince and princess of Wales today was quite extended and served to convince the ambassador that the members of the royal family are in even more hopeful spirits concerning the outcome of the king's illness than the public who are dependent chiefly on the statements contained in the bulletins.

The presence of the princess of Wales and the inclusion of Mrs. Reid in the audience was simply a continuation of that especially friendly attitude which the British royal family and government have throughout shown towards the American mission.

King Edward has expressed himself as greatly pleased with the reception of President Roosevelt's message of greeting and the members of the government have missed no opportunity throughout the mission's visit of indicating its appreciation of the friendly feeling shown by the United States.

What was to have gone down to history as procession day, when it was expected there would be the greatest crush ever witnessed in the streets of London, finds the city practically deserted. The bank holiday proclaimed for today paralyzed business. The masses, apparently surfeited with their eventless wanderings in the streets yesterday, either cleared out to the country, tempted by the perfect weather, or else stayed at home.

Sunday Quiet Prevails.

Certainly the main thoroughfares could not have been more deserted on any Sunday in the year. The big hotels, however, were each an oasis of activity amid the otherwise general stagnation. Many Americans are preparing to start for the continent and others have aleady gone there or to the country, while numbers took advantage of the fine day to visit the great fleet assembled off Spithead. Sir Thomas Lipton is entertaining a distinguished party on board his steam yacht Erin.

The fashionable cafes and restaurants were the scenes of numerous smart luncheons, while extensive, but quiet preparations were made for week-end house parties at the surrounding country places, whose owners seem to think that the situation warrants at least some subdued gaiety in honor of the many prominent visitors.

$750,000 FOR ADDITIONS TO ORMSBY YARDS

the new four-track system which the Pennsylvania railroad is having built under the supervision of J. R. Potter, assistant to Chief Engineer William H. Brown. The new yards will skirt these along Sarah street and extend to Carson, between Thirty-third and Thirty-sixth streets.

The realty purchases for the extensions to the Ormsby classification yards are costing about $500,000. Within a few days The Gazette noted the purchase of the tract owned by the Werner interests at Carson and Thirty-fourth streets. This deal was closed by the real estate firm of P. D. Nicols & Co. The additional property purchased, or under option, includes the following: The Keystone brewery property at Thirty-third and Carson streets, opposite the Keystone brewery plant of the Pittsburgh Brewing Company; the Equitable Trust Company and the Werner property, adjoining; the C. Werner property opposite on Thirty-fourth street and fronting on Carson street, the S. C. Hays properties, the W. M. McClurg properties, the Lanz properties, the Steenrod property and smaller strips known as the Donahue, McNally and Strong properties. These last terminate in an angle near Thirty-sixth street.

With the new classification yards at old Brighton station and the extension of the Ormsby yards on the South Side, the Pennsylvania will be able to handle the freight for the consignees along the Monongahela division, otherwise the Pittsburgh, Virginia & Charleston, without delay.

HAHN IS UNMOLESTED.

New York Detective Makes No Attempt to Secure Mansfield Man Wanted for Larceny.

MANSFIELD, O., June 27.—Detective Brindley, sent here from New York after ex-Insurance Commissioner William M. Hahn, wanted at New York on the charge of grand larceny of $89,360 of the funds of the defunct Manhattan Fire Insurance Company, made no attempt today to get him from Chief of Police Well. Hahn, accompanied by the chief, was on the streets during the day. The habeas corpus proceedings have been anticipated, but nothing was done.

Tonight Harry M. Daugherty, Hahn's attorney, and C. F. McBride, representing the New York district attorney, were called to Columbus to meet Gov. Nash tomorrow. Hahn and Chief of Police Well are at Hahn's farm tonight.

NEW YORK, June 27.—Assistant District Attorney Garvin will leave tonight for Columbus, O., where he will make a legal struggle to bring to this city William M. Hahn.

Rhulin Challenges Winner.

LONDON, June 27.—"Gus" Ruhlin of Akron, O., who defeated Tom Sharkey of New York in the 11th round before the National Sporting club last Wednesday, challenges the winner of the approaching Jeffries-Fitzsimmons contest at San Francisco, to fight either in England or the United States.

KING SHOWS IMPROVEMENT

was Mr. Arthur Balfour, who drove up in a hansom shortly after 9 o'clock, but stayed only a few minutes.

As the time approached for posting up the morning bulletin the crowd rapidly increased. At 10:30 there were about 1,000 people standing around the gates.

Propose Greeting for Kitchener.

The Times this morning says: "The king remains recumbent; he takes with comfort the nourishment appropriate to his condition and keeps bright and cheerful in spite of the irksomeness of his enforced inactivity. Some of his medical advisers are always in attendance. There is, happily, good reason for hoping that his majesty will make a complete and speedy recovery."

In an editorial article the Times suggests utilizing the return of Lord Kitchener to England as a suitable occasion to organize some kind of ceremonial in which Queen Alexandra and the prince and princess of Wales might participate, to express the national feeling of thankfulness over the king's recovery.

Lord Kitchener left Cape Town for England on the Pacific Steam Navigation Company's steamer Orotava June 23. He is expected to arrive about July 12.

WORDS OF SYMPATHY FOR KING EDWARD VII

Resolutions Adopted Yesterday by the British-Born Citizens of Pittsburgh.

A number of British-born residents of Pittsburgh met yesterday morning in the chapel of the First Presbyterian church to express their sympathy for King Edward and the royal family. Alexander Dempster was chairman and Charles Hyde secretary. The following resolution, offered by James I. Buchanan, was adopted:

"We, American citizens of the city of Pittsburgh, deem it not incompatible with our love for and devotion to our dear adopted land to cherish feelings of kindness for the land of our nativity, and embalm the blessings enjoyed under the benign government of Britain's illustrious queen in memory's retreat, nor do we deem it derogatory to our American patriotism to admire the principles of her noble son, Edward VII, as contained in the sentiment expressed by him under the hallowed shadows that hovered over the solemn ceremony of his assuming the reins of government, in the memorable words, 'I am fully determined to be a constitutional sovereign in the strictest sense of the word and so long as there is breath in my body to work for the good and amelioration of my people'—a truly noble sentiment, worthy of a king—and which we believe permeated the counsels that stopped the ravages of war in Africa and brought the blessings of peace to his people and gave the world assurance of the humanity that throbbed within his breast; and having heard of the sad calamity that has cast a pall over the rejoicings of the coronation ceremonies and sent a thrill of anguish through the hearts of his loyal peoeple, and overshadowed their hopes with gloom, do hereby express our sympathy to him and his family as they are called to 'pass under the rod' of affliction and unite our hearts in hope that his life may be long spared to dispense the blessings of government under and through fealty to Almighty God in the exercise of that truly royal sentiment 'to work for the good and amelioration of his people.'

"Long live such a king in blessing to his people."

A copy of the resolution was ordered sent to the royal family, the American ambassador in London, the British ambassador in Washington and to the Pittsburgh papers. The following cable message was then sent to Ambassador Choate for transmission to the royal family:

Ambassador Choate, London:

British-born American citizens of Pittsburgh express sympathy with king and hope for recovery. Resolution mailed.

ALEXANDER DEMPSTER,
Chairman.
CHARLES HYDE, Secretary.

HAS COMFORTABLE DAY.

Signed Treves, Laking, Barlow.

The 10 a. m. bulletin says:

CELEBRATED AT SEA.

Passengers on the New England Did Not Know Coronation Was Postponed.

BOSTON, June 27.—The passengers on board the Dominion line steamer New England observed the coronation day of King Edward at sea yesterday. The first intimation of the king's illness and the postponement of the coronation reached them when the vessel reached her dock today.

The celebration included a salute of 21 guns, and in the evening a fireworks display.

FIRST THOUGHT FOR PEOPLE.

King Edward's Greatest Feeling for Disappointment They Must Suffer.

LONDON, June 28.—(Copyright.) Lord Warwick, proposing a vote of sympathy with the king at a meeting of the Warwick town council yesterday, said he had been told on good authority that the first words the king uttered on recovering consciousness after the operation were:

"Will my people ever forgive me?"

This was a reference, of course, to the disappointment caused by the postponement of the coronation.

Humors

They take possession of the body, and are Lords of Misrule.

They are attended by pimples, boils, the itching tetter, salt rheum and other cutaneous eruptions; by feelings of weakness, languor, general debility and what not.

They cause more suffering than anything else.

Health, Strength, Peace and Pleasure require their expulsion, and this is positively effected, according to thousands of grateful testimonials, by

Hood's Sarsaparilla

Which radically and permanently drives them out and builds up the whole system.

PITTSBURGHERS FORM SYNDICATE OF $14,000,000

Organized for Vast Terminal Railroad and Coal Operations.

TWO COMPANIES FORMED

Pittsburgh Terminal Railroad & Coal Co. Is to Produce 4,000 Tons Daily and Allied Railroad Is to Operate 30 Miles and 100 Acres of Yards.

The Pittsburgh Terminal Railroad & Coal Company was formally organized yesterday and the West Side Belt Railroad Company reorganized for operations which will involve an investment of $14,000,000. The railroad end of the combined interest will operate a terminal system of 30 miles, which it is planned to extend, and within a few months the coal properties will be opened for a production of 4,000 tons a day.

Rails are now being laid for the West Side belt railroad, and in the course of a month the road will be open from Saw Mill run to Bruce station. By winter the rest of the road, now being graded, will be ready for operation.

Midway on the railroad line between Saw Mill run and Clairton it is planned to erect a great classification yard, covering 100 acres of territory, which will be a feeder for all the railroads of Pittsburgh. The West Side belt will connect with the Baltimore & Ohio at Bruce station. The new line will also cross the Wabash line, now being built.

The reorganized West Side Belt Railroad Company will be an allied interest, with practically the same owners in control of the Pittsburgh Terminal Railroad and Coal Company. The following officers were elected yesterday for the Pittsburgh Terminal Railroad and Coal Company: Charles Donnelly, president; Joshua Rhodes, treasurer; J. G. Patterson, secretary; and directors, T. Hart Given, Joshua Rhodes, F. F. Nicola, M. K. McMullin, J. D. Callery, A. W. Osborne, J. G. Patterson, S. H. Robbins, J. C. Gilchrist and T. N. Barnsdall.

The officers and directors named for the West Side Belt Railroad Company are as follows: F. M. Osborne, president; Charles Donnelly, vice president; Joshua Rhodes, treasurer; J. G. Patterson, secretary; and directors, F. M. Osborne, J. G. Patterson, T. H. Given, J. D. Callery, M. K. McMullin, Joshua Rhodes, F. F. Nicola, T. N. Barnsdall, S. H. Robbins, A. W. Osborne and Charles Donnelly.

The two interests will together represent an investment of $14,000,000. Contracts have been let for part of the work involved in the opening of 10 mines. The Pittsburgh Construction Company has the contract for building the section of the railroad from Saw Mill run to Bruce station, and is now laying the rails.

Ferguson & Co. of New York, who are doing much of the construction work on the new line of the Wabash, have the contract for building the line beyond Bruce station to Clairton, where connection will be had with the terminal railroad system of the Crucible Steel Company of America.

Messrs. Osborne, Patterson and S. H. Robbins are former officers of the Pittsburgh Coal Company. Charles Donnelly, president of the Terminal Railroad and Coal Company, and vice president of the West Side Belt Railroad Company, was a director in the old organization of the West Side Belt Railroad Company.

At the Saw Mill run intersection with the Ohio river the combined companies will have a river frontage of 2,000 feet. This, with the connection with other railroads, will give them the means of operating as the strongest independent terminal interest in the Pittsburgh district.

Marvelous Escape from Death!

PAINE'S CELERY COMPOUND

Does a Wondrous Work for a Lady Who Was Almost Crazed With Pain and Suffering.

It is well known that terrible rheumatism, sciatica and neuralgia cause more helplessness, acute suffering and agony than any of the other diseases that afflict humanity. The great medicinal virtues of Paine's Celery Compound make it the only trustworthy specific for the cure of all forms of rheumatism and neuralgia. Thousands of strong testimonial letters from the most prominent people of the land prove that Paine's Celery Compound has banished these terribly fatal troubles when all other treatment has failed. Mrs. Margaret Bethel of Brainerd, Minn., after thirty years of agonizing tortures had a desire to end her life, if it was the will of Heaven; she almost prayed for the time to lay it down. Heaven-directed, she made use of Paine's Celery Compound and is enjoying true life once more. She says:

"For thirty years I have been a great sufferer from neuralgia in the head, and also with rheumatism in the whole body. I began taking Paine's Celery Compound and soon found I was much better. Before taking the Compound my life was such a burden that I almost prayed to lay it down. I was bedfast every two weeks with horrible pain in the head, back and neck, until I was almost crazed. I am able to do harder work and more of it today than for twenty-five years. I am really enjoying life again, thanks to Paine's Celery Compound. I am satisfied that my life has been prolonged many years by its use."

Some Words on Early Closing.

The store is open throughout this Saturday—closing promptly at 6 o'clock.

On Monday we begin closing at 5 every evening except Saturday—Saturday at 1 P. M.

This closing time will continue until further notice.

We have heard some flattering comments as to our being the poineers in the early closing of the retail stores through the warm months, and have a just pride in doing so.

We should like to see a general movement for Saturday closing at 1 through July and August—but are somewhat afraid that is a long way off.

Our family of 1,500 employes enjoy the hours they get from regular time more than we could explain, and our public can do its share by endeavoring to do as much shopping in the early hours of the day as possible.

More of the $10 Women's Wash Dresses.

A supplemental order has arrived and the choosing today among the $10 Dimity Dresses is in no wise lessened.

Smart dresses of the prettiest of wash stuffs for the round price of $10—or rather dresses worth $20 selling for $10—is not an everyday occurrence.

We do not suppose we could duplicate these dresses again for anything like the price.

For any of the Summer occasions that you expect to attend, a more graceful or more attractive suit could not be devised.

Men's Negligee Shirts.

Tan is a faddish color for men—lots of men wearing our tan colored Madras Negligee Shirts which we are selling for $1. One pair detached cuffs go with each shirt.

$1 is our price, but we know where they are being sold for $1.50—identical shirt—and they are worth it.

The pretty tan shade is relieved with very neat black, blue and red figures or stripes.

Men's Fancy Socks—new ideas in silk embroidery on cotton and lisle. New grays and tans—open work and solid—pretty and cheap, 50c a pair.

Plenty black open work and silk embroidered at 50c a pair.

Loud socks are tabooed this year and you will find these the consummation of neatness.

Men's Underwear for chilly mornings and evenings, and, dear knows, we're having enough of them. Best we know of is Dr. Deimel's Linen Mesh Underwear. One of its singular qualities is that being a mesh it has remarkable warmth. Not at all expensive.

If you are in doubt as to linen then we refer you to our true wool underwear made for us by I. & R. Morley of London. It is a remarkable underwear—being all wool and of very light weight it is positively unshrinkable. We so guarantee it. It can be worn until the last thread gives away, which will be a long while, and not find a particle of shrinkage. $2 and $2.75 a garment, according to size.

Of other good grades of Underwear we commend are

Gauze gray Merino Shirts and Drawers which we sell for $1 a garment.
German natural Merino Shirts and Drawers, $1.50 each.
White gauze Shirts and Drawers, $1 and $1.25 each.
French Balbriggan Shirts and Drawers, $1 each.
German Balbriggan Shirts and Drawers, $1.25 each.
English Balbriggan Shirts and Drawers, $1.50 each.

All the above are in weights suitable for such weather as we are now having—neither too light nor too heavy.

SEVENTH WEEK OF BIG STRIKE ALMOST ENDED

Struggle Exceedingly Free from Disturbance, Considering Number Involved.

ARRESTS AT SCRANTON

Two Men Fined for Disorderly Conduct and Held Under Charge of Riot—Philadelphia & Reading Orders 400 Evictions.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

Wilkesbarre, Pa., June 27.—Tomorrow will end the seventh week of the great anthracite coal mine workers' strike. The lines remain tightly drawn and neither side shows the slightest disposition to weaken. Excepting President Mitchell's offer to arbitrate, there has been no proposition advanced by either of the parties to the controversy since the strike began.

That a settlement of the strike may be reached soon is by no means an impossibility. While no information can be had on the matter, it is still believed that that some outside party is going over the situation with a view of finding a way to bring the miners and the operators together. If such is being done it is not likely that any move will be made until after the special national convention of the mine workers next month at Indianapolis.

Considering the great number of men idle, the strike is remarkably quiet. Including those who have been laid off by reason of dull times on account of the suspension it is estimated that fully 165,000 persons are out of work in this section of the state. There was a slight disturbance at the Lehigh and Wilkesbarre Company's Stanton colliery at South Wilkesbarre today, caused by 15 Poles attempting to assault two men who were going to work. Six were arrested.

SCRANTON, PA., June 27.—District Board Member Stephen Reap, Edward Lawler and John Lyon, Oliphant strikers, were arrested today at the instance of the Deleware and Hudson Company for disorderly conduct and rioting. They were charged with being in the crowd of 500 men who held up three workmen Wednesday evening near the Eddy Creek colliery and forced them to turn back. Warrants for 30 others have been issued.

Reap was fined $20 for disorderly conduct and held in $500 bail to answer at court for rioting. The other two were fined $10 each and held in $200 bail.

POTTSVILLE, PA., June 27.—The Philadelphia and Reading Coal and Iron Company has served notices upon 400 tenants of the company at Locustdale to quit the premises occupied by them within 10 days.

ROANOKE, VA., June 27.—For the first time since the strike was declared by the soft coal miners in the Pocahontas Flat Top fields on June 7, the reports received at the general offices of the Norfolk & Western Railway Company show that every operator in those fields is doing some work. There was an increase in yesterday's output of nearly 100 cars over that of the previous day, when 400 cars were loaded.

PARKERSBURG, W. VA., June 27.—(Special.)—"Mother" Jones and the 11 strike leaders who were on trial for violation of an injunction issued by the United States court, were released today until July 11, when their cases will be taken up. Judge Jackson warned them against interfering in any way with men at work. He told them they had no constitutional right to come here from another state and interfere with those who wished to work. He promised severe punishment if they attempt again to incite a strike.

ONLY TWO APPLICANTS.

West Point Cadetship Examination Conducted in Allegheny.

The competitive examination for a cadetship at West Point, offered by Congressman William H. Graham of Allegheny, was held yesterday at the Allegheny high school. There were but three applicants to take the physical examination, which was made by Dr. C. H. Voigt on Thursday night. Stanley L. James, a graduate of Allegheny high school, and Charles Rudolf, Jr., a junior of the same school, were the only two to take the mental examinations.

The examination is of the usual kind, embracing reading, writing, algebra, geometry, English composition, geography, physiology and hygiene.

The examination questions were prepared by Prof. George A. Spindler of the Third ward schools; Prof. W. A. Melony of the Second ward schools and Prof. Samuel G. Nolin of the Allegheny high school.

Thinks Guthrie Will Accept.

S. B. Griffith, who was not a delegate to the Democratic state convention at Erie, but was a Guthrie worker, said yesterday that he believed that George W. Guthrie would accept the nomination for lieutenant governor. Mr. Griffith said he had information sufficient to assure him that Mr. Guthrie would not refuse. Mr. Guthrie himself said yesterday that he would not say "just now" what his action would be.

Elopers Get Blessing and Check.

BOSTON, June 27.—Miss Katherine Howard Webster of Brookline, one of the most beautiful young women in Boston's richest suburb, and Dudley Lathrop Loomis of Tiffin, O., a student at Harvard, were quietly married by the Rev. Leonard K. Storrs, rector of St. Paul's church, on June 11. The story of the elopement did not come out until today. The news was broken to Mr. Webster and he gave them his blessing and a handsome check.

A Summer Trip Unsurpassed on the Continent.

The trip to Salt Lake City or to the Pacific coast, via that point, over the Denver & Rio Grande and the Rio Grande Western, is the most beautiful in America. No European trip of equal length can compare with it in grandeur of scenery or wealth of novel interest. Then Salt Lake City itself is a most quaint and picturesque place and well worth the journey. Its Mormon temple, tabernacle, tithing office and church institutions; its hot sulphur springs within the city limits; its delightful temperature, sunny climate and its Great Salt lake—deader and denser than the Dead sea in Palestine—are but a few features of Salt Lake City's countless attractions. There are parks, drives, canyons and beautiful outlying mountain and lake resorts. Imagine, if you can, a bath in salt water a mile above sea level and in water in which the human body cannot sink. Inquire of your nearest ticket agent for low tourist rates to Salt Lake City, or write for information and copy of "Salt Lake City, the City of the Saints," to S. K. Hooper, general passenger agent, Denver, Col.

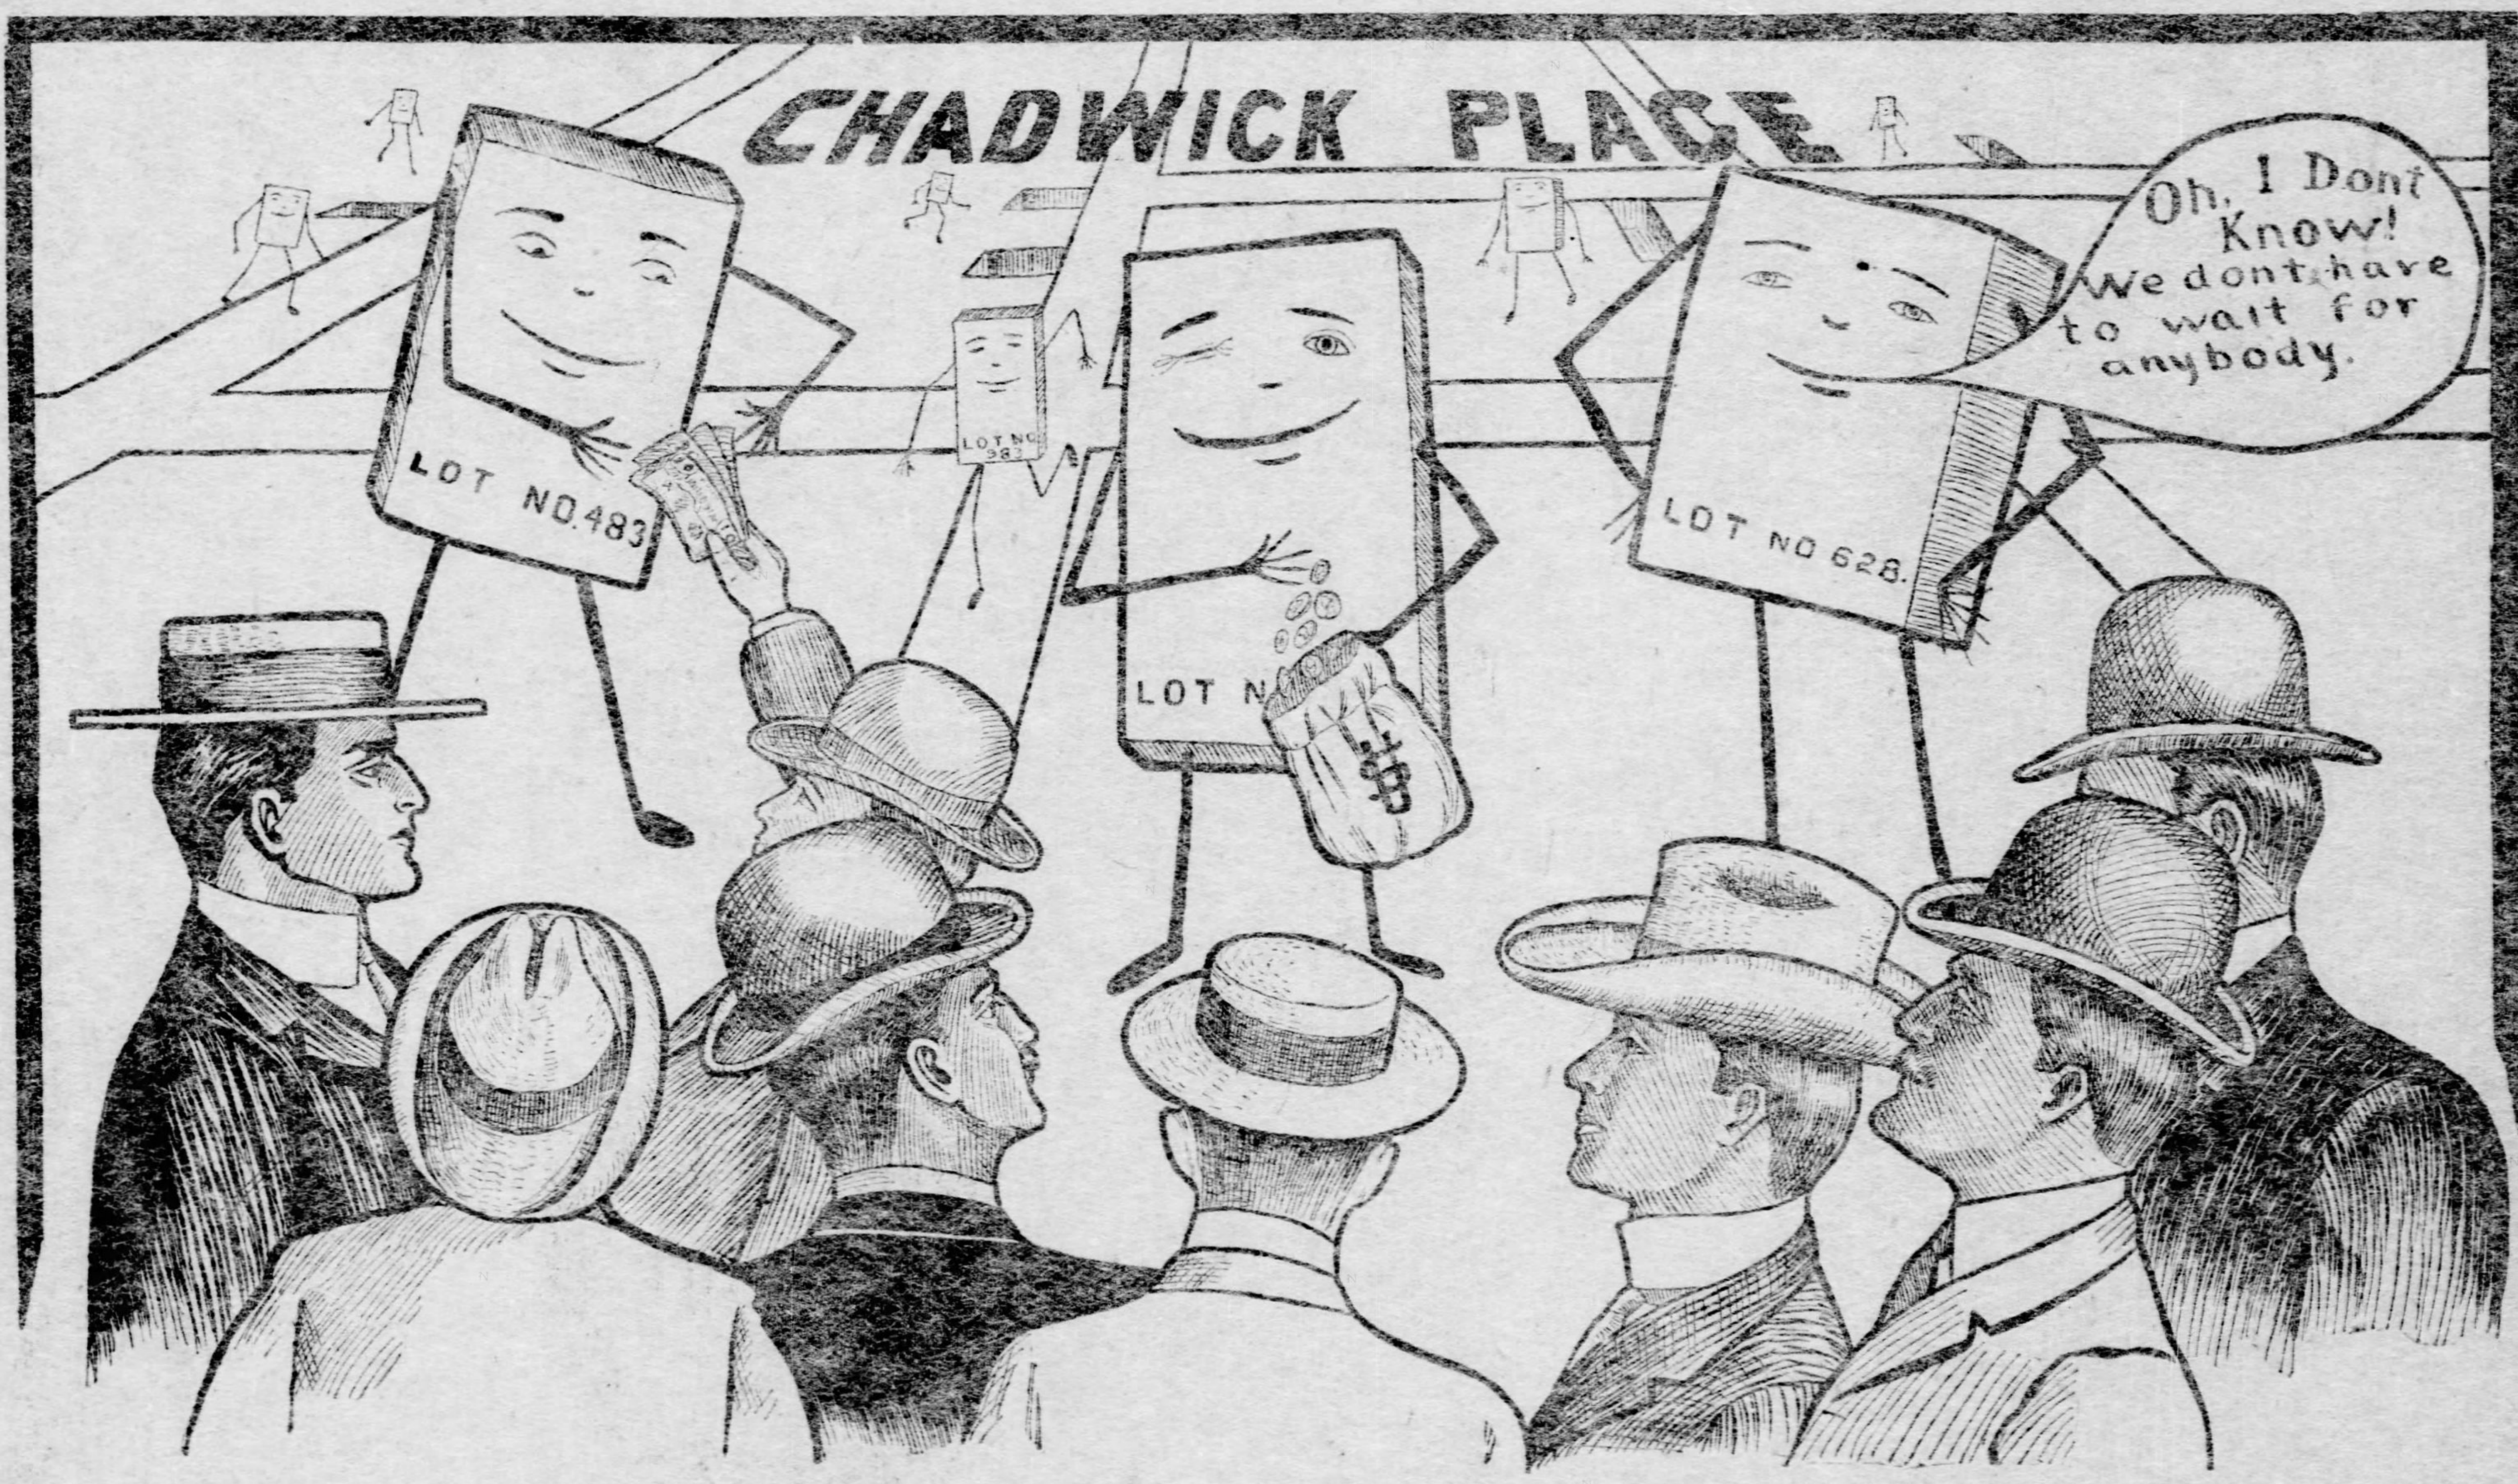
The Kind You Have Always Bought

THE GRAND RUSH FOR

CHADWICK PLACE LOTS

Has Already Begun! Sale Started This Morning.

The crowds are there before the expected hour. It doesn't require experienced real estate salesmen to sell these lots. They are their own salesmen: People are coming in and planking down their first payments without ever thinking of salesmen. It's the first time in the history of the real estate business of Pittsburgh that lots have sold themselves as fast as the cashiers at the windows could find time to receive the money.



The marvelous sales of Squirrel Hill property, talked so much about in the past, have lost their records forever, owing to this unprecedented dash of investors to undoubtedly the greatest sale of home sites ever put upon the market.

Why Are These Lots Their Own Salesmen?

Why Are They Selling On Sight?

Ask the people who have already visited the grounds and bought. They will tell you that Chadwick Place Lots are going so fast because the lots next to them on adjoining property are selling for three times the price—and that these lots on adjoining property haven't the improvements that Chadwick Place has—that they are not surrounded by the same architectural beauty and magnificent scenery—that they are not in any respect worthy of comparison, yet surrounding property is good East End real estate made desirable by the best culture and refinement. The whole section has been built up and inhabited by families of the highest respectability. This is what makes a neighborhood and what will help make Chadwick Place.

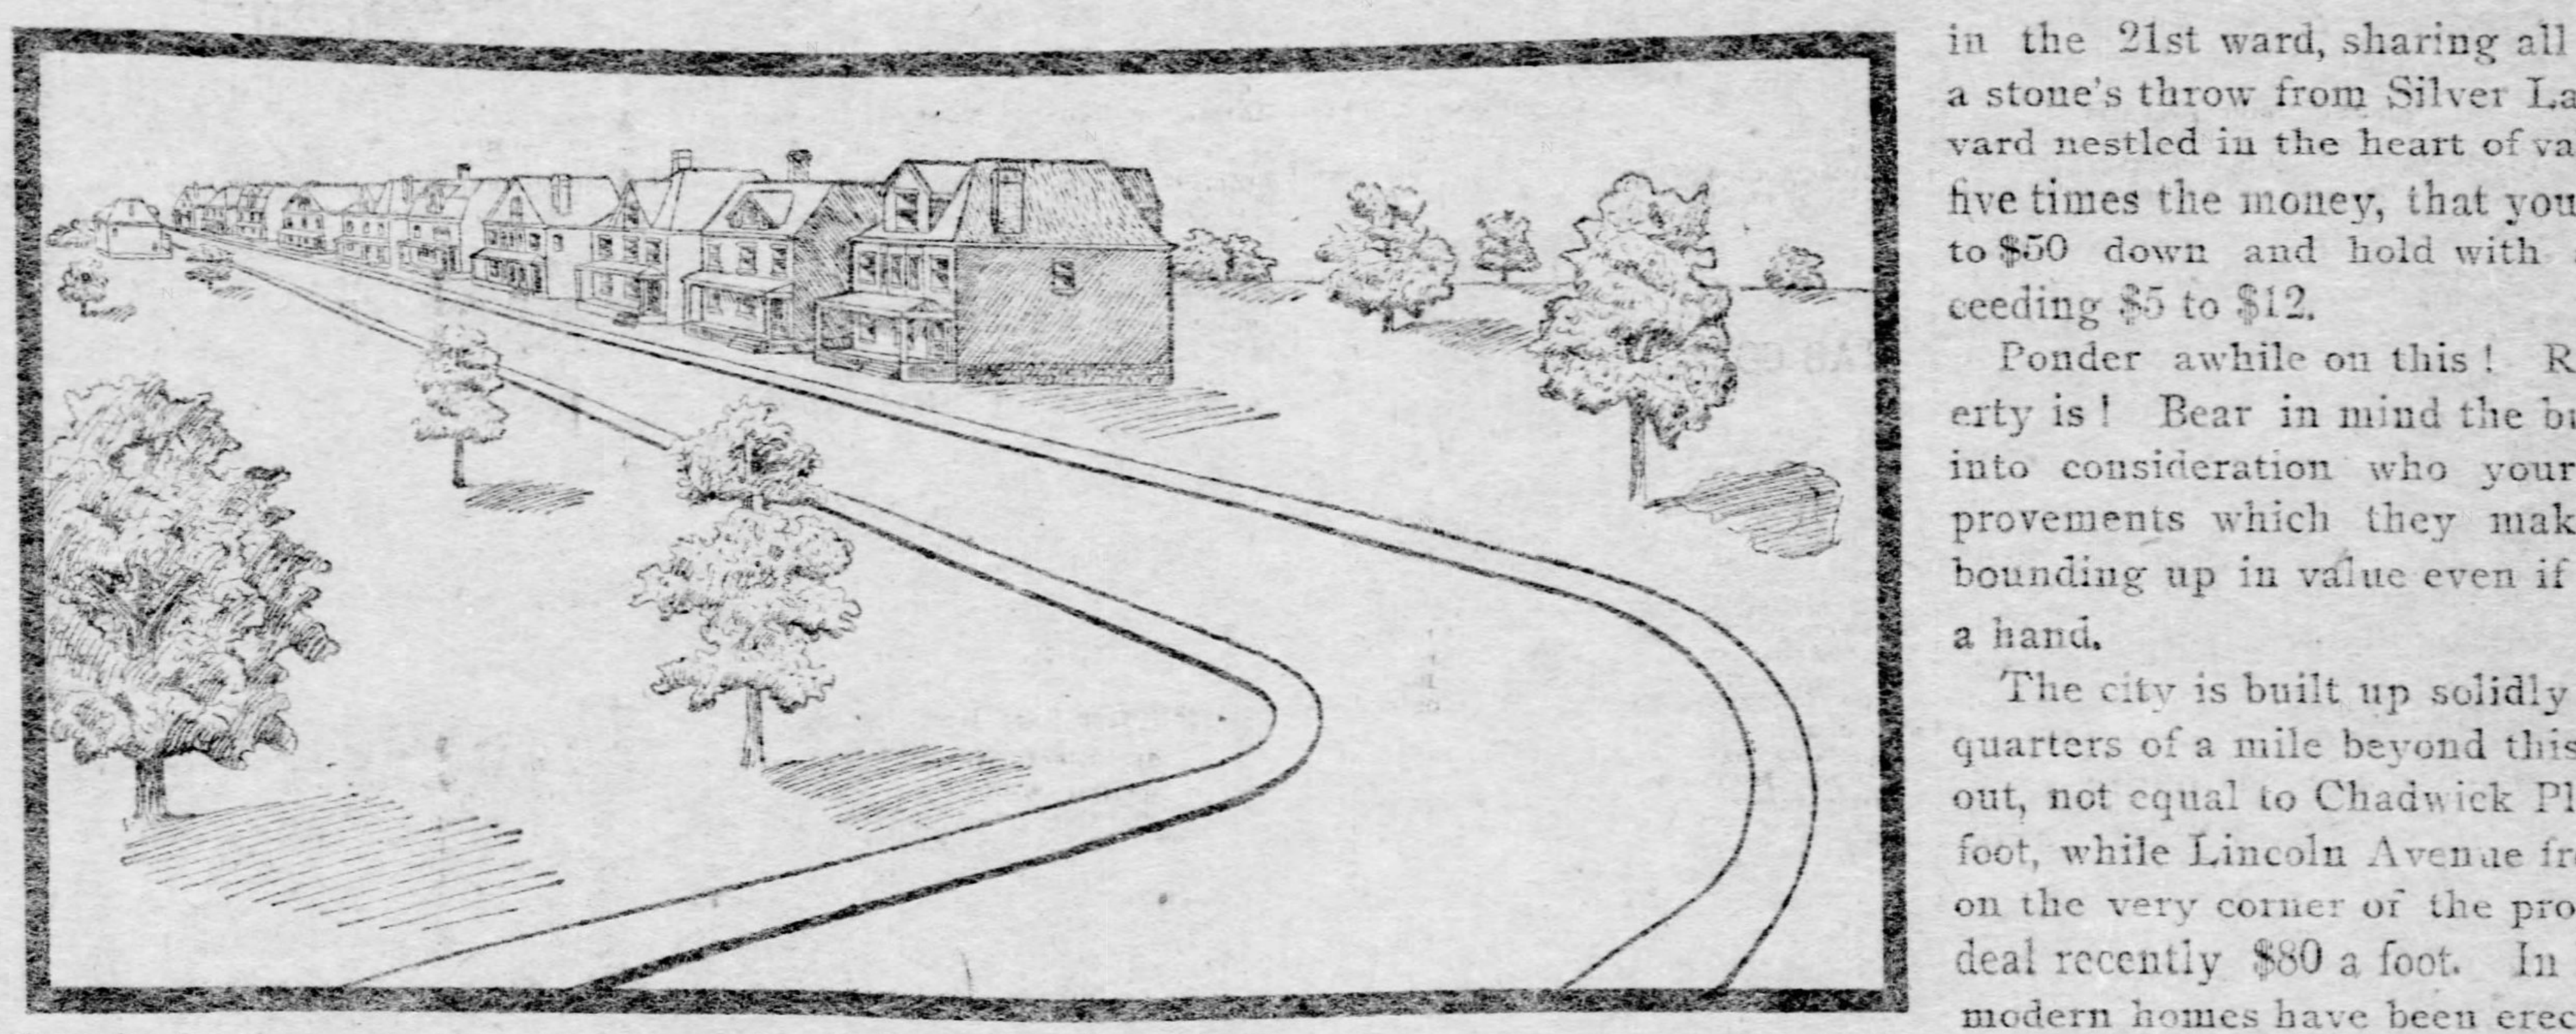
Remember that this is the day the great event is taking place. The crowds started when the sun went up. They are there laying the foundation for investments that will earn them more money than any source of investment could. Don't be among the tardy ones. Get in with the money makers. That means start now. Get an hour off from your work. Drop everything to get to the property.

Why has such stirring building operations started on this property before the promoters have had time to organize a sale? Why are nearly a hundred magnificent, colonial-style residences going up all over the plan ahead of the day scheduled for putting the property on the market? How do so many people hear about a thing before it happens? They don't, only a few do, but those who do, buy! that's the secret! The quality and location of Chadwick Place is an argument that makes folks open their pocketbooks.

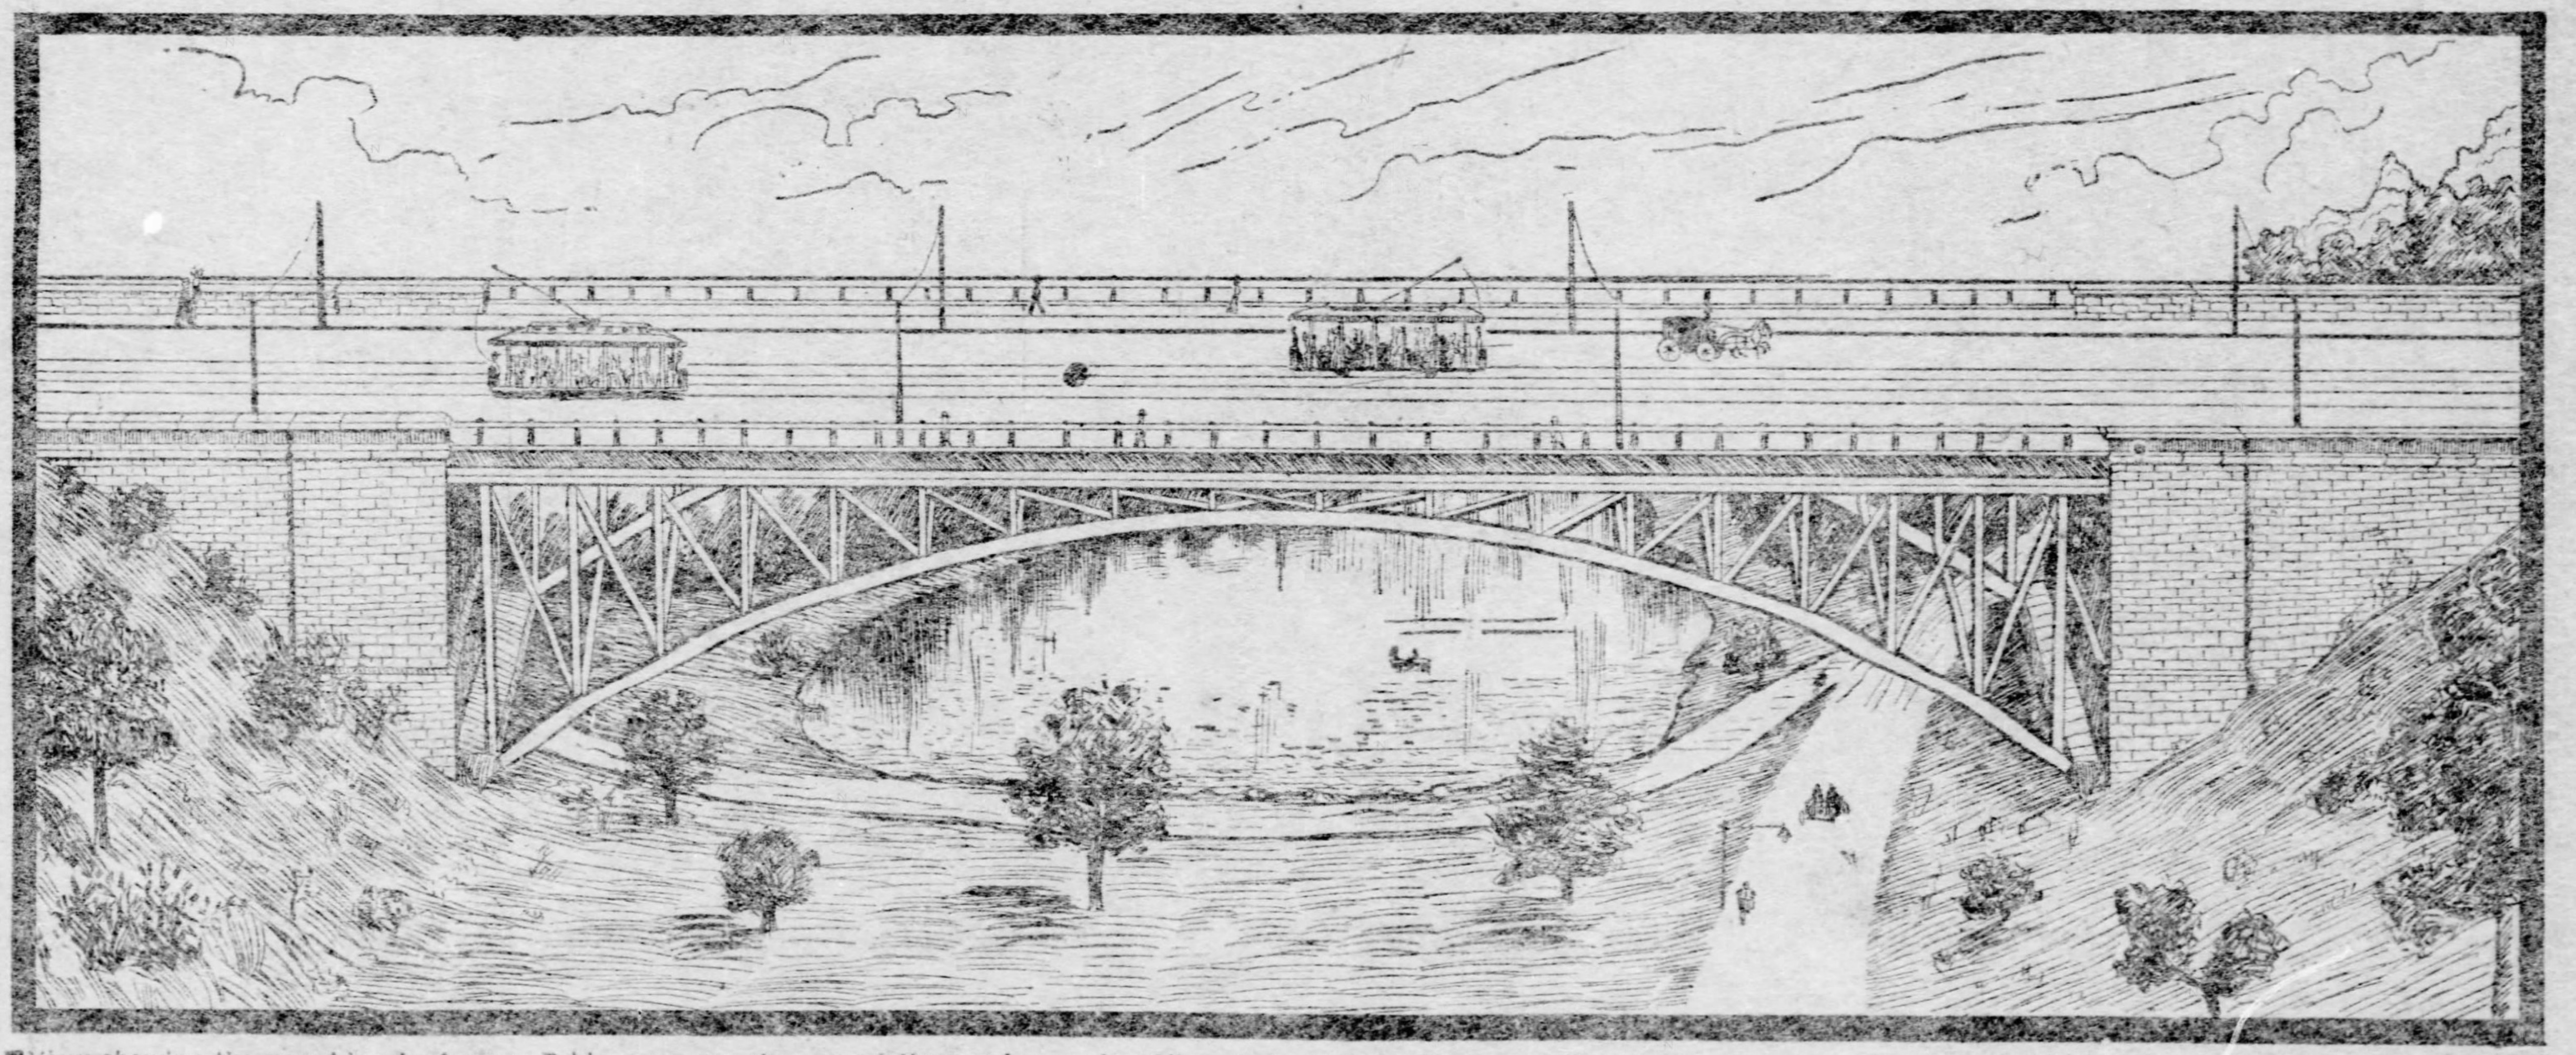
Property in towns built up by the founding of gigantic industries appeals to men because they know that wherever employment is established population is sure to come. But here is a property, refined, picturesque, level, commanding a view of Highland Park and Herron Hill, on the choice part of Lincoln Avenue, in the 21st ward, sharing all the city conveniences, but a stone's throw from Silver Lake and Beechwood Boulevard nestled in the heart of valuable frontage, selling for five times the money, that you can buy by paying $15 to $50 down and hold with a monthly outlay not exceeding $5 to $12.

Ponder awhile on this! Remember where the property is! Bear in mind the building restrictions! Take into consideration who your neighbors are. That improvements which they make will keep your property bounding up in value even if you yourself do not turn a hand.

The city is built up solidly with fine homes for three-quarters of a mile beyond this plan, and frontage farther out, not equal to Chadwick Place, has sold at $35 to $40 a foot, while Lincoln Avenue frontage verging on the plan, on the very corner of the property, brought in a cash deal recently $80 a foot. In less than a year nearly 400 modern homes have been erected in this locality and the increase in inhabitants has reached 5,000.



View showing the famous horse-shoe curve on Lemington avenue, Chadwick, Place, which is really the center of the unequaled building activity.



View showing the new Lincoln Avenue Bridge, now nearing completion, and spanning Silver Lake and the Beechwood Boulevard—six squares from Chadwick Place, on route of the traction cars that pass the property.

Read these Directions Before Starting for Chadwick Place!

You can take traction cars at the corner of Wood street and Fifth avenue and get to the property in 28 minutes. The cars marked "Lincoln and Liberty Avenues" and cars bearing signs reading "East Liberty via Center Avenue" run direct to the plan without transfer. If you take cars marked "Penn Avenue via Frankstown" you can trasfer at Lincoln avenue. Wilkinsburg people can also transfer at this point.

Until the grand new Lincoln Avenue Bridge is finished passengers on the car line will have to transfer at bridge to cars in waiting at other end. The bridge is rapidly being pushed to completion; the American Bridge Company will have the structural steel work ready for erection as soon as the abutments are up.

Perfectly level lots commanding magnificent views, situated near the car line and railroad stations, will go in this first great sale at

$150 - $190 - $200 - $250 - $260
$275 - $300 - $325 - $350 - $375
$400 - $425 - $450 - and - $500

There will be no lots offered at this sale at a higher price than $500, and there will be plenty of lots at all of the above prices for investors who are on the grounds early.

The terms are: 10 Per Cent Down; Balance $5 to $12 a Month. 10 Per Cent Discount for Cash.

The title is perfect, having been examined and guaranteed by the Fidelity Title and Trust Company of Pittsburgh.

Remember that the prices and terms are exactly as stated. We do not resort to the practice of advertising lower prices than we have, nor quoting catchy prices on only a few lots. Attractive prices are on all the lots. How long figures so marvelously beneath regular market value will remain on these lots we are unable to promise, except that the figures will not be changed during the progress of the present remarkable sale.

After the sale the Board of Directors will meet to consider the advisability of advancing prices to reach the figures speculators are asking, but there is a sentiment in the company against this: the belief being that present prices are responsible for the tremendous building activity. Yet with such an unprecedented demand for both lots and houses, and with adjoining property selling at twice and three times the figures nothing on earth will be able to hold Chadwick Place prices for many weeks where they are today.

CAPITAL MADE OUT OF FAILURE OF RECIPROCITY

After Helping Its Defeat, Democrats Blame Republican Party for It.

ANTI-TRUST CRY RAISED

House Caucus of the Minority Advocates Removal of Differential Duty on Refined Sugar as Passed by the Lower Branch.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

Washington, D. C., June 27.—A caucus of the Democratic members of the house of representatives, held tonight, unanimously adopted the following declaration:

Resolved, first—That we condemn the Republican majority in congress for their failure to pass a measure providing reciprocity with Cuba.

The bill which passed the house of representatives was heartily supported by the Democratic minority after the protection to the sugar trust had been removed by the solid Democratic vote, aided by a small minority of the Republican members. As it passed the house the bill carried relief to Cuba, reduced the price of sugar to American consumers and struck a heavy blow at the notorious and obnoxious sugar trust. The refusal of the Republican senators to consider this measure unless the protection to the sugar trust should be restored, gives evidence that the president and Republican party in congress are willing to refuse relief to Cuba and totally ignore American consumers rather than abandon their alliance with the trusts.

The failure of all reciprocity legislation with Cuba rests upon the Republican administration, which is willing to reduce the duty on the raw sugar of our producers, but unwilling to destroy the sugar monopoly.

Second—That the Republican majority in congress is dominated and controlled by the trusts and monopolies which have the great industries of our country in their grasp, is shown by its action in passing an anti-trust bill through the house of representatives in the 56th congress on the closing hours of the session, the senate refusing to consider the same, as a subterfuge to tide over the election of 1900. That bill has been abandoned and they have ever since refused, and do now refuse, and fail to bring in any measure to suppress the trusts or to favorably report any of the numerous anti-trust bills introduced by Democratic members during this congress.

Third—That we favor the immediate passage of a measure to amend the present anti-trust law so as to more fully protect trade and commerce against unlawful restraints and monopolies, and also a measure to reduce the duties on all articles and commodities manufactured and controlled or produced in the United States by a trust or trusts, so as to destroy such illegal combinations, and to reduce the rate of duty on any article or commodity manufactured in the United States and sold in a foreign country more cheaply than in the United States.

Fourth—We oppose the adjournment of congress until the measures mentioned above have been enacted into law.

TALKED ON CUBA.

Senators Can't Abstain from the Topic, Even at This Stage.

WASHINGTON, D. C., June 27.—Quite unexpectedly a sharp debate arose in the senate today on the question of Cuban reciprocity. Mr. Teller of Colorado, at whose instance the senate committee on Cuban relations made its investigation of the subject, delivered a spirited speech in opposition to reciprocity with Cuba. He charged that the entire reciprocity propaganda had been backed by the American Sugar Refining Company and by Americans who were interested financially in Cuban sugar plantations. Mr. Platt of Connecticut, chairman of the Cuban relations committee, replied to the Colorado senator. He said the making of some concessions to Cuba is a plain duty of this country.

A resolution was adopted authorizing the committee on territories to sit during the recess to consider bills providing for the admission of territories to statehood.

A bill was passed to incorporate the Society of the Army of Santiago de Cuba.

MORGAN NOT SATISFIED.

Asks the Senate for Investigation of Panama Canal Company.

WASHINGTON, D. C., June 27.—Senator Morgan, chairman of the senate committee on inter-oceanic canals, today introduced a resolution in the senate authorizing his committee to investigate the purposes of the shareholders of the Panama Canal Company and the prospect of their securing benefits from the sale of the canal franchises to the United States.

Senators Hanna and Quay objected to consideration of the resolution and it went over until tomorrow.

NATIONAL CAPITAL NOTES.

President Roosevelt arrived from his New England trip at 10:35 a. m.

Senator Hanna will introduce a resolution for congressional investigation of the Cuban postal frauds.

United States troops are guarding the Virginia village of Rosslyn, where soldiers are under arrest for raiding a saloon. Fort Meyer authorities will investigate.

The conferees on the naval appropriation reached a complete agreement on all items except that on building warships in government yards.

The house passed a bill previously passed by the senate, to authorize the West Elizabeth and Dravosburg Bridge Company to construct a bridge across the Monongahela river at Port Vue, Pa.

The labor committee of the house has perfected and ordered a favorable report on the bill empowering the president to appoint federal arbitration boards to investigate and adjust strikes and lockouts.

The agricultural committee of the house decided to accept the senate substitute for the Appalachian forest reserve bill with some minor changes, but to defer action until next December.

The ways and means committee of the house ordered a favorable report on the bill refunding the duties paid on goods from Porto Rico and the Philippines prior to the passage of the tariff acts.

Congressman Fred J. Kern of Belleville, Ill., and his private secretary, Charles A. Karch, were arrested Thursday night on a charge of disorderly conduct. They had been in a Pennsylvania avenue restaurant, which they left shortly before midnight. The actions of the congressman on the sidewalk caused his arrest.

Fiftieth Wedding Anniversary Celebrated by Mr. and Mrs. Smith.

MR. AND MRS. SAMUEL SMITH.

Mr. and Mrs. Samuel Smith, the best-known old residents of Wilmerding, celebrated their golden wedding anniversary at their home in State street yesterday. The home was the scene of a merry gathering the entire day, and many friends of the old couple from the towns in the Monongahela valley were in attendance. The aged couple are now 69 years old and in good health. They were born within a short distance of each other in Lancashire, England, in 1833, and were married at the same place in 1852. In 1856 they landed in America and settled in Ohio. They moved to Braddock after living in Ohio for two years. Nine years ago they moved to Wilmerding where they have since resided. The couple are the parents of 11 children, six of whom are still living, and 37 grandchildren. Among the many presents received during the day was a large wedding cake, having an appropriate design of their anniversary and gold coins aggregating a neat sum.

FIRST SESSION OF SCIENTIFIC ORGANIZATIONS

Engineers, Entomologists and Microscopists Held Annual Meetings.

DEBATE ON PAPERS READ

Opening Sessions of Their Organizations Affiliated With the American Association for the Advancement of Science at Carnegie Institute.

The session of the American Association for the Advancement of Science began yesterday with the annual meetings of three of the affiliated societies. The Society for the Promotion of Engineering held its tenth annual meeting in the middle lecture hall of the Carnegie institute. Prof. Robert Fletcher of the Thayer School of Civil Engineering presided.

Several papers were read and discussed at the afternoon session. Francis C. Caldwell, professor of electrical engineering of the Ohio State university, read a paper on laboratory notes and reports, dealing with the methods in use in his school. Various other professors gave their views of the uses and abuses of notes which had come to their notice.

Charles F. Burgess of the University of Wisconsin read a paper on electro-chemistry as an engineering course. He said that industrial chemistry had forged far ahead of the scientific branch, although the discoveries made by the latter had materially aided in producing this result. It was not the original discoverer who reaped the benefit of his labors, but the man who succeeded in applying it to everyday uses.

The discussion on this paper was postponed until after the reading of a paper on a similar topic by Prof. Edward Orton, Jr., of the Ohio State university.

A discussion on a paper read by Prof. Raymond at last year's convention was held, in which the portions of the professor's paper relative to "vacations being time wasted," and "continuous work on a single subject," were severely criticised by Prof. Arthur N. Talbot of the University of Illinois and Prof. Carl L. Mees of the Rose Polytechnic Institute. Prof. Charles Mathews of the Purdue university read a paper on methods of grading students in engineering colleges. The meeting was adjourned until 9 a. m. today.

Entomologists in Session.

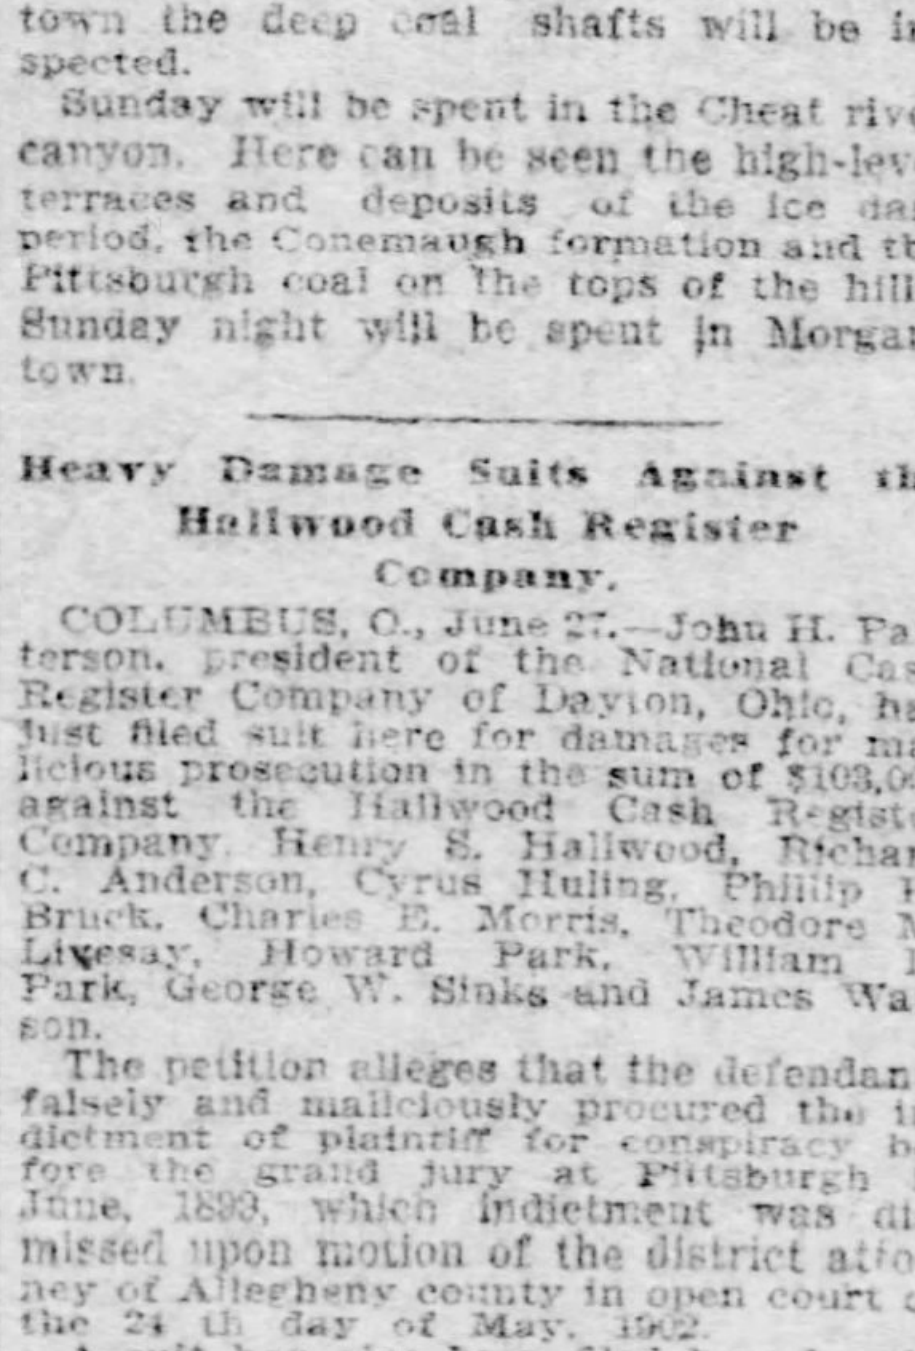
The Association of Economic Entomologists met in the west lecture room, Dr. Hopkins, state entomologist of West Virginia, presiding. The San Jose scale was the subject under discussion and reports of the methods used to prevent its spread and the results obtained were made by Prof. John B. Smith of Rutgers college and state entomologist of New Jersey; E. P. Feet, New York state entomologist; A. A. Burgess of Ohio and W. M. Scott of Georgia. The reports were not very encouraging as the same work of spraying trees with crude oil seemed to produce different results in different sections of the country.

The American Microscopical society met in the Phipps Botanical hall, Dr. Charles Bessey of Lincoln, Neb., presiding. Magnus Pflaum, a Pittsburgh attorney, custodian of the society, made the address of welcome, which was responded to by President Bessey. The custodian's report showed that the society had about $1,500 invested. The secretary's report showed a large increase in membership and several good-sized contributions to the research fund. Dr. H. B. Ward of Lincoln, Neb., read a paper on comparative histology as a guide to genetic connections, which was illustrated by lantern-slide pictures.

"The Development of the Liver in the Pig" was the subject of a paper by D. C. Hilton of Chicago, which was illustrated by charts. "The Growth of Chlamydomonas in Connecticut's Water Supply" was discussed by Dr. F. C. Hollis of the Yale Medical school. This morning L. B. Elliott of Rochester, N. Y., will give a demonstration of an improved form of photographic microscoping apparatus in the lecture room.

Address by Dr. Bessey.

At the meeting of the Microscopical society in the evening Dr. W. J. Holland welcomed the members in a neat address and paid a tribute to the speaker of the evening, Charles Edward Bessey, Ph. D., LL. D., of the University of Nebraska, president of the society. Dr. Bessey confined his remarks to the evolution of the lower plants, illustrating his address by means of a blackboard. He said that the brown seaweed might as well be cut out of the vegetable kingdom, so far as the good it has done to that kingdom is concerned. He classed the toadstool in the same manner, declaring that in it can easily be found signs of degradation.



DR. ANDREW D. HOPKINS,
President Association of Economic Entomology.

Dr. Bessey spoke interestingly upon the evolution of plants, devoting considerable of his discourse to the question of cells and to the scientific discoveries relative to the lower vegetation in and out of water. Another session of the society will be held this morning.

The west room of the art galleries has been transformed into an information bureau, where the secretaries of the various societies have established headquarters.

Geologists' Excursion.

The geologists spent the morning looking at different formations about the city, and in the afternoon went to Oakdale, where an oil well was shot with 120 quarts of nitro-glycerine. Last night many of them visited the Homestead steel works.

This morning at 6:30 they will be the guests of the Baltimore & Ohio railroad for a trip to Morgantown, and they will not return until 9 o'clock on Monday morning. The first stop will be in the Connellsville coking coal field, where opportunity will be given for the examination of the coal and different strata of rocks. At Dunbar a visit will be made to a by-product coke plant. Near Uniontown the deep coal shafts will be inspected.

Sunday will be spent in the Cheat river canyon. Here can be seen the high-level terraces and deposits of the ice dam period, the Conemaugh formation and the Pittsburgh coal on the tops of the hills. Sunday night will be spent in Morgantown.

Heavy Damage Suits Against the Hallwood Cash Register Company.

COLUMBUS, O., June 27.—John H. Patterson, president of the National Cash Register Company of Dayton, Ohio, has just filed suit here for damages for malicious prosecution in the sum of $103,000 against the Hallwood Cash Register Company, Henry S. Hallwood, Richard C. Anderson, Cyrus Huling, Philip H. Bruck, Charles E. Morris, Theodore M. Livesay, Howard Park, William D. Park, George W. Sinks and James Watson.

The petition alleges that the defendants falsely and maliciously procured the indictment of plaintiff for conspiracy before the grand jury at Pittsburgh in June, 1893, which indictment was dismissed upon motion of the district attorney of Allegheny county in open court on the 24 th day of May, 1902.

A suit has also been filed here by the National Cash Register Company against the same defendants in the sum of $127,500 for damages to the company arising out of the same proceedings in Pittsburgh, which were instigated by the Hallwood Company.

Beaver Judge Finds Flaw in Oleomargarine Law; Police Called to Protect Workmen at New Castle

BLOW DEALT AT OLEO LAW

Beaver County Judge Holds That Inspectors Are Illegal.

RELIES ON CONSTITUTION

[SPECIAL TELEGRAM TO THE GAZETTE.]

BEAVER, PA., June 27.—Judge Wilson today rendered a decision in an oleomargarine case which again strikes a blow at the machinery of the pure food commission.

J. E. Ewing, a grocer of Beaver Falls, was prosecuted three weeks ago by H. A. Hutchinson, an inspector of the pure food commission, for the sale of colored oleo. Ewing was fined. He applied to common pleas court for an injunction to restrain Hutchinson from further interfering with his business.

Judge Wilson today issued the restraining order, holding that under section 27 of article 3 of the constitution the state has no right to appoint inspectors of foodstuffs, but that such a power is lodged exclusively with counties and municipalities. Judge Wilson followed the decision rendered by Judge McClung of Allegheny county in a recent McKeesport case under the cheese law of June 23, 1897. The McKeesport case is now before the state supreme court.

YOUTH ATTEMPTS SUICIDE.

Washington Boy Swallows Laudanum and May Die.

WASHINGTON, PA., June 27.—(Special.)—Walter Naser, the 16-year-old son of George Naser, a butcher of Laboratory, near this place, attempted suicide this morning by swallowing laudanum. The boy had been reading novels, and while in a room with his mother, exclaimed: "I am going to kill myself."

He ran to a cupboard and procuring the bottle of laudanum, swallowed its contents at a gulp before his mother could stop him. A physician was at once summoned, and strong emetics administered, but there is little hope for the boy's recovery, as he has been unconscious for several hours, and every effort to resuscitate him has proved futile.

Double Wedding at Wooster.

WOOSTER, O., June 27.—Society was surprised last evening with a double wedding, when the guests had been invited to witness but one. Miss Kitty Walters and Earl Dickerson had just been pronounced man and wife by the minister when to the amazement of the guests Miss Lillie Walters, a sister of the bride, and Howard Mosely, came forward, and presenting a license to the clergyman, asked that he perform a like service for them. Mr. Mosely and his fiancee had kept their secret well, as not one of the guests knew anything of their plans.

Arrested for Kidnaping.

CORRY, PA., June 27.—(Special.)—There was excitement here today caused by an alleged attempt at kidnaping by Peter S. Kuse, the victim being an 8-year-old daughter of Martin McGraw. The child threw herself from the buggy in which she was being carried away. She was severely bruised. Kuse was arrested.

SAVED FROM JAIL BY INTOXICATION

A Homestead Man Wandered Into a House at New Castle.

[SPECIAL TELEGRAM TO THE GAZETTE.]

NEW CASTLE, PA., June 27.—Owing to the fact that Frank Bainbridge of Homestead was drunk when found late last night in the residence of William Reck in Kay street, he was set at liberty today. He says he came here yesterday with the Sons of St. George for an outing, but missed his train in the evening and had to remain over night. This so worried him, he stated, that he got drunk and knew nothing more until he was arrested at the Reck home.

Matt Lowan, a stranger, was arrested at the home of William Guildo a few minutes later. Guildo found Lowan concealed in the hall and covered him with a revolver until a policeman arrived. He would not tell why he was there.

The home of C. C. Campbell was entered last night when Mrs. Campbell was alone. She ran from the house and summoned neighbors, but the burglar heard the alarm and got away.

MINISTER ORDAINED.

Graduate of Allegheny Theological Seminary Made a Full-Fledged Pastor.

The Rev. John A. Gregg, a recent graduate of the Allegheny Theological seminary, was ordained last night by the Allegheny Presbytery in the Seventh United Presbyterian church, Allegheny.

The Rev. Dr. J. W. Witherspoon addressed the people, and the Rev. J. R. J. Milligan, the candidate. The Rev. George McDonald presided. Mr. Gregg was born in Manchester, and is one of the charter members of the Seventh church. He will assume the pastorate of the Leetsdale mission, of which he has had charge for the past six months.

The Rev. S. E. Ervine, who has been called to the Etna church, will be ordained and installed next Wednesday night. The Rev. C. F. Wishart will preach the sermon and the Rev. Dr. W. R. McMillan will address the congregation.

KILLED IN COLLISION.

Brakeman Loses His Life by Wreck on Baltimore & Ohio.

CUMBERLAND, MD., June 27.—(Special.)—There was a head-on collision today on the Pittsburgh division of the Baltimore & Ohio railroad at Brooks tunnel, near Confluence, killing Brakeman Harry Bowers of Cumberland. One of the freights was a double-header and was to receive orders to meet the other at Brooks tunnel, but, it is alleged, the engineer failed to receive orders.

The trains came together with a terrific crash, piling engines and cars into a mass and blocking both tracks. It is reported that J. B. Boyland of this city, a brakeman, fell from his train before the accident occurred, and was killed, but this report cannot be confirmed.

SCHWAB AT LORAIN.

United States Steel Officials Looking for Site for Tube Plant.

CLEVELAND, O., June 27.—A party of United States Steel Corporation officials, including President Charles M. Schwab, spent the day at Lorain and Conneaut, with a brief stop in this city. The purpose of the trip is said to be to locate the site for a large tubing plant.

News of the Rivers.

The Enterprise has arrived in port and if present plans are carried out the faithful old steamer will be dismantled.

Capt. Gordon Greene is walking on crutches. He sprained his left foot several weeks ago and has been laid up ever since.

Every effort will be made to have the steamer Gertrude in readiness to enter the Pittsburgh and Morgantown trade next Wednesday.

Capt. W. L. Sibert has gone to Morgantown to look after river improvements being made by the government. He will be home Monday.

The towboat Tornado, which is helping the Risher and B. D. Wood out, is expected to go on down the river and assist in with empties.

Capt. Jesse Hughes, one of the pilots of the Greenwood, is a Big Sandy river and Kanawha pilot, as well as knowing the course of the Ohio.

Capt. George Berridge, formerly steward of the steamer Keystone State, is now acting in the same capacity on the steamer Greenwood.

Capt. Warren Elsey contends that the reason there was not a barge stage of water in the Ohio yesterday was because not sufficient rain fell to make it.

The towboats Ford City and Robert Taylor went to Sewickley yesterday to try and pull the Oakland into deeper water. The boat was still aground there at last accounts.

Capt. B. W. Wood of New Orleans, who is on his way north, is ill in Detroit. Capt. John A. Wood, his brother, having received a letter from there to this effect. Capt. Wood has not been well for some time.

Pilot Fred Erwin says that an old German woman told him a number of months ago that there would be no rise to ship coal this summer. She based her belief on account of it having rained on Good Friday.

The steamer Elizabeth, leaving this afternoon for Morgantown, will have a large trip of round trip passengers. The boat is carrying a large number of persons to Mt. Chateau. She will have an orchestra aboard today.

In yesterday's Gazette it was stated that the Io was the only boat ever built that had but two letters in its name. This is a mistake, so Capt. James McClosky states. The Ce is the name of a little boat which used to tow French's floating theater.

Room 48, Board of Trade building, is now the Louisville uptown office of the United States Marine hospital, and mariners needing the services of either physician or surgeon will find either at the above location, instead of at the Custom house, as heretofore.

The United States snagging steamer E. A. Woodruff dynamited the barge of Kanawha slack coal that was sunk in front of Rising Sun by the towboat R. P. Gillham. It was consigned to A. H. Dugan & Co., of Louisville, but was never delivered, so they are not the losers.

As Capt. John H. Dippold is the only tripper who got a trip on the present rise, the well-known pilot yesterday said that he was thinking seriously of paying his friends who had been fooled here by the forecast of 8 feet of water, issued by the weather bureau, their return fare.

The new towboat Cadet, which has the machinery of the old Charles Jutte, made her first appearance in port yesterday with steam up and was given a royal ovation by the other boats. Capt. W. B. Rodgers, of the local sales department of the coal combination, was on the boat to watch the fun.

Capt. R. M. Boyd, of the J. C. Woodward, who was suspended for 60 days by the local steamboat inspectors on account of his vessel colliding with the Twilight and tow, has not yet appealed from the decision of the inspectors to Major S. R. Crumbaugh, but says that he intends to do so. The Woodward is expected to come off the docks Monday.

Capt. Gordon Greene, owner of the steamer Greenwood, has named his new packet the Evergreen. Thomas Bennett, the well-known mate, named the boat. Capt. Greene's name, of course, figures in it. The Evergreen was launched from the ways at Parkersburg last Tuesday. She has the machinery of the T. D. Dale. The boat is 120 feet long, 22 feet wide and her hold is 3½ feet deep.

SOME COAL WAS SHIPPED.

Two Tows Sent to Cincinnati and One to East Liverpool.

Several tows of coal were started down the Ohio yesterday afternoon. The towboat Cadet, which yesterday made her debut, was the first steamer to pass through the Davis Island dam, Capt. John H. Dippold at the wheel. She had one flat drawing 5 feet of water and the others drew a little less.

About 2 o'clock yesterday afternoon the coal combine officials decided to risk sending several tows of coal to Cincinnati, and accordingly the J. C. Risher and the B. D. Wood were ordered out, the Risher being the first boat to follow the Cadet. The latter boat, however, is only going to East Liverpool, while the Risher and Wood go through to Cincinnati. They will have craft not drawing over 6 feet and some a little less.

The Risher and Wood will be assisted to Beaver by the Clifton, Nellie Walton, Dave Wood, Tornado and Stelle Moren. The boats were ordered to take three barges each from the Davis Island dam, in order to get through the trap at Sewickley safely. If the boats get to Beaver safely no trouble is expected from there down on account of shoal water.

The Ohio river yesterday refused to rise above 5.5 feet at the dam, and remained at that stage for a number of hours, with the bear trap lowered. Several inches of a rise were reported in the afternoon at Greensboro, on the Monongahela.

POLICE CALLED BY WORKINGMEN

Furnace Laborers Threatened by Strikers at New Castle.

SEVERAL KNIVES DRAWN

[SPECIAL TELEGRAM TO THE GAZETTE.]

NEW CASTLE, PA., June 27.—The police were called this afternoon to save Rosena furnace laborers from injury at the hands of half a hundred striking Italians who attacked them because they refused to join their ranks as strikers. The Italians this morning demanded a decrease from 10 to nine hours for a day's work at the Red Jacket furnace of the National Steel Company. It was refused and the men quit work.

They marched in a body to the McKinley furnace, where a few of their countrymen joined their ranks. The Rosena furnace has recently been enclosed by a high timber stockade and no demonstration was made there until after dinner, when the strikers marched to the plant in a body. They were late and nearly all of the men had returned to the furnace before the strikers arrived. Some half a dozen Rosena men were caught outside and asked to join the strike. When they refused trouble followed.

Blows were struck and several drew knives. Assistant Foreman William Douds of the Rosena furnace heard their cries and ran to the rescue of the men, armed with a heavy club. He was joined by Gateman John Richie, and the two attacked the strikers so fiercely that the Rosena laborers escaped within the stockade before the strikers recovered from their confusion.

The police were sent for, but the strikers were warned and disappeared before the officers' arrival. The National Steel Company granted its laborers a voluntary increase of from $1.50 to $1.60 a day on June 15 because they had not participated in the recent strike of the Shenango and Mahoning valley furnacemen.

EX-LIEUTENANT GOVERNOR OF OHIO
Recommends One of Ohio's Well-Known Products, Pe-ru-na.

HON. ALPHONZO HART

Hon. Alphonzo Hart, ex-Lieutenant-Governor of Ohio, in a recent letter from Washington, D. C., says:
The Peruna Medicine Co., Columbus, Ohio:

Gentlemen:—"I have been using Peruna for catarrh, and can cheerfully recommend it to all as a cure for same, and it is also a good tonic."
A. HART.

Mr. Elmer M. Barnes, 611 State street, St. Joseph, Mich., Manager for the League of Educators of Michigan, writes as follows:

"It is with pleasure that I give Peruna my hearty endorsement. I have found that it contains valuable properties as a tiestonic. Close study and steady confinement induces a wear and tear on the nervous system, and at such times I have found that a bottle or two of Peruna would restore the system to its normal vigor very speedily and permanently."
ELMER M. BARNES.

Nervous Debility.

Everyone who is in the least degree subject to nervousness, sleeplessness, prostration, mental fatigue or nervous debility in any form, finds the hot weather of June, July and August very hard to bear, if not dangerous.

The only safe course to take is to keep the blood pure, digestion good, and sleep regular. No remedy equals, in all respects, Peruna for these purposes. If the system is run down and weakened by catarrh, Peruna renovates and rejuvenates the nerves and brain.

Mr. Orlando E. Service, officer of St. Joseph Police Department, St. Joseph, Mich., writes:

"I have good reason to be grateful for the relief I have repeatedly found when using Peruna. When I have been under a continual heavy strain, physically or mentally, I have found that a few doses restores my health and strength quicker than anything else I have ever used. Peruna is a general restorer, inducing a fine appetite and good, healthful sleep, and a few doses will throw off all unpleasant feelings after being exposed to the wet, cold weather."
ORLANDO E. SERVICE.

A book on the catarrhal diseases of summer will be mailed to any address, upon request, by The Peruna Medicine Co., Columbus, Ohio.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

The above testimonials are only specimens of 50,000 letters received touching the merits of Peruna as a catarrhal tonic. No more useful remedy to tone up the system has ever been devised by the medical profession.

PRESIDENT GOES TO THE PARK VIA FIFTH AVENUE

Change in Route of Fourth of July Parade Is Ordered.

THE $20,000 MARK PASSED

Civil War Veterans Will Have a Reviewing Stand of Their Own Opposite Hotel Schenley—Officials Busy With Safety Arrangements.

The route of the parade that is to be one of the features of the Greater Pittsburgh Fourth of July celebration was changed yesterday, as The Gazette exclusively stated would be done. Allegheny is cut out entirely, and the Grant boulevard route is abandoned in favor of Fifth avenue. This was done at a meeting of the sub-committee on parade. The meeting was called by Maj. L. T. Brown, chairman, and the following members were present: Maj. Lewis A. Anshutz, Col. W. E. Thompson, Col. H. P. Bope, Col. Samuel Moody, Capt. H. H. Bengough and Maj. A. P. Burchfield. On motion of Capt. Bengough the following resolution was adopted:

"Whereas, The secretary to the president has requested that the route of the parade be shortened, in order that the president may reach the speaker's stand in Schenley park by 10:45 a. m.; therefore be it

"Resolved, That the head of the column move from Union station to Fifth avenue and thence to St. Pierre street into the park."

Chance for Everybody on the Avenue.

The change means that the parade will be over the entire length of Fifth avenue, from Liberty avenue to the park entrance. It will give all persons living along that thoroughfare a chance to see the president as he passes, and no doubt the street will be crowded with people all the way.

The action of the parade committee will be referred to the executive committee, which meets this afternoon, and will doubtless be approved.

The president's train is expected to reach Union station from Washington at 9 o'clock, the president breakfasting on the train. At Union station the president will enter the same carriage used by the late lamented President McKinley when he was in Pittsburgh welcoming the Tenth regiment of Pennsylvania volunteers upon their return from the Philippine campaign.

The column is expected to move promptly. It will be headed by a squadron of 30 mounted police.

Immediately following will be the carriage of the president under a guard of secret service men from Washington and a detail of the local detective force. He will be escorted by the Sheridan troop of Tyrone under command of Col. C. S. W. Jones. Following this troop will be the Tenth, Eighteenth and Fourteenth regiments of the Pennsylvania National Guard, and the semi-military organizations that have received and accepted invitations to appear in the parade. Brig. Gen. John A. Wiley, commanding the Second brigade, will be in charge of the procession.

Salutes by Battery B.

Battery B will be stationed at Bedford basin, and as the president's train enters Union station will fire a presidential salute of 21 guns. At 12 o'clock noon the battery will fire the national salute of 45 guns from a point on Herron Hill overlooking Schenley park.

The parade route as changed is shorter, and has many advantages over the other route. One hour and 45 minutes is to be occupied in passing from Union station until the president steps upon the platform in the park.

The Allegheny County Grand Army association has issued a notice to the G. A. R. men of the county that a reviewing stand will be erected on St. Pierre street, opposite the Hotel Schenley, for the veterans. The posts are to assemble near the reviewing stand by 9 o'clock for assignment to seats. The veterans are instructed to wear G. A. R. uniform, as none will be admitted to the stand without some badge or insignia of identification as a soldier of the civil war.

City Recorder J. O. Brown had a long conference yesterday with Director J. Guy McCandless of the department of public works, and Director A. H. Leslie of the department of public safety, with reference to mounting the police, and for taking care of the crowds. The 30 mounted police are to get their mounts from the patrol wagons and engine houses, and these horses will be replaced for the day by horses taken from the department of public works.

Call for Sol Coulson.

There has been some curiosity as to what police officer will lead the mounted police, and an appeal has been made that Sol Coulson be recalled to active duty for that day, that he may don his regimentals and gladden the hearts of the people as of yore. Coulson is on the retired list, with half pay, and could be recalled to active duty for that day.

Recorder Brown also conferred with Superintendent John McAleese of the bureau of police, and Superintendent Philip Demmel of the bureau of detectives with regard to measures for the protection of the president and the safety of the crowd. The entire police force of the city, including the sub-patrolmen, will be on duty that day, while the "white wings" will be utilized as usual along the line of march, with some of the firemen of the city. Detectives from other cities will be here to look after pickpockets and "fly" thieves.

There was a big commotion among the river craft along the Monongahela wharf yesterday morning about 11 o'clock. Every pilot on the river blew his whistle and the volume of noise produced for a time was something tremendous. Some one asked what the disturbance was all about and the answer came that the pilots were jubilating because of the fact that the Fourth of July fund had passed the $20,000 mark. Chairman Carr of the finance committee was much amused when the incident was related to him. The racket was over the appearance of a new boat.

The $20,000 Mark Passed.

The contributions to the fund received yesterday were as follows:

William Campbell	10 00
Maj. William F. Aull	10 00
Jacob Rina	5 00
J. M. Morin	25 00
Hotel Henry Company	25 00
Cash	50 00
Joseph D. Brown	50 00
P. W. Siebert	5 00
William F. Knox	10 00
Connelly-McAfee Company	5 00
H. D. W. English	10 00
John B. Barbour, Jr.	20 00

This makes a total to date of $20,262 90.

It is said that among the distinguished men who will meet the president at the luncheon to be given in his honor by Attorney General P. C. Knox at the Hotel Schenley will be Charles M. Schwab, president of the United States Steel Corporation. It is also said that a movement is on foot to present the president with a loving cup, elaborate both in work and design, as a souvenir of his visit to Pittsburgh.

HIS FINAL REPORT ON FOREIGN MISSIONS

Statement of the Rev. Dr. W. W. Barr, Corresponding Secretary of the U. P. Board.

What will probably be his final official statement of the progress of foreign missionary work of the United Presbyterian church has just been issued by the Rev. Dr. W. W. Barr, retiring corresponding secretary of the board of foreign missions. The statement covers the various fields in Egypt, India, Soudan and other points of Christian work. A letter from the Rev. W. T. Anderson, written in far-off Zafarwal, India, describes tersely the awful visitations in the plague-stricken districts.

THE REV. CHARLES R. WATSON.
St. Louis, Mo., New Corresponding Secretary of U. P. Board of Foreign Missions.

"It seems sad," he writes to Dr. Barr, "that the results of the plague are not more favorable. While all, or nearly all, see God's hand in it, and acknowledge that it is on account of sin, and their own sin, too, yet the result is mostly to cause them to devote more time and money to their own false systems of religion."

The latest report from the Soudanese missionaries is that they are, by this time, at their mission, Kolaib Hill, on the Subot river, near the entrance to the Nile. The following is the financial report of the work for the month of May:

Presbyteries, $104 56; Sabbath schools, $4; individuals, specials, etc., $477; bequests, $512 74; interest, $176 37; Mackinnen fund, $41 83; Herron memorial fund, $83 67; Pressly memorial fund, $13 13; ladies' missionary societies, $25; Soudan fund, $150. Total, $1,588 24. Special: For Egypt, $200; Asyut, Egypt, hospital, $12 25; India Theological seminary, $95.

The general assembly at its last meeting appropriated for the whole work $164,000; to which must be added the salary of the new corresponding secretary. This amount did not include the $24,000 pledged by the women's board, and $41,096 in hand for the Soudan mission. The treasurer states that the entire amount that must come to the board to meet the expenses of this year, and pay the indebtedness of last will total $194,000, or $16,166 per month. The total receipts for this work last year were $148,212 29. The Rev. Charles R. Watson, the new corresponding secretary, is to take up the work at once.

Another Series of Band Concerts for Pittsburgh.

West park is now numbered among the Pittsburgh parks that hold free band concerts. The first concert of the season occurred June 7. A splendid program was rendered by Rocereto's famous band of 32 pieces.

On June 19 the Fourteenth Regiment band delighted the crowds with 12 numbers embracing excerpts from the classics and gems from the popular melodies of today. Each concert has drawn a larger and more appreciative audience.

Pittsburgh is certainly to be congratulated on the generosity of her citizens in thus seeking to provide enjoyment, free of all cost, for the people. The owners of West park have left no stone unturned in their endeavor to make the next concert, to be rendered by Nirella's Fourteenth Regiment band on Saturday, June 28, the success of the season.

HIS EYES DANCE.

When His Good Drink Comes.

A coffee that will nourish and furnish all the food required to rear a baby is evidently easy food for an adult to digest and is especially applicable where ordinary coffee does not agree.

The wife of a Congregational minister gives an experience. "It is rather curious the manner in which I came to adopt Postum for my baby. My husband used to be troubled greatly with billious headaches and extreme nervousness. This was about five years ago. We concluded that coffee and tea were the cause of his troubles, and so gave Postum Food Coffee a trial. At first we did not like it because it was not boiled long enough and seemed weak and tasteless, but after preparing it properly, and that is easy, we became very fond of it, and now can honestly say we prefer it to any coffee or tea.

"The old headaches and nervousness have disappeared and we both enjoy very much better health.

"When one of our children was a year old he would not drink milk, so we tried him on Postum Coffee, and from the first he liked it and it agreed with him perfectly, so Postum has been his drink now for over four years.

"About 10 months ago a baby boy came to our house. I was, of course, anxious to have good nourishment for him, and so drank from five to eight cups of Postum during the day. This with a little Grape-Nuts Food each day was all the nourishment I took, and although the baby weighed only five pounds at birth he weighed 12½ pounds at three months and at four months 15 pounds. Now he weighs 23 pounds.

"About three weeks ago the little fellow suddenly weaned himself, much to our surprise. I tried him on cows milk, but he would not have it. I then tried a certain baby food, then another, but he would have neither. I felt very anxious about him, but remembering experimenting with another boy with Postum I gave him some, which he drank with the greatest relish. It agreed with him perfectly, so he lived on it for one week. Since then he has learned to eat a little other food, but he prefers Postum Coffee to anything else and looks perfectly delighted when he sees me coming with it. I said the other morning, 'I wish the Postum Company could see baby drink their coffee; it would certainly please them.' It agrees with him so perfectly that I shall continue to have him drink it to his heart's content. I don't like to have my name printed, but you can say I am a Cong. Pastor's wife." BEAUTY.
HOW IT CAN BE OBTAINED
How to Make a Marvelously Perfect Complexion and Restore Youthful Looks.
HOW TO REMOVE PIMPLES, FRECKLES, MOTH, BROWN PATCHES, BLACKHEADS, OILINESS AND ALL DEFECTS FROM THE FACE, NECK AND ARMS.

There is nothing more beautiful than the human face with its vivacious countenance, its sparkling eye, its pleasant smile and perfect symmetry.
But the crowning glory of the face is a radiant complexion with its lively glow, its youthful tinge, and its fine, smooth texture.
But the question is can such a complexion be attained?
In this wonderfully progressive age of art, literature and science; of the steam engine, the mighty cannon, the electric motor, the wireless telegraph and the ponderous fabric making machines; what is there that is impossible?
By a careful study of the nature and texture of the skin, and a thorough research in the realms of chemistry and compounding of ingredients, a remedy has been at last perfected that will accomplish these results.
This remedy is Mme. A. Ruppert's Face Bleach.
WHAT FACE BLEACH IS.—Face Bleach is not a cosmetic to cover up, but it absolutely removes once and forever all the discolorations and blemishes to which the complexion is subject. I can positively guarantee every woman it will do all I claim. Its action on the skin cannot fail to remove every defect. It's a well known fact that the blood in order to cleanse itself is constantly throwing off its impurities through the pores of the skin; now if the pores are not kept open, the impurities of the blood cannot escape, but collect below the surface, and produce all manner of skin troubles, such as PIMPLES, FRECKLES, MOTH, SALLOWNESS, ECZEMA, ACNE AND NUMEROUS OTHER SKIN DISEASES AND DISCOLORATIONS.
ACTION OF FACE BLEACH.—Now Face Bleach has this two-fold action; first, it has a magnetical action, which attracts and draws to the surface the impurities which have collected under the skin; and, secondly, a chemical action which removes by scaling off (in the form of a fine dandruff) the surface of the outer, diseased or dead cuticle, leaving the under skin—beautiful, youthful-looking and delicately tinted by nature—clear, smooth and perfect. This method is perfectly harmless to the most delicate skin, as it harmonizes with the laws of hygiene and nature, the two factors which we must adhere to and follow if we wish to permanently improve our personal appearance.
THOUSANDS BENEFITED.—Thousands of patrons, who were annoyed and vexed with most miserable complexions, have been delighted with the grand improvement Madame Ruppert's Face Bleach has produced in their skins. Many complexions, covered with pimples, freckles and eczematous eruptions (itching, burning and annoying) have been changed to bright, beautiful skins, and the improvements made in their looks were simply marvelous. There is scarcely a defect to which the complexion is heir which will not succumb to this wonderful remedy. Premature wrinkles and lines—those inroads of beauty—are quickly effaced, and those muddy, disfiguring, sallow, jaundiced skins are quickly transformed into clear, wholesome ones by its use. Flabby skins—which also mark the ravages of time—become firm and smooth after a few applications. Skin troubles which have baffled the most skilful physicians have been removed and cured promptly, and many have expressed, personally and by letter, their heartfelt and profoundest thanks for this wonderful Face Bleach.
A positive guarantee is given if Face Bleach is used according to the new special directions, which are furnished with each order, that it will remove every discoloration and impurity from your complexion.
All of Mme. A. Ruppert's world renowned preparations are sold by us at reduced prices.

FOURTEEN PAGES.

A Satisfactory Change.

Both the committee and the public are to be congratulated upon the change made in the route for the Fourth of July parade. The only cause for regret is the deprivation of Allegheny of any part of it, rendered necessary by the President's request for a shorter march. Grant boulevard offered no attractions except a good roadway, while Fifth avenue possesses many facilities for spectators to view the pageant without danger to life or limb. The crowds are accustomed to that thoroughfare as a parade ground. The interruption to street car traffic, while it will increase the difficulty of transporting the multitudes, will not be as serious as the risk of having people pushed over the boulevard retaining wall. In this respect the President's objection to the long line of march has attained a happy result.

Dewey's One Grave Error.

In continuing his testimony before the senate committee yesterday Admiral Dewey confessed his one grave error in dealing with the situation at Manila. It was the giving of arms into the hands of the natives. The admiral was actuated by good motives, but his judgment after the event is better than it was before, and he realizes it was a costly mistake to encourage the belligerence of the native population, even for the better temporary protection of his parlous position.

Great Britain, with more experience in such matters, carefully avoided a similar complication in South Africa. The natives there were eager for revenge upon the Boers, but the British commanders and governors steadily discouraged their ambition. They realized that it was better to contend with one foe, without assistance, than to excite a warlike spirit in their service at the probable cost of waging a second and more savage war after the end of the first. Admiral Dewey cannot be censured for taking the opposite course, because he had no experience to guide him and was sorely in need of a land force of some kind. Yet it is well, now, to recognize his error in order that it may never be repeated should circumstances in the future make a similar opportunity.

Another Decided Improvement.

Yet another step forward has been taken by the Pennsylvania system. This time it is a purchase of land for yard purposes between South Thirtieth and South Thirty-fourth streets. The value of this yard will be in handling the tonnage to and from the great mills on the South Side, and that is no mean consideration. The Pennsylvania is certainly giving evidence of being in earnest, at least, about giving to Pittsburgh the facilities it so much needs. There is reason to hope this spirit will soon lead to the removal of the encumbering tracks from Liberty avenue and the increase of downtown terminals.

The Unhappy "Aunties."

With a persistence worthy of a better cause the New England Anti-Imperialist league continues harping on the Philippines. Although the insurrection in the islands has been suppressed and civil government is being established to the satisfaction of the natives, the "aunties" remain disgruntled, oblivious to the fact that they have made themselves ridiculous, if not odious, in the estimation of patriotic Americans.

These unhappy "aunties," with Bourke Cockran as chief wailer, met in Boston the other night for the purpose of formulating a demand that representative Filipinos like Aguinaldo and Mabini be permitted to come to this country and lay their case before the American people. Senor Buencamino, a typical and prominent Filipino, is now in the United States, and has voiced the gratitude of his people for what has been done in their interests by this country, but such testimony is not desired by the "aunties." They prefer to hear and applaud the men who plotted and fought against the Americans who had liberated the Filipinos from Spanish tyranny, and this has been the "aunty" policy from the beginning. Aguinaldo was shown up in his true light this week in Admiral Dewey's testimony before the senate committee, and he has been stripped of every vestige of the glory that his American admirers had wrapped around him. The people of this country have no desire to hear what this country's enemies have to say, whether they be Filipinos or members of the New England Anti-Imperialist league.

The Business Situation.

The developments of the week presented little that was out of the ordinary at this season. Bank exchanges show a falling off, but that is due almost exclusively to the subsidence of speculative activity. Trading on the stock exchanges has dwindled to small proportions, and was further reduced by the serious illness of the king of England, necessitating a postponement of the coronation ceremonies. While every one admits that even the death of the king would not directly affect any interest in this country, the markets of the world are so closely linked that temporary disturbance in one produces a sentimental effect in all. Thus on the announcement of the critical illness of King Edward, there was some selling of American securities by foreign holders, and values declined slightly, but the later bulletins, instead of stimulating activity, merely intensified the dullness in the stock exchange.

The highest estimate of the dividend and interest payments in this country, which will fall due next week, places the amount at $150,000,000, a sum never before equaled at this period. In preparation for these disbursements, and for the semi-annual settlements which fall due at the same time, there is naturally much activity in banking circles, but the shifting of loans has thus far caused no disturbance in money rates. The last report of the national banks showed that the loans and discounts of these institutions aggregated the largest sum in their history, and the returns made by state banks and trust companies showed a similar condition. But despite this fact, the supply of loanable funds has been ample to meet the needs of commercial borrowers, and rates have remained at the normal level. During the corresponding week last year call loan rates ranged between 8 and 20 per cent. Toward the close of the present week there was a slight decline in sterling exchange, which removed the probability of gold exports, while domestic supplies of the yellow metal were increased by receipts from Alaska.

In industrial circles the only incidents of note have been the voluntary advance in wages made by some of the larger manufacturing concerns. There has been very little change in the situation of the anthracite coal strike. Prices of coke and bituminous coal have advanced, owing to the demand from markets usually supplied with hard coal, and the earnings of the coal carriers traversing the anthracite region have fallen off, but otherwise little effect has been produced on general business. The high cost of labor and material has reduced building operations to some extent, but as yet the iron trade has felt no diminution in demand. This is probably due to the wise policy of the larger manufacturers in discountenancing anything tending to boom prices.

Weather conditions have not been entirely satisfactory, too much moisture delaying harvests in some sections, and unseasonably low temperature in other sections retarding the growth of corn. The drought which had begun to seriously affect cotton, however, has been broken, followed by a sharp reaction in the price of the commodity. On the whole, business has continued to prosper and the outlook continues bright.

An Overshadowing Omission.

Congress is passing some important bills preparatory to adjournment. The record cannot be commended, however, while the most important, that offering commercial life to Cuba, is held up by a conscienceless minority in the senate, because that august body has no rules for businesslike procedure. The motives actuating that minority are as disgraceful as will be the failure to give Cuba a fair opportunity to avoid beggary. They are absolutely selfish.

It is a misfortune that men who can be moved by such considerations occupy seats in the highest legislative branch of this government, but that cannot be helped at the moment. The things that may be done are for the President and the people to bring every possible pressure to bear, not only upon the obstructionist minority, but upon the majority in the senate to bring about a vote, regardless of that imbecile practice known as senatorial courtesy.

Cuba will naturally come to be a part of the United States in the course of time. But it ought to come voluntarily. It is criminal politics to create conditions that will force the island into poverty first and then into the clutches of the cane and beet sugar trusts, so it may be dragged in by the heels, a dependent territory, for the enrichment of the conspirators in and out of the United States senate.

He'll Be a Busy Man.

The summer vacation will be a time of close application and hard labor for President Roosevelt. His work is cut out for him. The President of the United States cannot enjoy very many idle moments even in ordinary times, but the next few months will be an exceptionally busy time. In addition to the regular work that falls to the lot of the chief magistrate, President Roosevelt this year will have the Panama canal business to attend to. Admiral Walker, chairman of the isthmian canal commission, says it will take all summer for the President to examine and secure the title to the property and to negotiate the treaty with Colombia. The admiral probably knows, but Mr. Roosevelt can be relied upon to do the work thoroughly and to fight it out on that line, even if it does take all summer. The nation is confident that the isthmian canal business has been placed in competent hands.

A Generous Proposition.

By the decision of the cabinet yesterday the United States government is about to give another illustration of its humane character. If preliminaries can be arranged in time a general amnesty proclamation will be posted in the Philippine islands on the Fourth of July. The American generosity is exemplified in the fact that this amnesty will extend to every political prisoner, including Aguinaldo and Mabini. It is as complete as that extended to the confederacy in 1865.

Independence Day will be a very appropriate time to issue the proclamation. The significance of the day in its relation to civil and religious freedom may well be coupled with such a manifestation of generous goodwill toward the rebellious Filipinos. Peace had to be brought about in the islands by the strong arm of the military power, but once attained it is to be maintained by a government that will command respect and affection. That is the very essence of Americanism, as it is of liberty.

Rubbing It In.

Col. Henry Watterson, the redoubtable and aggressive editor of the Louisville Courier-Journal, has printed in his newspaper a supplementary statement explaining his recent attack upon ex-President Grover Cleveland following the Tilden club banquet and the speeches of Messrs. Cleveland and Hill delivered at that time. The ire of the distinguished southerner has by no means cooled during the interval since his first publication, and he returns to the attack with a specific vigor that proves how deep-seated is the Kentuckian's animosity to the Cleveland leadership in the proposed reorganization of the national Democracy.

The commotion kicked up in certain Democratic circles by the reappearance of Mr. Cleveland as a factor in national politics is something of a tempest in a teapot, and indicates, as nothing else could, the frightful decadence that has fallen like a blight upon the national Democracy. Mr. Watterson's latest screed against Cleveland is in even worse taste than his former bitter personal attack, and for the same reason. The hatred of the anti-Cleveland Democrats is largely personal. They have no practical, concrete charge to make impugning the honesty of his motives or the sincerity of his statesmanship, however misguided we may believe the latter to have been. That the ex-president while in office alienated the affections of many of the Democratic leaders is undoubtedly true, but the quarrel was nearly always a personal one, as in Col. Watterson's case, who, while denying individual animosity, lets the bitterest and most offensive personal abuse creep into his discussion of Cleveland's availability as a leader.

The quarrel is none of ours, but for the life of us we cannot understand how the Democrats can be so blind as to fall down and worship the Bryan will-o'-the-wisp that has led them into the howling desert of two ignoble defeats while they breathe out threatenings and slaughter against the one man who has succeeded in leading the Democracy into the White House during the past half a century.

Mr. Bryan says ex-President Cleveland is a prodigal son. Beyond that statement the analogy ceases, as the Nebraskan flatly refuses to stand for the fatted calf part of the program.

The Wanamaker organ declares that the Pattison ticket is an annex to the "Quay machine." The Gordon annex to the Wanamaker machine failed to make proper coupling at the Erie junction.

No bulletins have been issued on the subject, but we suppose Alfred Austin was able to sit up and take nourishment after pulling off that coronation ode.

Perhaps a little woodshed tonic would be a helpful thing in King Alphonso's case.

That "June rise" thundered in the index and foozled frightfully in the final show down.

Admiral Dewey's statements were not news to the Spaniards. They knew who licked them.

The turn in the weather will make the use of the snow shovel unnecessary for the present, at any rate.

Dewey didn't do a thing to the George Washington masquerade which the "aunties" furnished Aguinaldo.

It is better to have the boulevard parade plans fall through than to have had some one fall off the boulevard.

Next Friday will be Father Pitt's busy day.

England is beginning to smile through her tears.

Fourth of July firecrackers are beginning to sprout.

The Pennsylvania Populists failed to offer Bryan their nomination.

Police Trying to Make Coney Island Decent

THE PITTSBURGH GAZETTE BUREAU,
Herald Building, Herald Square,
NEW YORK, June 27.

Coney Island is to be toned down. As a matter of fact this toning-down process has been in progress ever since the opening days of the summer, and the sports of the "Bowery," Surf avenue and other quarters of the island, where it has been the custom to play ping-pong with the proprieties, are now distinguished by a repression edifying to the authorities, if not to the old habitues of the place. Now the reform has spread to the beach. The board of health has "viewed with dismay" the habit of holiday-makers of throwing overboard lunch-boxes, old newspapers, banana-skins and other debris of the feast, about the sands, to be washed further up by the waves or kept sloshing about in the water in the bathing hour, as it may happen. Capt. Driscoll, in charge of the police of Coney island, has been ordered to see that this is not done in future. Litter of this kind must be carried away by persons bringing it, or according to one cynical officer, swallowed. It must not be thrown into the ocean, because, broad as is the Atlantic, it is not large enough to carry away rubbish pitched in from Coney island. When a banana peel hits some unlucky bather in the eye, or even floats into his mouth as he is calmly swimming about among his friends, it is calculated to provoke profanity, or, at least disgust, and that disturbs the harmony of the beach. Thus argues the police captain, and he knows what is what at old Coney as well as anyone. Other regulations, which have always been in existence but are enforced more strictly than ever this year, are that freakish and immodest bathing dresses must not be worn, and that there must be no more sun-baths far up on the beach, or taking of long walks in the scanty habiliments sanctioned by custom for sea-bathing. It is the declared intention of Commissioner Partridge and Mayor Low to make Coney island a perfectly decent resort, and, considering that it is the great summer playing-ground of more than 3,000,000 people, New York wishes them every success.

'Varsity Partisanship in Apparel.

To be real swagger nowadays in New York, you must have the emblem of your favorite university worked on the ends of your necktie. This is the tie you wear without a vest, of course, or the emblem would not show—I mean, if you are a man. The ties are sold for feminine wear, too, and some of them are exceedingly elaborate. Monogram stockings are an old story, of course, but the placing of a college emblem on the side in brilliant colors, is something new in hosiery. Stockings "clocked" in some way are almost de rigueur these days, and the uptown haberdashers are straining their mentalities in procuring new designs. Men and women alike wear monogram hosiery, and it seems as if all of them are affiliated in some way with one of the big universities of the country. The college regatta gave a boom to these ties and hosiery this week, but merchants say they have a steady sale in them right along.

Panamas, Real and Bogus.

The Panama hat has taken possession of Upper Broadway with a death-like clutch. There may be a few actors that have not yet got Panama hats, but if there are I have never seen them. The prices of the hats are sinking rapidly in the hat stores along Broadway, and one can buy an imitation for $2 or $3 that looks as well as a $30 or $50 real one. There is a heavy sale of these imitations, and I heard one "wise guy" in the Marlborough say this morning that "an imitation will last as long as the Panama craze; so what's the use of spending good money on the real thing? Better stake your wad against the ponies at Sheepshead." The "wise guy" may be right, but there is no denying the fact that the only really swell masculine lid this summer is a Panama, or something that looks like it.

Mob Hatred of the Automobile.

It cannot be disputed that it is a dangerous thing to run down some person with an automobile in New York; I mean dangerous for the automobilist. The many casualties of this kind that have occurred have awakened an unreasoning prejudice against the machine in the minds of the rag-tag-and-bobtail that to some extent expresses the sentiment of every large community. When Spencer Trask's machine knocked down a woman last night there was danger of a mob attack on the young woman and little girl who were passengers. They had a regularly qualified driver and were as innocent of the mishap as Spencer Trask himself, who was out of the city. Yet, but for the prompt interference of some clubmen and cabmen the child and woman would have been hauled out of the automobile by the loafers of the neighborhood and submitted to all kinds of indignities. Spencer Trask is a well-known banker of this city, and has earned a reputation for unostentatious charity which is as large as it is wisely bestowed. Yet, when his automobile upset a woman—who was only slightly injured, by the way—there was a frantic onslaught upon his carriage which contemplated even the savage injury of a child. Unless automobiles can be regulated so that, besides being held down to a proper speed, their passengers can be protected from irresponsible ruffianism, it will be safer to use horses in New York city for the present. The feeling against automobiles has become so threatening that only a bold man should ride in one.

The Fourth Will be Noisy.

"Here is where you get the most noise for your money." Thus reads the advertisement of a vender of Fourth of July goods. He sells pistols, cannon crackers and other engines of patriotic disturbance, and he declares that every one of his separate articles will make more noise than similar goods sold elsewhere. There was a feeble protest or two in the papers here against so much racket on the coming "Fourth;" but the protests did not amount to anything, and indications are that New York will have one of the noisiest Independence Days it ever has suffered. The racket has begun already in some of the less traveled streets, where the small boy is numerous.

New Ornament of Riverside Drive.

Passing along the Hudson river now there is one more conspicuous object of beauty along Riverside drive to be admired. This is the sailors and soldiers' monument, which was unveiled only a few weeks ago. It is at Eighty-ninth street, a mile and a half below General Grant's tomb, and is as conspicuous as the tomb itself, although not so large as that magnificent edifice. Visitors to New York passing along the river front by boat are sure to ask what the monument is, because it stands out so sharply in its pure white beauty against the green grass. This city has a number of hideous monuments—so many, in fact, that there have been several serious discussions as to whether some of them cannot be removed; but this new monument to the memory of the sailors and soldiers who have died for their country is handsome enough to compensate for a large group of the monstrosities which have been erected in a less advanced period of artistic taste in America.

Acquisition to the Pittsburgh Colony.

Billy Adams, as he is known to a great many people in Pittsburgh, his home, but B. W. N. Adams, as he is in New York, is pouring oil all over the metropolis as head of the "American Oil Company," in lower Broadway. He is one of the successful men in the rapidly-widening Pittsburgh colony here, and if he maintains his present progress soon will be looking for a site for a mansion along Central park with the other millionaires from his old home.

A Miser's Death Dooms a Landmark.

Another old house which has been a landmark for 60 years is to be demolished. It is on an East Sixteenth street corner and is of the type of old-fashioned brick buildings which are passing out of existence by the dozen each year. It was owned and occupied by Richard Tighe, known as the "miser millionaire" and who was dubbed in derision "Sir Richard" Tighe. If the old man had not departed this life—which he did six years ago—the house would not have come into the market, of course, like the old Gerry home in Broadway, a few blocks further uptown. Only the decease of its occupant led to its being sold, with demolishment a natural sequence. Justice Dugro has the property and will put up a fine business structure on the site. After the death of "Sir Richard" Tighe, more than $2,000,000 in securities were found hidden in the tumble-down old house.

The King in the Music Halls.

It has come to be the regular thing to sing "God Save the King" in the musical plays running in Broadway. In "King Dodo" at Daly's the king's health is drunk in the first act every night, while at Wallack's, where "The Show Girl" is the piece, one of the comedians puts on a "wishing cap" and wishes that the king may soon get well. In the other theaters, where plays are in evidence which admit of local or timely allusions, there is something said about the king, in each case showing that Edward VII. is a very popular man in this democratic New York, monarch as he is.

East Enders Going to Germany.

Pittsburghers on board the Hamburg-American liner Fuerst Bismarck, which sailed from this port for Hamburg via Plymouth and Cherbourg yesterday, are Dr. and Mrs. J. A. Lippincott of the East End.

Miss Glaser's European Vacation.

Lulu Glaser intends to spend her summer holidays in Europe. She will go to London, Paris, the Alps and to other places which are considered the correct thing for a tour in the hot weather. She says she is tired of playing every night in "Dolly Varden" at the Herald Square and will be thankful for a rest. Her season will close tomorrow night.

Sunday Music in the Parks.

The municipal authorities believe thoroughly in Sunday music in the parks, and like to make as many changes in programs as possible. As a matter of fact, New York is full of music on Sunday afternoon and evening, and generally good music, too. As an example, the park commissioners have arranged a fine program for the Sunday afternoon concert in Bronx park this week. They have invited the Franz Schubert Mannerchor to sing, and that famous singing society has accepted the invitation and will give selections both in English and German. There will be solos as well. Prof. Carl Hein, one of the best musical directors in this city, will swing the baton. This is only one concert of a dozen that will be given at the city's behest in different parks in New York. We may not have exactly the "continental Sunday" here, as it is usually understood, but, assuredly, we are a long way from the old-fashioned "Puritan Sabbath."

Scraping Up Hard Coal.

One by one the big companies are finding enough hard coal for their use, so that they may avoid clashing any longer with the health department authorities through using soft coal and filling the ambient atmosphere with black smoke. The Pennsylvania railroad today sent word to the department that it had succeeded in buying 10,000 tons of anthracite coal for use on its ferryboats. This amount of coal will last three months, and it is fair to assume that the strike will be over before all this coal has been consumed. A month ago it was said that no anthracite coal could be procured for love or money and that New York must get used to smoke and soot. New York declined to do anything of the kind, and hard coal is coming into view almost as rapidly as demanded.

Croker May Yet Use His Fists.

Although John C. Sheehan publicly announces that he will be at the pier when Richard Croker arrives in New York to fulfill his threat to "smash John Sheehan's face," that does not dispose of the whole matter. It would be quite in accordance with the characteristics that brought Croker to the leadership of Tammany hall if he were to commit assault and battery on his big political rival. Croker fought his way to eminence with his fists when a husky young Irishman, and no doubt the disposition to "scrap" is strong in him still. Tammany is a firm believer in physical battles, and doubtless the braves would enjoy beyond anything a good tussle between "The Old Man" and Sheehan. It is believed that Croker will be here not later than August.

A Pittsburgher's Mining Boom.

W. M. Allison, Jr., of Pittsburgh is in New York in connection with his mining interests in the northwest. He is a busy man, going from place to place downtown clinching arrangements with prominent capitalists as well as with several well-known Pittsburghers. He will start for British Columbia this fall and intends to remain there for more than a year among the gold mines.

Last Bridge Wire Strung.

The last wire on the new East river bridge was carried over today. To celebrate the important work the wheel taking the wire was decorated with a number of American flags, and there was much enthusiastic cheering from either shore, on the bridge itself and from passing ferryboats. The significance of the flags was understood generally and those that did not know what they meant cheered in an ecstasy of patriotism anyhow. About 4,000 tons of wire have been placed in position since the work of stringing was begun last December. As a matter of record it may be stated that each cable is composed of 7,696 wires, each about three-sixteenths of an inch in diameter. The wires are grouped in 37 strands, each strand containing 208 wires. They will finally be squeezed into one solid circular mass about 18¾ inches in diameter.

THE MAN UP A TREE

From a High Viewpoint.

THERE will be no postponement of the American eagle's coronation.

About this time look out for an epidemic of perityphlitis.

It appears that the big Monterey was a very able assistant of Dewey's in scaring the Spaniards.

Allegheny school children kept on the grass yesterday afternoon.

The cool weather of June had a depressing effect on the circulation of fly paper.

The Fourth of July fund is over the $20,000 mark, but more patriotic dollars are still needed.

Effect of Vaccination.

He knew that she had been vaccinated, and he noticed that she limped slightly as she entered the parlor, and therefore he was malicious enough to ask:

"How's your vaccination taking, Miss Mildred?"

"Finely, from a medical point of view," replied the young lady.

"Then I suppose your arm is pretty sore?" he persisted.

"Yes," she assented, "my arm is quite sore below the knee."

Believing in Signs.

"I'm not a bit superstitious myself," said Mr. Tenterhook to Mr. Hammersmith, "but I find that there is a great deal of interest in the alleged predictions that Edward VII. would become king, but would not live to be crowned, and in the forecasts of astrologists, palm readers and soothsayers."

"And I suppose you read that story that a portrait of the king had fallen from the wall of a chamber in Windsor castle?" added Mr. Hammersmith.

"Yes; but, as I say, I don't put any faith in such things myself. Do you believe in signs, Mr. Hammersmith?"

"In one only," replied Mr. Hammersmith. "There is just one sign that I implicity believe in."

"What's that?"

"I believe that the signature of an honest man at the bottom of a check is a sign of money."

More Cases Like It.

St. Louis reports the first patient with an ailment just like King Edward's, but dispatches like these from other towns may be expected at any moment:

Painted Post, N. Y., June 27.—Hiram Prendergast, a prominent citizen of this place, is suffering from perityphlitis, the same disease which ails King Edward. The doctors expect him to recover.

Emporia, Kan., June 27.—Thaddeus Clover of Emporia is out again. He has been ill with perityphlitis, King Edward's complaint.

Squedunk, Pa., June 27.—Dr. Bolus, the skillful practitioner of this town, has three patients suffering from perityphlitis at present. He says the disease is not difficult to control, if the physicians in charge knew how.

Bad Ax, Mich., June 27.—Alfred Dinkelspiel of this place says he has had perityphlitis three times. He says it is nothing after you get used to it.

GOV. STONE WAS KEPT VERY BUSY YESTERDAY

So Many People Wanted to See Him His Private Business Had to Wait.

Gov. W. A. Stone had no time yesterday to transact the personal business which he said had called him to town, and in consequence, instead of returning to Harrisburg this morning, he will not be able to get away until this afternoon at 4:50 o'clock. The governor was kept busy yesterday meeting political and social friends.

The governor arose early, at the house of his son, Stephen Stone, and after breakfast came downtown and went to his law offices in the Bakewell building. He and his son had hardly settled down to work when callers began to arrive. From that hour until 6 p. m. the governor hardly had time to do anything else than receive friends. Politicians representing the administrations of Pittsburgh and Allegheny, and politicians from McKeesport, Braddock, Homestead and Carnegie, trod upon one another's heels.

Occasionally Stephen Stone would get a chance to say a few words with his father, but just about that time another caller would be announced and the business would be over for the time being.

Pittsburgh's recorder, J. O. Brown, called on the governor during the day, and among the other visitors were Dr. J. G. McCandless, director of the department of public works; A. H. Leslie, director of the department of public safety, and Director D. L. Fulton, the successor of Robert McAfee in the Allegheny department of public works.

The governor took luncheon with his son and some friends at the Hotel Henry and immediately afterward returned to his office and went through the same grind as in the morning. He left the office at 6 p. m. and went out to his son's home. Last night Recorder John R. Murphy of Allegheny came over to Pittsburgh and went out to see the governor, with whom he was closeted for some time.

PICKLE MAKERS TO FORM A BIG COMBINE

The Articles of Incorporation Were Filed at Camden, N. J., Yesterday.

Articles of incorporation were filed yesterday at Camden, N. J., by the Association of Manufacturers and Distributers of Food Products, the incorporators being L. M. Friley of Camden, John T. Coxe of Moorestown, N. J.; Josiah Buck, Crosswicks, N. J.; L. J. Link and John Wiseman of Philadelphia. No capital is stated. The officers are William B. McMechan, Wheeling, W. Va., president; L. M. Friley, Camden; Frank Cruikshank, Allegheny, and W. H. Ritter, Philadelphia, vice presidents, and W. A. Williams, Detroit, secretary.

The incorporation of this company is said to be preliminary to the organization of a combination to embrace a number of the largest pickle and preserve companies throughout the United States, and a meeting of these companies will be held in New York on July 29.

The firms which are members of the association are Max Ames of New York, A. A. Knight Sons of Boston, Perfection Jar Closure Company of Philadelphia, Curtis Bros. of Rochester, N. Y.; Cruikshank Bros. of Allegheny, Pa.; George F. McMechan of Wheeling, W. Va.; Anderson Food Company and the Campbell Preserve Company of Camden, N. J.; Logan & Johnson of Boston, J. Weller Company of Cincinnati, O.; Exley, Watkins & Co., Wheeling, W. Va.; Williams & Bro., of Detroit, Mich.; Ritter Conserve Company of Philadelphia.

It is a significant fact that while the capital stock of the new incorporation is not mentioned in the articles of incorporation, the combined capital of the firms in the combine is at least $30,000,000, which would indicate that the capital will be largely in excess of this amount.

NO FACTOR IN SURVEYS.

President Ramsey Says the Wabash Is Not Now Figuring on Seaboard Connection.

Joseph Ramsey, Jr., president of the Wabash railroad, who is in Pittsburgh conferring with the officials of his interest here, said last night that neither the Wabash nor allied interests are directing the surveys now being made through Washington, Greene and Fayette counties which might indicate a connection from Pittsburgh with the West Virginia Central to provide an eastern seaboard outlet from here.

"It is not our interests which are engaged on these surveys," said Mr. Ramsey. "If the roads for which lines are being thrown are built, they might serve as important feeders, but we are not arranging for them. Our logical eastern outlet, if one were figuring, would be at a point further east—Cumberland, or a point near there on the Western Maryland. We are now busy on the entrance to Pittsburgh."

Mr. Ramsey said that the West Virginia Central and Western Maryland syndicate is doing nothing now to connect these systems with Pittsburgh. In the counties named in this state there is an army of railroad engineers, but it seems that they are working for independent interests. One line is heading for the line of the rights of way along the Cheat river, which, with another railroad projected to Rowlesburg, would form a link of the Wabash extension to Pittsburgh with its line communicating with the eastern seaboard.

THE DEATH POLL.

James H. Black.

James H. Black, aged 62, died yesterday at the home of his daughter, Mrs. C. C. Fentz, No. 1214 Talbot avenue, Braddock. He was born in Butler county, but went to Illinois shortly before the outbreak of the civil war in which he served as a member of the Seventeenth Illinois volunteers. After being discharged from the army he took up his residence at Leavenworth, Kan. He had only been a resident of Braddock for a short time. He is survived by several children, a daughter being the wife of C. E. Heineman, editor of the Butler Times.

Funeral of Capt. F. M. Ford.

The funeral services over the remains of Capt. Franklin Melvin Ford, a member of the Sixteenth Indiana volunteers under Gen. Lew Wallace during the civil war, were held yesterday afternoon at the home of his father-in-law, John Brown, No. 66 McNaugher avenue, Allegheny. Captain Ford, who was a former resident of Allegheny, died at Dayton, O., on Wednesday. He is survived by his widow and several brothers and sisters.

Edward Geary.

Edward Geary, 35 years old, well-known as a freight conductor on the Pennsylvania railroad, died early yesterday morning at his home, No. 3354 Ruthven street, after a short illness from pneumonia. He was a member of the Brotherhood of Railway Trainmen, of Branch No. 66, Catholic Mutual Beneficial association, and of St. John's Roman Catholic church. He is survived by his widow and father.

Obituary Notes.

John E. Davis, 59 years old, is dead at his home, No. 9 South Thirteenth street. He was a member of Union Lodge No. 86, A. O. U. W.

Charles Rothmeyer, 65 years old, is dead at his late home, No. 27 Lawrence street, Millvale. He was a member of St. Anthony's Catholic church, Millvale, and is survived by his widow and one son, John.

J. A. Atras, 74 years old, a retired shoe merchant of the South Side, is dead at his late home, No. 125 South Twenty-third street. He was a native of Germany and is survived by four daughters and one son.

Mrs. Annie C. Lonergan, M. D., 71 years old, is dead at the family home in West Liberty, where for many years she practiced medicine. She was born, lived and died in the same house. Three daughters survive.

NEW COAT OF ARMS FOR W. & J. COLLEGE

Trustees Adopt Insignia of Unique Design—Former Gov. Hastings Gives Students Prizes.

[SPECIAL TELEGRAM TO THE GAZETTE.]

WASHINGTON, PA., June 27.—The trustees of Washington and Jefferson college have adopted a coat of arms for the college, which is to be engraved and copyrighted. The new insignia is a composite one, being composed of Washington's coat of arms, Jefferson's coat of arms, the college colors, red and black; the college seal and three mullets or stars, with the inscription "Juncta Juvant."

The design shows a shield, the upper half being black and the lower half red, crossed with black lines. In the center of the blade portion reposes the college seal. Above it are the three mullets, one representing Jefferson, one Washington and the large central representing the united college, Washington and Jefferson. The coat of arms was designed by the Rev. Harry B. King of Harrisburg, a member of the class of 1891. The design has been submitted to several experts, who pronounce it true to the principles of heraldry.

BELLEFONTE, PA., June 27.—(Special.)—Just prior to his departure for Europe Former Governor D. H. Hastings gave to Father P. McArdle $50 to be given as prizes to students in St. John's parochial school, according to grades of general excellency. At the closing exercises the prizes were awarded as follows: Anthony Brown, $10; Agnes Shaughensey, $9; Benedict Beezer, $8; Andrew McCafferty, $7; Helen Hull, $6; Arthur Brown, $5; Anna Graham, $3; Basil Mott, $2; Marie Walsh, gold medal for proficiency in music.

SHARON, PA., June 27.—(Special.)—The commencement at St. Scholastica's academy took place yesterday. The musical course was completed by Mary Harris, Anna Cave and Margaret McManus. Each was presented with a handsome gold medal. The presentation was made by Father McAdam, rector of Sacred Heart church. St. Scholastica's academy is a comparatively new institution of learning in Sharon and is in charge of Sister Gabriel.

EMLENTON, PA., June 27.—(Special.)—The commencement exercises of the Emlenton business university were held last night. The principal address was made by the Rev. J. H. Lawther, formerly of Allegheny college. Following the exercises a reception was given the class, which was composed of the following: Miss Nan Crumley, F. B. S. Criswell, Clarence L. Wilson, L. H. Giering and E. J. Crawford.

The Mistake of His Life.

From the Punxsutawney Spirit.

"What did you do with the hide?" asked a backwoods native of Cambria county, when Walter Brown of Punxsutawney showed him a string of 10 rattles which he had stripped from a snake he had killed that day.

"The hide?" queried Mr. Brown. "what should I do with it? I left it on the snake, of course."

"You ought to have skinned him," said the native. "Rattlesnake skins is good for lots o' things—rheumatiz, lumbager, liver complaint, cancer of the stumick, an' I don't know what all. Cure most anything."

Having become possessed of this information Mr. Brown saw where he had made the mistake of his life in neglecting to skin the snake.

Retribution Implied.

From the Washington Post.

Everybody remembers that at the time the effort was made to impeach President Andrew Johnson the deciding vote against such action was cast by Senator Ross of Kansas. He was a famous man in his day.

"I was out in Albuquerque, N. M., not long ago," said Special Agent J. H. Spooner, a cousin of Senator Spooner, at the capitol yesterday, "and there I saw an old man in a printing office setting type. He was ex-Senator Ross of Kansas."

THE STATE PRESS.

Pittsburgh could hardly expect to have a real ripping Fourth of July celebration without the assistance of Gov. Stone.—Philadelphia Press.

The Democratic leaders from Philadelphia speak in the highest terms of Judge Pennypacker. The only objection offered is that he is a Republican.—Erie Dispatch.

The Altoona passenger station bears the warning inscription: "No rice throwing here." It is one thing to make a law and another to enforce it.—Harrisburg Patriot.

Still looks as if providence was going to be upon the side of Republicans in this campaign. There is not a Democrat in Pennsylvania who can defeat Pennypacker so far as that is concerned, but of all the candidates the easiest one to defeat is Pattison.—Erie Daily Times.

What the average reader up the state does not appear to be able to understand is why anybody should want the Democratic nomination for governor. Of course, if there is a man in the state who is anxious to "electioneer for a licking" he couldn't possibly find an easier means to that end, but who is honestly engaged in looking for such an opportunity?—Philadelphia Inquirer.

The assiduous Mr. Gompers is about to organize a union of chorus girls. This interesting craft will soon be singing, therefore, according to scale. They will work only eight hours and will have scale prices, which, if they be not paid, will force managers to employ scab labor and lead in all likelihood to strikes, boycotts and lockouts. Theater goers will not thank Mr. Gompers for unionizing the corps de ballet.

The authorities have decided in New York that unused street car tracks must be removed, and that merely running a car back and forth over a line once a day does not keep alive the operating company's franchise. The city threatens to tear up the unused tracks unless the Metropolitan Company does it. Here in Philadelphia, too, there are many car tracks that are only maintained to prevent any rival company obtaining or claiming the right-of-way. This practice is an obvious imposition upon the public.—Philadelphia Times.

After waiting a week in vain for Senator Quay to pay him a visit, Gov. Stone gathered together his fishing tackle and started for a week's trout fishing in the streams of his native county of Tioga. Mr. Stone has been fishing for more than three years. He has had plenty of bait, a goodly supply of tanglefoot for obnoxious mosquitoes and a large staff of expert advisers; but he failed to land the much-desired codfish.—Erie Morning Dispatch.

PATRIOTISM AND KING'S ILLNESS, PULPIT TOPICS

Local Ministers Will Discuss the Meaning of Independence Day.

PRAYERS FOR THE KING

They Will Be Said in All of the Protestant Episcopal Churches. Prof. G. Frederick Wright, Geologist, Will Speak in Bellefield.

Patriotism and the illness of the king will constitute the principal pulpit topics tomorrow. Some of the subjects with which the coming Fourth of July has inspired various pastors are: "A New Declaration of Independence," to be delivered by the Rev. P. S. Leinbach in Trinity Reformed church, Wilkinsburg; "Patriots, False and True," by the Rev. C. F. Wishart in the Eleventh United Presbyterian church, Allegheny; "Christian Patriotism," by the Rev. Worthington B. Stutz in the Lincoln Avenue Methodist Episcopal church; "America's Greatness," by the Rev. J. W. Romich in St. Luke's Lutheran church; "Our Fourth of July," by the Rev. George Shaffer in the Bellevue Methodist Protestant church. In the Observatory Hill Christian church a patriotic song service will be held in the evening.

In every Protestant Episcopal church and chapel throughout the Pittsburgh diocese prayers will be offered for England's king. This will be the only denomination in which prayer for the king will be made part of the regular service, though there will be scarcely a church throughout the Christian world in which a prayer will not be breathed for his recovery. In Catholic churches the world over prayers are said for all rulers in every mass celebrated.

In St. Peter's, Forbes and Craft avenues, the Rev. Dr. E. H. Ward, rector, there will be a special remembrance of the king in the morning prayer. Dr. Ward will deliver a sermon at the evening service in keeping with the occasion. In Trinity, Calvary, St. Andrew's, and the other important parishes of the two cities similar prayers will be offered.

Coronation Topics.

Not a few of the ministers of other denominations have found food for an instructive lesson in the postponement of the coronation and intend to give their congregations the whole benefit of it. For instance, the Rev. Dr. W. A. Stanton of the Shady Avenue Baptist church has this to offer to his congregation tomorrow night: "Christ's Coronation; No Postponement;" the Rev. G. E. Hawes of Braddock United Presbyterian church, "A Coronation Which May Never Take Place;" the Rev. E. L. Eaton of North Avenue Methodist Episcopal church, Allegheny, "The Coronation."

Prof. G. Frederick Wright, one of the visiting geologists, will speak tomorrow night in the Bellefield Presbyterian church on "Geological Confirmations of the Old Testament History." The Rev. Edward Jones (Iorwerth Ddu) of South Wales will preach at all the services tomorrow in the Chatham Street Baptist church. Mr. Jones is one of the lights of the Welsh church, and has received ovations from his country people in all parts of the country during the past 10 weeks.

A union meeting of the Thirty-third Street United Presbyterian, the Herron Avenue Methodist Episcopal, the Free Methodist and the Wylie Avenue Baptist churches is to be held tomorrow night in the Herron Avenue Presbyterian church. An old-time Methodist quarterly meeting is to be held in the Wesley chapel, North Braddock, all day tomorrow. The Rev. J. T. Michael will conduct the services. Reception to Rev. Dr. and Mrs. Sneed

One of the largest church receptions of the year was held last night in the assembly rooms of the East Liberty Presbyterian church in honor of the Rev. Dr. Frank W. Sneed, pastor, and his wife. There were nearly 1,000 people present, including some of the oldest members of the congregation.

The reception was arranged by the congregation to give Dr. and Mrs. Sneed a farewell before their leaving for Europe. Dr. Sneed has been given a vacation and will leave next Tuesday. He expects to return early in September.

Addresses were made by several members of the church and also by the Rev. Dr. J. P. E. Kumler, the former pastor. Dr. Sneed replied in his usual happy vein. The church rooms were lavishly decorated with flowers and Mrs. Sneed was the recipient of numerous floral gifts. Dr. Sneed will occupy the pulpit as usual tomorrow. Immediately on his return Dr. Sneed will complete arrangements for the dedication of the Kumler Memorial chapel.

[SPECIAL TELEGRAM TO THE GAZETTE.]

Louisville, Ky., June 27.—Secretary Pulliam and Manager Clarke of the Pittsburgh National league team spent today in Louisville talking with Tebeau's players and witnessing their work at the grounds this afternoon. Five or six of the Louisville players were consulted, but all concerned refused absolutely to say anything regarding the conference.

A report was in circulation at the baseball park this afternoon that an effort was being made to induce several of the players to jump their Louisville contracts and go with the National league. Pulliam and Clarke both asserted that Pittsburgh was not in need of players, but a rumor has obtained credence following the visit of President Hart of the Chicago National league team that an effort is being made in his behalf to add to the strength of that team.

The Pirates were to have played an exhibition game with Fred Pfeffer's team at Decatur, Ill. yesterday, but Manager Clarke at the last moment called the game off, as he thought a day's rest would do his players more good than taking chances on an exhibition game. The team instead of going to Decatur went straight to Cincinnati, where the boys spent the day in rest. The champions will meet the Reds today and tomorrow, and the contests promise to be lively ones, as the Cincinnati players are anxious to get even for the large number of defeats already piled on them by Clarke's team.

Catcher Jack O'Connor, who is at his home in St. Louis nursing a badly stoved thumb, is having a lot of fun with the American league people over there over that story that himself and Honus Wagner were to jump to the Browns. There is one part of the story which comes out of St. Louis that President Dreyfuss objects to, and that is the statement that the salaries of O'Connor and Wagner were raised just as soon as the report spread that they were to jump to the American. President Dreyfuss says there is not a word of truth in that report. The players, like all the rest of the Pirates, were signed at their own figures, and what is more, they signed two years' contracts which are both mutual and binding.

The contractor who has the job of erecting the 2,500 additional seats at Exposition park for the Fourth of July games had a large force of men at work yesterday and the uprights for the seats were all in place by 6 o'clock last evening. The contractor has promised to have the seats finished by 11 o'clock on Monday morning, and judging from the way he started in yesterday he will make his word good. The new seats should be popular ones, as they will be on the shady side of the field.

DUNN'S COSTLY MUFF.

EYES OF THE GOLFERS TURNED TO THE EAST

Intercity Contest With Philadelphia Absorbs the Interest of Local Enthusiasts Today.

The event of the Pittsburgh golf world today is the intercity match to be played at Philadelphia between picked teams of 10 golfers from the two ends of the state. This is the first all-Pittsburgh golf team that ever played, and the match is the most important one ever participated in by a body of local golfers. The golfers who will play for Pittsburgh are G. A. Ormiston, H. C. Fownes and W. C. Fownes, Jr., of the Highland Golf club; O. D. Thompson, E. M. Byers, J. E. Porter, W. C. Carnegie, B. S. Horne and John Moorhead, Jr., of the Allegheny Country club, and R. P. Nevin, Jr., of the Edgeworth club.

Eighteen holes of the match will be decided this morning and 18 this afternoon, the latter to be under two-ball foursome rules of play, in all likelihood. Events scheduled for the local field today are as follows:

Final 18-hole rounds under handicaps on the Schenley course for the Laughlin challenge cups for men and women, 11 low gross scores of the former and seven of the latter having qualified in two 18-hole rounds to compete with Henry Sproul and Mrs. J. R. Speer, the holders of the trophies from last season. The cups must be won twice.

At Sewickley, qualifying play in the morning for the women's handicap match play tournament, cup offered by W. N. Kerr. Handicap match play against "bogey" in afternoon for R. D. Haworth trophy.

At Logans Ferry, semi-final 18-hole round of handicap match play for the governors' cup of the Westmoreland Country club.

At Edgewood, 18 holes of qualifying play for the Fourth of July cups, first eight scores to qualify for the first cup and second eight for consolation.

At Highland, 18 holes of handicap medal play for members with Greens committee prizes for the first and second best net scores.

The Country club schedule calls for the first monthly contest for the Hotel Schenley cup on the new nine-hole course.

HAD HARD LUCK.

W. K. Vanderbilt, Jr., Tells Why He Gave Up in Auto Race.

PARIS, June 27.—W. K. Vanderbilt, Jr., who gave up the automobile race at Belfort and returned here yesterday, said in an interview:

"I never had such hard luck; my tires burst twice, my radiator then got out of order and next I ran over a dog. My auto arrived at Belfort so damaged it could only go 15 kilometres and that is why I gave up the contest. Perhaps I will have better luck next time."

BELATED ELECTION CONTEST.

The House Will Vote on Twelfth Missouri Case Today.

WASHINGTON, D. C., June 27.—The house today began consideration of the contested election case of Horton vs. Butler from the Twelfth Missouri district. The majority of the committee found that the election was so tainted with fraud as to make it invalid, and recommended that the seat be declared vacant. The minority found that Mr. Butler, the sitting member, had been legally elected, and recommended that he retain his seat. The vote will be taken tomorrow.

Requests for unanimous consent, for which there is always a great demand during the closing days of a session, were suddenly blocked today by Mr. Moon of Tennessee, who told his friends that he would object to all such requests until he is recognized to ask consideration of the bill to give the Indian territory a territorial form of government.

K. of P. Lawn Fete.

The lawn fete given on the lawn of the First ward school, Wilkinsburg, last evening under the auspices of the uniformed rank, Knights of Pythias, was a decided success socially and financially. A number of young women relatives and friends of the members assisted at the event and presided over the various booths.

LEANDER WILL ARRIVE TODAY

WILL BRING ALONG TWO FAST PACING MACHINES.

The Chicago Rider Has Been Doing Fast Work—Has Met and Defeated Lester Wilson and Other Well-Known Motor-Paced Triists.

George Leander of Chicago, who is matched to meet Benny Munroe in a 30-mile motor-paced race at the Colosseum track in Allegheny, is expected to arrive in Pittsburgh this morning. He will bring with him two pacing machines and today will train at the Colosseum track for his race on Monday night. This will be Leander's first appearance in Pittsburgh this season. He has been riding on the eastern tracks and has made a good showing.

This week at Baltimore he met and defeated in two straight 10-mile heats William King and did it without much trouble. Earlier in the season at Cleveland he defeated Lester Wilson, who was defeated by Benny Munroe at the Colosseum last Monday night. Leander and Munroe are evenly matched and as they are both in good condition the race will be a close one from the start to the finish.

The race will be run in three heats of 10 miles each. Benny Munroe has been making many friends by his riding at the eastern tracks and he will come back here one of the most popular little riders in the cycle racing game. His record here on Monday night and those made in the east show that he is improving very considerably, and he ought to place his own record for the distance at a lower mark in the race on Monday night. The entries for the amateur events on Monday night will close promptly at 6 o'clock this evening.

METEOR A WINNER.

Emperor William's American Built Yacht May Lose Race on Time Allowance.

KIEL, June 27.—Emperor William's American-built schooner yacht Meteor, with the emperor himself on board and steering most of the time, finished seven minutes and twenty-two seconds ahead of the Cicely in the large schooner race held here today in connection with the regatta. The Cicely is owned by Cecil Quentin of England, and was designed by Fife. Under her time allowance, however, the Cicely claims the race by 1 minute and 11 seconds. The judges have reserved decision because of a protest entered by M. Guillemamme, the owner of the Clara, which was also in the race, who avers that the rules required the Cicely to carry two anchors at her bows instead of one. The race will be given to the Cicely unless she is ruled out.

The Empress and Fraulein Gersdoff, one of her ladies in waiting, were on board the Meteor during the race. The contest was a trial between American and English-built boats. The Meteor, the Iduna, belonging to the empress, the Lasca and the Nordwest are American-built yachts, while the Cicely and the Clara are of English construction. Some of the best English sailing talent was in command, the Cicely was sailed by Capt. Wringe, and the Meteor, whose crew is largely English, by Capt. Parker. Henry Barbey of New York, who was associated with Archibald Cary Smith in designing the Meteor, saw the race from an excursion steamer.

MISS JONES CHAMPION.

The Nevada Girl Earned the Title by Brilliant Play Against Miss Neely.

PHILADELPHIA, June 27.—The feature of today's play in the woman's championship lawn tennis tournament was the final in singles between Miss Jones of Nevada and Miss Neely of Chicago. Contrary to expectations Miss Neely quickly gained the advantage and was within one point of securing the first set, but Miss Jones, by brilliant and masterful handling of the racquet, won the match in straight sets. In the two games Miss Jones scored 87 points against 72 scored by Miss Neely. Miss Jones will tomorrow meet Miss Moore, the present champion, for the title. Summary:

Woman's singles, final—Miss Jones beat Miss Neely 8-6, 6-4. Consolation singles, semi-finals—Miss Steel beat Miss Green 1-6, 6-2, 6-3.

ONE FAVORITE ALL THAT COULD GET TO FRONT

The First Choices Had a Very Bad Day of It Down at Gravesend.

ROXAM SPRUNG SURPRISE

Took the Feature Event of the Day from Yankee and Old England, Who Were Equal Choices in the Betting—Wonderly Rode Winners.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

New York, June 27.—Remorse was the only favorite to win at Sheepshead Bay today, the other five events going to second choices and long shots. The chief interest centered in the handicap at one mile, in which Yankee, last year's futurity winner, made his 1902 appearance. The talent was undecided on their choice, and Dublin and Old England closed equal choices at 13 to 5, while as good as 8 to 1 could be had against Yankee. Old England closed equal choices at 13 to 5, while as good as 8 to 1 could be had against Yankee. Old England set the pace to the stretch with Yankee second and Dublin third. In the stretch Redfern brought Roxane up, and in a driving finish won by a head from Old England, who beat Yankee three lengths. Jockey Wonderly rode two winners. Summary:

ARTICULATE'S FINE RACE.

Got a Bad Start, but Made Up for Lost Time.

CHICAGO, June 27.—This was an off day at Washington park. Showers fell during the afternoon and there was no stake feature. The most interesting event was the victory of Articulate in the third race. He was the strongest favorite at the meeting, 1 to 3 being the odds offered against him, but he narrowly escaped defeat. The race was at seven and one-half furlongs and the start on the bend seemed to bother the favorite in getting away. By the time the field was straightened out on the back stretch he was nearly a sixteenth of a mile behind Jack Ratlin, who got away flying. Lyne sent Articulate along a bit, but he had 100 yards to make up on entering the stretch. There he was fortunate enough to get a clear path next to the rail and he came fast, gaining on the leaders and finally passing under the wire a half length to the good, with Rolling Boer second. Maud Gonne, with a running start, gave a decisive defeat to the odds-on favorite, Ed Austin, in the sprint. Summaries:

First race, five and one-half furlongs—Our Bessie, 108, Birkenruth, 9 to 1, won; High Chancellor, 111, Donnelly, 8 to 5, second; Gallant Smith, 106, Peerles, 4 to 1, third. Time, 1:08 2-5. Ahola, Airlight, Lendin, Rosanco, Sigmund, Watkins Overton, Sheriff Bell and Pageant also ran.

Second race, one mile—Marque, 100, Otis, 2 to 1, won; Bragg, 105, Dean, 8 to 1, second; Hunter Raine, 105, Coburn, 12 to 1, third. Time, 1:42 3-5. South Trimble, Glenwater and Old Hutch also ran.

Third race, seven and one-half furlongs—Articulate, 120, Lyne, 1 to 3, won; Rolling Boer, 110, Coburn, 10 to 1, second; Jack Ratlin, 106, Beauchamp, 5 to 1, third. Time, 1:35. Favonius and Irma's Choice also ran.

Fourth race, selling, mile and a sixteenth—Tammany Chief, 105, Dean, 4 to 1, won; Hayward Hunter, 90, Helgeson, 12 to 1, second; Ben Chance, 112, Munro, 12 to 1, third. Time, 1:50. Dr. Hart, Hot, John A. Clark, Leo Newell and Dark Secret also ran.

Fifth race, six furlongs—Maud Gonne, 110, J. Mathews, 6 to 1, won; Ed Austin, 111, Coburn, 3 to 5, second; C. B. Campbell, 119, Meade, 5 to 1, third. Time, 1:14 2-5. Kenilworth, Red Book and Mary Pine also ran.

The PRICES are a wonderful incentive when you reflect upon the beauty and desirability of this plan and its proximity to great industrial communities on all sides! West Park stands forth pre-eminently as the greatest money-earning proposition of modern experience. Adjoining real estate not nearly so desirable is bringing double our prices.

THE NORTHSIDE CHAMPIONSHIP TO BE SETTLED

The Fairbanks and Windsor Teams Will Meet Today at Exposition Park.

BOTH TEAMS ARE LEADERS

They Have Met and Defeated the Best Amateur Nines and Will Now Settle Between Themselves the Question of Supremacy.

The Fairbanks meet the Windsors today at Exposition park in the first of a series of three games to be played for the championship of Allegheny. These teams are considered the equal of any amateur nine in Western Pennsylvania, which has been shown by their splendid work this season.

Considering this, a hotly-contested game can be expected, as well as a record-breaking crowd. Yoedt, Kommer or Probst will be on the slab for the Fairbanks, while Patton or Glassburner will twirl for the Windsors.

The Fairbanks will line up as follows: Ortlieb catcher, Yoedt, Kommer or Probst pitcher, Cabell shortstop, Peiffer first, Lauer second, Yoedt or Mangold third, Bardelang left, Leippert middle, Mangold or Kommer right. All Fairbanks players must report at the ball park not later than 1:30 p. m.

LABOR WANTS ADVANCES.

Delegation Appears Before Select Councils' Finance Committee and Secures a Recommendation.

A delegation representing the several labor unions of Pittsburgh, attended a meeting yesterday of the committee on finance of select council. Frank E. Smith represented the painters; Andrew J. Hurney, the pavers and rammers; James Furnau, District Assembly No. 3, K. of L., and Daniel Gildernew, the bricklayers. They all spoke in favor of ordinances fixing the wages of all city laborers and skilled workmen, the same as paid to labor union members, and stipulating that all inspectors of city work be skilled workmen in the lines of work they inspect.

Frank E. Smith declared that the city is well able to pay union wages and said that the municipality should be ashamed to keep down the wages of the laboring men. He said union men cannot secure employment from the city because the wages are from 40 to 60 cents per day less than those paid to union workmen.

Joseph Armstrong of common council said the question of wages of city employes is now before the committee on revision of salaries, and for that reason the ordinances should lay over until that committee makes its report. The ordinances were recommended favorably, as were all other measures before the committee.

MAY MOVE THE STATION.

Rumors of Pennsylvania Railroad Changes at Wilkinsburg.

It is said that the Pennsylvania Railroad Company is contemplating some important changes on its property in and about Wilkinsburg. The rumors embody the removal of the station to Penn avenue, the erection of a handsome structure there, the elevation of the tracks about seven feet in Wilkinsburg, and the elimination of the curve in the tracks running from Penn avenue to Brushton station, which would cause a change in the route likely as far east as the present station, and possibly well up to Edgewood.

The travel at Brushton station has fallen off so greatly since the advent of street car competition that that station may be abolished entirely. The citizens of Wilkinsburg will endeavor to have the three grade crossings removed and the streets cut under the tracks when the latter are elevated. As a result of the rumors of the proposed changes property values are already affected.

CARNEGIE WOULD AID SAILOR WHO BEFRIENDED HIM

Old Etching of the Bark Wiscasset Recalls Former Times.

WAS FOUND IN MAINE

Strange Chain of Circumstance Places in Hands of Ironmaster a Photograph of the Carving of Ship on Which He Crossed the Atlantic.

[SPECIAL TELEGRAM TO THE GAZETTE.]

Bangor, Me., June 27.—The following letter, received by Joshua P. Gould of Essex street, this city, from Andrew Carnegie's private secretary is the result of a peculiar chain of circumstances and a consequent discovery:

"Dear Sir: Mr. Carnegie thanks you sincerely for sending him a picture of the Wiscasset, which is no doubt the bark in which his parents sailed, with himself and his brother, in 1848. He remembers the master was Capt. Long, and there was a sailor on board who was a great favorite, called Barryman. Mr. Carnegie has often said if he could find him he would like to be of service. He became a little sailor and was sorry to leave the ship after seven weeks upon it. Very truly yours,

"JAMES BERTRAM,
"Private Secretary.

"Skibo Castle, Ardgay, N. G., June 3, 1902."

The picture referred to is a photograph of an etching on a whale's tooth of the bark Wiscasset, on which Mr. Carnegie came to America with his parents when a boy. The discovery of the fact that the relic, which had long been in the possession of Mrs. Gould, had a personal bearing on the life of the great ironmaster came about in the following way:

Under date of May 17, 1901, Mr. Carnegie, in a letter in the London Standard, wrote:

Knockaderry Castle,
County of Dumbartonshire.

My Dear Lord Provost:

It gives me pleasure to provide the needed funds for branch libraries, which are sure to prove of great advantage to the masses of the people. It is just fifty-two years since my parents with their two little boys sailed from the Broomielow for New York in the bark Wiscasset. It is delightful to be permitted to commemorate the event.

Then it was that the people in Bangor began to recall the old ship Wiscasset, and it was then that a relic possessed by a Bangor woman, Mrs. Ellen Hubbard Gould, wife of Joshua P. Gould of Essex street, became of more than former value, although this keepsake had always been highly cherished. The relic to which reference is made is an etching on a whale's tooth.

The tooth was one of those of a whale killed off the coast of New Zealand, January 7, 1836, in latitude 30 degrees and 30 minutes S., longitude 177 degrees 30 minutes west. The tooth weighs four pounds, and is eight inches in length. The whale in question was killed by the crew of the whaler Wiscasset, and in commemoration of the event a member of the crew, G. W. Hubbard of Wiscasset, made an etching on the smooth surface of the tooth.

The picture represents the ship lying by while several of her boats are in pursuit of a whale, which is but a short distance away. The scene is produced with remarkable fidelity to details, and shows that the artist must have possessed considerable skill. The lines were evidently carved with a knife and then traced with India ink.

There can be no contention over the decision that it was this vessel that brought the Carnegie family to America, for a careful search of the marine registers, old and new, shows that there was only one square-rigged vessel named Wiscasset, that one being a whaler built in Wiscasset, Me., and named for the town.

Mrs. Gould received the picture from her mother, to whom it was given by her brother-in-law, G. W. Hubbard, who was the artist.

ANDREWS AMAZED.

A Suit for $3,000 Instituted by the Harrisburg Trust Company Puts Him to Guessing.

The Harrisburg Trust Company yesterday entered suit against William H. Andrews to recover $3,000, with interest, on a note. The note was made October 25, 1901, payable in 60 days. It was indorsed by J. C. Sturtevant.

Mr. Andrews said last night that he knew nothing of the note, and that there must be some mistake. "Why," he said, "if I owe anybody $3,000 I have the money and am ready and willing to pay it. There is certainly an error. I have never been asked to pay such a note, and really know nothing about it. I will ascertain in the morning what it all means."

WANT A NEW CHURCH.

Dr. Gibson and Followers Decline to Unite With Fourth Church.

The discussion concerning the establishment of a new Presbyterian church in the East End district, near the present Fourth church, is becoming exceedingly warm. The Rev. Dr. J. T. Gibson and his followers are bent on establishing a congregation there without the consent of the presbytery, if they are forced to that point. They have refused the Fourth church's proposition to remove that church to a more central location, and in time erect a more commodious edifice. The Gibson element claim they will have nothing but an independent church.

The Fourth church congregation will hold a special meeting tomorrow, but it is not likely that it will make any more concessions in the matter. The presbytery will hold a stated meeting Monday at which the affair will be settled.

No Summer Bowel Troubles

Not for me! I'm safe from all of them and happy. The heat of summer causes organic matter everywhere to decay. All dead vegetable or animal matter rots if not kept on ice. All undigested food in the human body will ferment a hundred times as quickly in summer as in winter. Consequence—stomach, liver, bowels poisoned, thrown out of order—sour stomach, gases, colic, diarrhoea, dysentery, cholera, appendicitis, and in some regions yellow fever and the plague. Little children suffer terribly everywhere. What does good sense tell you to do? You can't keep the human body on ice, and the drinking of ice-cold drinks does more harm than good because it stops digestion and chills the internal organs. The proper thing is to keep all impure and unnecessary matter out of the body every day, not give it a chance to sour and decay in the stomach and bowels, and poison the blood and the whole body. In this way you will stop all hot, feverish conditions, and keep your insides cool and healthy. To do it, use a medicine that is not offensive to the taste and not harsh and violent in its action. There is only one safe system-cleaner to take in the summer time, because it will not cause diarrhoea or griping, and that is

The Hound of the Baskervilles

The Latest Adventure of Sherlock Holmes

By Sir A. Conan Doyle

Of a Score of Reasons Why You Should Read It We Will Mention Three:

1—Because it is a mystery story that holds the reader spellbound to the end.

2—Because it is a profound study of the foremost character in modern fiction, Sherlock Holmes.

3—Because it is a consummate piece of literary work.

The combination makes up a story which, for thrilling interest, stands by itself. From the first discovery of the hound's trail, when the dried-up young doctor brings to Sherlock Holmes the ancient manuscript, to the final scene where the great detective is brought face to face with the monster of the moorland, there is not a sentence that does not carry the reader breathlessly forward. It is a great novel, with a great subject, by a master of the craft.

You Will Find It In The Sunday Gazette, July 6.

Blaney Created a Breeze.

There were 19 witnesses heard yesterday. John Blaney was the last one, and he created a little excitement when he concluded. Blaney testified in regard to the naphtha that ran down the Cork's run sewer. He said that the naphtha flowed out of the sewer like water until it struck the air and then exploded. Hugh Flaherty, witness' father-in-law, was killed by the first explosion. There was no fire until after the first explosion. Blaney said the trainmen were very careless in handling the naphtha cars, jumping from the train 200 and 300 yards from the point of stopping and allowing the tanks to bump into other cars with terrific force. He said he witnessed this carelessness before the accident and also since the accident.

Coroner McGeary then said:

"As I have run out of witnesses, this inquest will be adjourned until Tuesday morning, July 1, at 10 o'clock."

"There are witnesses here now and you ought to hear them," said Blaney, rising to his feet.

"I haven't any more, and I will not hear any more at this time," said the coroner, "I have run out. I will not hear any more now."

"There are witnesses here," said Blaney. "There is no danger of your running out unless you want to. We want this thing thoroughly investigated and we're going to have you do it, too. You can get lots of witnesses who know something about it."

Blaney talked long and loudly in the corridor, and attracted considerable attention.

Coroner McGarey's Statement.

In speaking of Blaney's action, Coroner McGeary said:

"I have no intention of making anything but a full and free examination of the cause of the accident. I decided to let the people who were there tell me all they knew first, for I though that they might give me some facts in the matter which I might use to advantage. At the next hearing I'll examine the rest of the people and then at the third session I'll have the yardmaster and his assistants and the members of the crew who were shifting the cars that evening on the stand."

Frank McCune of No. 78 Harvard street, Sheraden, superintendent of the Monongahela Connecting railroad, and at one time an employe of the Panhandle railroad and yardmaster of the yards where the explosion occurred, was one of the witnesses. Mr. McCune arrived on the scene a few minutes after the explosion. He said:

"My understanding is that the train crew was shifting the tank cars, eight or ten in number. As I understand it but one man got onto these cars instead of two. He couldn't hold the cars and the end of one was knocked out, spilling naphtha. In shifting this leaking car the naphtha caught fire from a switch light. The men dropped the cars down into the yard away from the town, as they should have done. It was an accident for which no one could be held responsible."

Among the witnesses were people in all walks of life. Some knew of one explosion and some of another, and it was difficult at times to tell whether they were telling of the explosions of the cars in the yards, or of the explosion of the naphtha after it had run half a mile and came out at the end of the Corks run sewer. Practically no information was received as to what caused the explosion, further than it was tank cars, which everybody knows.

CITY'S RESPONSIBILITY.

Position Taken by Mercantile Trust Company in Its Objection to Controller Hiring Lawyers.

Arguments were heard before Judges Frazier and Rodgers in common pleas No. 2 yesterday upon the question of the right of Attorneys W. B. Rodgers and George W. Guthrie to represent Controller John B. Larkin in the mandamus proceedings of the Mercantile Trust Company and Elmer E. Siebert. Attorney Homer L. Castle, for the trust company, explained that it was not because the lawyers were not desired, but because if judgment was rendered for the petitioners the city could claim it had not been represented.

Arguments were made by Mr. Guthrie upon the personal responsibility of the controller, and the court took the papers.

JUBILEE DAY IN ALLEGHENY PARKS

ABOUT 15,000 PEOPLE THRONGED HANDSOME WEST PARK.

One of the Greatest Annual Celebrations the Public School Children of Allegheny Have Ever Had—Many Bands Made Plenty of Music.

West park, Allegheny, was yesterday afternoon a moving scene of life and color, the occasion being the annual jubilee of the school children of the North Side. The green of the park, the rustling of the trees, an atmosphere filled with melody and the joyous shouts and laughter of children, all mingling in the bright sunshine of a perfect June day, made the picture one not soon forgotten by those who witnessed it.

The jubilee was one of the greatest ever seen on the North Side. A conservative estimate placed the number of children participating at about 10,000. Added to this there were about 5,000 friends and relatives of the school children present. Had it not been for the fact that many of the schools have held private picnics or have arranged to do so, the attendance would have broken the records of other years.

Bands Made Plenty of Music.

The jubilee was held by the school children of the Second, Fourth, Fifth, Sixth and Seventh wards of Allegheny. The children marched to the park shortly before 3 o'clock, each school led by its own band. When the park was entered the children spread in every direction, while the bands took up positions under shelter tents, where, during the afternoon, they gave concerts.

Flag badges adorned the breasts of all the children, with the letters of their schools. Tents and marquees were erected in different parts of the park, and these were occupied by teachers and school directors. Along North avenue enterprising merchants had erected stands, and ice cream and candies were soon in demand. Peanut and pop corn ball merchants in hundreds shouted their wares through the park and thousands of children soon were munching these edibles. Games of all kinds were formed on the green sward and here and there groups of joyous shouting children were mixed up in tangles.

Headquarters for Lost Children.

The police arrangements were perfect, and not a single accident marred the jubilee. Superintendent Henry Muth detailed 27 officers in charge of Lieutenant Speer for duty in the park. These officers were assigned at the lake, along the railroad and at all the park outlets to the street cars.

A committee, consisting of the truant officers of Allegheny, opened headquarters in the Allegheny High school, where all lost children were turned over to them. A store of cakes, candy and ice cream filled these headquarters, and all children brought in were plentifully helped to them.

Shortly after 7 o'clock the outing ended. It will take the park management the remainder of the summer to restore the natural carpets of green which were rudely raced over and trampled yesterday.

Copenhagen was the principal pastime of the afternoon. There were no restrictions on the game and as soon as the children entered hats were piled on the ground and circles formed. Then the kissing began, and was kept up by the children until they were too tired to continue it further. Many times the kissers of the game got beyond the circle of young people, and, will-o'-the-wisp fashion, was passed through the crowd of older people who watched the game.

FUSION TICKET COMPLETE.

The Citizens Committee of 32 Yesterday Selected Two Legislative Candidates.

The fusion county ticket was finally completed yesterday by the Citizens party's executive committee of 32 filling two places on the legislative ticket. One vacancy was caused by the withdrawal of Ralph M. Strawbridge and the other by the refusal of John H. Trimble of Allegheny to accept a nomination. In Mr. Strawbridge's place, S. W. H. Nichols, common councilman from the Sixteenth ward, was selected to run for the legislature from the Fifth district, and J. E. Powell was chosen in Mr. Trimble's place, the legislative committee from that district having certified Powell's name to the committee of 32.

The committee of 32 met at 3 p. m. yesterday in the Citizens party headquarters in Third avenue. There was a very full representation. The committee decided that it should honor the protest made by the Democratic committee of 10 against Mr. Strawbridge, the Democrats having listened to the Citizens party's protest against John Sweeney, after the Democratic committee of 10 had nominated Sweeney. This action by the committee of 32 was the more necessary, as in the agreement drawn up and signed by the committees of 10 of both parties it was expressly stipulated that the nominations made by either committee of 10 must be mutually satisfactory.

The fusion ticket being filled, on motion of T. S. Bigelow a resolution was adopted "that the fusion ticket as a whole be ratified and that the nomination papers of the various candidates be filed immediately." The nominations must be filed in advance of the Democratic convention to be held next week, so that the convention may indorse the nominees.

MAY MAKE A LEGAL FIGHT

Western Union Claims an Existing Contract With the Pennsylvania Railroad.

A legal fight may result from the canceling of the contract between the Pennsylvania railroad and the Western Union Telegraph Company. It is asserted that some of the contracts of the Western Union Telegraph Company with the Pennsylvania Railroad Company have not expired. The contract covering the central division between Philadelphia and Perryville, it is said, has no termination clause and is virtually perpetual. The phy of Allegheny came over to Pitts- Company also insist that there are other sections of the road on which the agreements are still in force. On these agreements a fight is to be made and in all probability an injunction will be asked to prevent the Postal Telegraph Company from operating on the lines of the Pennsylvania railroad.

District Superintendent Kimmey of Pittsburgh, District Superintendent Lemon of Philadelphia and General Superintendent Cochran of the Postal Telegraph Company met C. M. Shaeffer, superintendent of telegraph of the Pennsylvania railroad, in Philadelphia yesterday to make arrangements for the installation of the Postal system on the lines east of Pittsburgh and Erie.

FRENCH ESTATE TRUSTEES SUED FOR MILLIONS

Widow of Late Manufacturer Asks Court to Declare Trusts Void.

DEMANDS AN ACCOUNTING

Mrs. Aaron French Alleges Papers Were Part of a Scheme to Dispose of Husband's Estate—Her Story of the Trouble.

Mrs. Caroline B. French, by Attorneys Patterson, Sterrett and Acheson, yesterday began proceedings in common pleas court No. 3 to obtain possession of thousands of dollars worth of stock said to be part of the estate of her husband, the late Aaron French. An accounting is also asked. The defendants are Philo N. French, Clara French Kaufman, Lucie J. Retter, Euphrasia Scott, Catherine Kaufman, and also Philo N. French, James H. Reed and George B. Motheral, trustees of the estate of Aaron French.

Aaron French was married to the plaintiff on December 27, 1871. He died in this city March 24, 1902. The estate of the decedent is a very valuable one. Its exact worth is not known, as an account has not been filed.

By the terms of the will the executors were directed to sell the real estate, and one-third of the proceeds were to go to the widow, who was also to get certain personal property. The remainder went to the defendants named.

Alleges Illegal Act.

Mrs. French, after the will was filed, decided to take under the intestate laws. Part of the estate consists of nine acres of land and a dwelling at Linden and Penn avenues.

In the bill it is set forth that upon January 7, 1902, Aaron French, while in company with his son, Philo N. French, at Mimosa, N. C., executed three papers, two of which were purported to be conveyances in trust and the other the last will of the decedent.

The plaintiff declares she has no means of knowing in what order the papers were actually executed, but that they were executed as the part of an act or scheme and were intended to dispose of the decedent's entire estate. On the same day, it is said, Aaron French executed an assignment conveying to Philo N. French, James H. Reed and George B. Motheral 8,600 shares of the A. French Spring Company. It is said the par value of the stock is $100 a share. It is also set forth that this stock was to be held in trust, the trustees to pay to Aaron French the net profits from the same for life and upon his death in trust for his children and Euphrasia Scott, termed in the paper as a neice, but who is, in fact, a grandchild of the decedent.

Stock Conveyed in Trust.

It is further alleged the stock of the spring company was worth $1,760,000 at the time of Mr. French's death. Under the trust paper, it is said, the decedent reserved to himself the right to a full and entire control of his estate for and during his life, and at his death it was directed the trust should cease. It is averred, therefore, the persons named as trustees were merely attorneys.

Another paper, it is set forth, was for the conveyance to the trustees of 102,000 shares of the Trade Dollar Mining and Milling Company, placed with them under the same conditions as the other stock. It is claimed this stock is worth $160,000.

Mrs. French in the bill states that after the return of her husband, Aaron French, from North Carolina in January, 1902, he was quite ill and remained in failing health until his death upon March 24, 1902.

Not Permitted to See Husband.

During this period, the plaintiff declares, she was not permitted to have an interview with her husband, being excluded from his bed chamber by the acts and discretion of his children; nor did she know of the execution of the will and trust papers until after her husband's death. The plaintiff declares that she asked the executors to probate the trust papers, but that they refused. She declares that they have refused to account to her, and treat the property named as part of the estate. It is also declared the trust papers are void.

It is asked that the trust papers be declared as part of the will; that they be declared void, and that the executors account for the plaintiff's interest in the estate; also that they be enjoined from disposing of any of the property.

MRS. HARRIS ACQUITTED.

Had Pleaded Guilty of Larceny, But Withdrew the Plea—Alderman Tried for Conspiracy.

Lillian Harris was acquitted of a charge of larceny in the criminal court yesterday and was discharged, after having been confined in jail since May 20. She left the court room and passed into the corridor, where she shook hands and passed a few pleasant remarks with a number of the jurors who had not left the court, although they had been discharged from further duty. One of the jurors, however, ignored her offered hand and shook her off as she caught his arm in her attempt to thank him.

Mrs. Harris was accused of stealing a diamond stud valued at $40 and $4.75 in money from Louis Good on the night of May 18. On June 18 she, with her husband, pleaded guilty and the husband was sentenced to the workhouse for two years. Mrs. Harris fainted when the sentence was pronounced and afterward withdrew her plea and decided to stand trial.

Good said he met the couple in a club house, where they drank a good deal. Some time after, he said, he gave Harris his watch and chain to keep until the next day. Harris then left them and went to play poker. Good and the woman went to a room on Third avenue.

Good Missed His Diamonds.

Good said he was intoxicated and went to sleep, and when he awakened his diamond stud and money was gone. He said he lived in Aurelia street and had intended to invite Mr. and Mrs. Harris to his home for dinner, as he thought they were all right.

William Coppes, who roomed in the same building with Harris and his wife, testified that he heard Mrs. Harris tell her husband that she looked in all his (meaning Good's) pockets and $4.50 was all the money he had.

Mrs. Harris testified that she and her husband came to Pittsburgh on May 14. She told of meeting Good in the Diamond street club house and of their drinking a large quantity of beer together. She said Good gave her money with which to play a slot machine and that she won $4.50. Later she said that she and Good went to a room, where he gave her his diamond stud. She testified that they were drinking in the club house from 1 o'clock until 6 o'clock in the morning.

Alderman William Lang of Allegheny, Andrew Ulkavitch and Mary Fifer were acquitted but sentenced to pay the costs in a conspiracy charge preferred against them by Adam Huydukavitch. The prosecutor alleged that on December 21 last he was arrested on a warrant sworn out before Alderman Lang on a charge of larceny preferred by Ulkavitch, one of the defendants.

Peculiar Mode of Collecting.

He claimed he was taken before Lang and informed by Mrs. Fifer, who is an interpreter, that unless he gave them (the defendants) $100 he would be sent to jail for a long time and that his wife would also be locked up and his children left in care of the city. He said he paid the money.

The defendants denied threatening the prosecutor. Alderman Lang said the prosecutor had been arrested several times on charges of disorderly conduct and that he had never paid the costs imposed upon him in the cases. Ulkavitch preferred a charge of larceny against him for the price of a steamship ticket which was sent to Huydukavitch's wife so she could join her husband in this country. This the latter refused to pay and he was arrested. He was told that if he raised $100 with which to pay the costs in the disorderly conduct cases and the borrowed money he would not be prosecuted on a charge of larceny.

John Allison, Maggie Coyle, Sarah Ellwood, Bridget McDermott and Mary Stabbo were acquitted on charges of selling liquor illegally. Their prosecution was brought about by the returns of Constable William R. Reese of the Ninth ward.

LEGAL BRIEFS.

An estate valued at $5,000 is bequeathed by Henry Beyslege, of Shaler township, to his wife.

Prothonotary McQuitty is contemplating some changes in his office. This is the result of the present crowded condition.

Patrick Burns sued Zug & Co., Ltd., for $20,000 damages for alleged injuries received by being run over by a crane.

The report of the commissioner in the divorce case of Maggie M. Dysert against William J. Dysert, was filed. They were married November 22, 1897. Desertion is alleged.

Executions were issued as follows: James H. Hoover vs. Safe Deposit & Trust Company, administrator estate of William Fisher, $3,508 16; T. Tulley vs. Joseph and Margaret Harty, $81.

By the will of Matilda E. Wildman, of Pittsburgh, $500 each is bequeathed to D. W. and Edson Van Tassell, $5,000 is left to Emily Trueman and the residue of the estate, which is valued at $28,500, is left to Thede E. Hull and Emma V. Gowans.

Testimony was filed by Edwin P. Young, commissioner in the divorce case of Anna Adams against Samuel Adams, in which a decree is recommended. They were married November 7, 1885, and separated December, 1894. The libelant says the morning her husband deserted her he choked her and took her money.

It was announced yesterday that jury trials in criminal court were concluded for this term. The panel summoned for next Monday will be discharged. On July 7 the grand jury will convene to pass upon a number of road cases and some criminal cases may be acted upon. Court will be held each Saturday in criminal court.

The testimony of John R. Speer, master in the divorce case of Anna L. Baxter against Thomas W. Baxter, was filed. They were married June 29, 1897, and separated November 27, 1900. A decree is recommended. The wife alleged that her husband was sent to the workhouse in a case in which the name of Belle Hahn was mentioned.

W. A. Bollinger, master in the divorce case of John M. White against Rebecca White, recommends a decree. They were married April 13, 1897, and separated in December, 1901. The libelant declared he once saw his wife in the arms of Joseph Cass, whereupon he broke in the door. It was shown that when Mrs. White left her husband Cass paid her board elsewhere.

The will of John H. Maloy of McKeesport was filed. The estate is valued at $1,650. Certain property in Stowe township is left to Bridget Griffin and other property in the same township goes to Daniel Maloy if found within 10 years. Should he not be found, all the property in Stowe township goes to Bridget Griffin. His personal property is left to his children. The residue goes to Mary Ann Griffin.

An affidavit of defense was filed in the suit of the Pittsburgh & Castle Shannon Railroad Company against the Pittsburgh & Charleroi Street Railway Company, an action to prevent the defendant from crossing plaintiff's tracks at grade in Baldwin township. The plaintiff alleges that the grade crossing is in an incomplete state and that a better crossing can be constructed below grade. The defendant company denies this and says that the lower grade is impracticable.

DILL'S BALM of LIFE

Especially valuable for infants and children

Doctors will tell you that most all such diseases, so widely prevalent during the warm weather, are directly traceable to the presence of germs or bacili; that such forms of disease can only exist when the stomach and bowels are in what is called an alkalied condition. If changed from an alkali to an acid state the germs will cease to exist—will pass naturally from the system—thus relieving the body of the disorder from which it has been suffering and effecting a permanent cure.

Dill's Balm of Life will do this—and more. It heals and soothes the weakened membranes and imparts a tonic effect to the whole system.

Try it the next time your are ill. It will not be an experiment. The experimental part was accomplished thirty years ago, since which time it has steadily grown in popular favor as a household remedy.

It is now used and recommended by many physicians and druggists in their own families, in hospitals and public institutions as well as in thousands of homes.

Buy a bottle today and keep it on hand for emergencies.

PRICE, 50 CENTS

Sample size, 25 Cents At all Druggists.

DILL'S WORM SYRUP, for tapeworms or seat worms. A sure cure. It carries off all worms and impurities and is an excellent *mild cathartic* for adults or children. *PRICE 25c.*

E. W. Harden's Daily New York Business Letter

COLORADO FUEL AND IRON UNDER CLOSE SCRUTINY

It Is Not Nearly Earning Its Fixed Charges and Regular Dividends.

NEW JULY RECORD COMING

Corporation Disbursements Will Exceed That of Same Month Last Year, Which Now Holds the Banner—Franklin Money in Mexico.

[BY PRIVATE WIRE TO THE GAZETTE.]

New York, June 27.—The passing of dividend on Colorado Fuel and Iron common was not what one might call a surprise to Wall street; but in addition to causing an initial break of four points in the price of the stock in the market today, it gave rise to closer scrutiny of the company and its affairs, the results of which are far from satisfactory.

The authorized capital stock of Colorado Fuel and Iron is $38,000,00 common and $2,000,000 preferred. All of the preferred stock and $23,000,000 of the common is outstanding, in addition to which there is a bonded indebtedness of $18,050,000. On its outstanding bonds there are entailed fixed charges amounting to $818,640 a year, and dividends at the rate of 7 per cent on the common and 8 per cent on the preferred stock call for $1,707,000, a total in fixed charges and dividends of $2,588,640.

The company is not nearly earning its fixed charges and dividends. The last previous annual report for the fiscal year 1900-01, showed total net earnings of $2,142,671, or more than $400,000 short of dividend and interest charges. Officials of the company assert that improvements now building will almost double the capacity of the company, which is to say that they will increase its output of finished products by about 550,000 tons a year; but taking this prospective output on the insiders' own estimate, it does not appear that the immediate future is big with promise of net earnings, unless the percentage of earnings to output shall show an important increase.

Chairman Osgood's Denial.

J. G. Osgood, chairman of the board of directors of the Colorado Fuel and Iron Company, makes this statement:

In view of the false and malicious statements which recently have been published in some of the Chicago and New York papers that I am short of Colorado Fuel and Iron common stock and have advocated the suspension of dividends for stock-jobbing purposes, I state most emphatically that I have not sold a share of stock short. I have not directly or indirectly sold a share of stock for the last 60 days, and the stock I sold prior to that time were for the purpose of reinvesting in the Colorado Fuel and Iron Company's 5 per cent debentures. The statement that there was a gentleman's, or any other kind of agreement, to pay dividends for another year, is as false as it is ridiculous.

July Dividend Record to Be Broken.

The railroad, industrial and traction and lighting corporations and New York city banks and trust companies will disburse in dividends and interest next month $130,462,383, the largest payments in July ever made in history. Disbursements, in fact, will exceed those of July of last year, which was a record-breaker as compared with preceding semi-annual payments, by something like $20,000,000. The small companies and out-of-town banks and trust companies do not enter into these calculations, neither does the $5,000,000 common dividend of the United States Steel Corporation, which is payable on June 30, but which really will not be received by shareholders until July.

American Steel Foundries Charter.

The charter of the American Steel Foundries, which was incorporated in New Jersey yesterday with an authorized capital of $40,000,000, of which $30,500,000 will be issued, is a very broad one. Among other things it permits the company to manufacture iron, steel, manganese, coke and copper. The officers and directors of the steel foundries probably will be elected next week. The board will be a strong one. A prominent official of the United States Steel Corporation is to be president of the corporation, although his identity has not been disclosed.

Franklin Capital in Mexico.

Orrin D. Blakeley, George Miller and Gen. Charles Miller of Franklin, Pa., are among the incorporators of the Occidental Construction Company, which filed papers of incorporation in New Jersey today with a capital stock of $120,000. It is said the present capitalization is nominal and will be increased. The other incorporators are E. B. Thomas, Samuel R. Callaway, Samuel Spencer, Julius E. French, Lewis Warfield and L. F. Lorce. It is said the Occidental Construction Company has been organized to construct a railroad in Mexico.

NEWS FROM THE MINES

[BY PRIVATE WIRE TO THE GAZETTE.]

NEW YORK, June 27.—A Salt Lake correspondent writes that representatives of Boston and New York capitalists are in the La Sals country negotiating for the International property. Work has been resumed on the Grandview, and the Lincoln tunnel is to be continued into Horse mountain. Fine bismuth gold and silver ore have been found on the Little Dot. Encouraging reports are coming from all the camps, which are making substantial progress in development and production.

Floyd B. Wilson, president of the Arizona Gold and Copper Company, which owns 11 claims, a town site and the entire water rights of the camp in which they are situated near Patagonia, Ariz., has returned from an extended inspection of the property. He reports the sampling plant in full operation and that the company is buying all the ores that are offered. Large bodies of ore have been developed in the lower tunnel of the Trenton claim, which is now in over 300 feet. The company's 80-ton smelter at Patagonia will soon be working to its full capacity.

The gold-bearing ledge of the Orient at West Tintic, Utah, has been cut 70 feet beyond the station where the original discovery was made. The connection reveals the presence of 10,000 tons of cyaniding ore.

Development at Allens Park, 10 miles north of Ward, Col., promises to bring into production ore of the best low-grade camps in Boulder county. The veins are large, some of them 100 feet wide, and carry an ideal concentrating ore, the values running from $12 to $15 a ton and concentrates from 10 to 12 into one at a trifling expense.

Ore has been found at grass roots on the Blue Acre group, near Milford, Utah, that assays over 16 per cent copper and six ounces silver. The vein presents all the general characteristics of the district.

Work in progressing favorably on the Highlander at Ainsworth, B. C. The main tunnel, which is now in 2,250 feet, is being steadily advanced with a view of cutting the second ledge, which will probably be reached by the end of July.

Leasers have discovered great ore on the Muscovite and Silver King, near Idaho Springs. Picked samples run from $500 to $600 to the ton.

A dispatch from Nelson, B. C., says a claim adjoining the Camborne, in the Fish river camp, has been sold for $60,000.

The Santa Ana Tin Mining Company is still working a force of 18 men at its mines in Trabuca, Cal., but the search for tin in paying quantities has been temporarily, at least, abandoned. In its stead the company is now after gold, and preliminary tests show that the deposits to be reached probably are valuable. The ore is being crushed in the stamp mill.

The Ohio-Deadwood Company of Toledo, O., has decided to install an air compresser plant at its mine near Rochford, S. D., to expedite development.

The Metal Market.

The London metal markets remained closed today. The New York markets were lower for the leading metals. Tin was about 25 points off and copper went off ⅛c on certain grades, with all grades ruling in favor of buyers. The demand for all metals was slow. Tin on the spot closed at $28 00@28 25, and copper closed at these prices: Standard, spot to August, $11 37½@11 82½; lake, $11 87½@12 25; electrolytic, $11 90@12 05, and casting, $11 85@12 00. Lead was quoted at 4⅛c and spelter at 5c. Iron held steady, but the sales movement was slow. Warrants were nominal; No. 1 foundry northern, $22 00@23 00; No. 2 foundry northern, $21 00@22 00; No. 1 foundry southern, $21 50@22 50; No. 1 foundry southern soft, $21 50@22 50.

Wall Street Stock Market Neglected

ST. PAUL AGAIN PROVES LEADER IN THE DEALING

Passing of Dividend by Colorado Fuel Caused a Drop of Over a Point.

MONEY IS NOT SO EASY

Banks Are Evidently Preparing for the July Settlement—Anthracite Strike Loses Its Influence as a Factor—Little Doing in Bonds.

WALL STREET FEATURES.

Total sales for the day, 262,000 shares.

There was wide fluctuations in Colorado Fuel as a result of passing the dividend.

Call loans rose to above 3 per cent, indicating contraction in money.

The anthracite strike has lost its influence as a market disturber.

St. Paul is again the leader in the dealings of those trying to hold the market steady.

King Edward's marked improvement helped to keep the market firm.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

New York, June 27.—Today's stock market fell into profound neglect. Except for the dealings in one or two stocks which were selected by the supporters of the market for their sustaining effect, there was almost nothing doing. St. Paul was again the leader, and there was a spurt in Illinois Central during the day which had no news to explain it. Missouri Pacific continued in good demand, but its rise did not extend to a point at any time. The industrials were weak in spots, but were even more neglected than railroads. The passing of the dividend on Colorado Fuel caused a drop of 4 points in that stock on active selling. The stock fluctuated feverishly all day and closed at a net loss of only 1¼. The passing of the dividend on Ice preferred was reflected in the movement of these stocks, the preferred declining an extreme 3⅝ and closing at a recovery of 1¾. Amalgamated Copper was under pressure again, but met support at about 63, as on the previous decline. The market eased off in the late dealings and closed heavy and below the best in all cases.

Contraction in Money.

Loans made today to carry over until Monday and the rise in the call loan rate to above 3 per cent in the late dealings indicated some contraction in supplies. The week's movement of currency, taken in connection with the sub-treasury operations, indicate a cash gain by the banks of upward of $2,000,000. During the week there has been a payment at Baltimore on account of the Western Maryland purchase, subscriptions here to the Metropolitan Street Railway bond issue and to the New York city bond issue, besides various other requirements. It is probable that preparations have been making also for the July disbursements of dividend and interest. A further expansion of the loan account of the banks would not be unexpected, therefore, when tomorrow's weekly statement appears. The approach of the month-end had its part in repressing speculation.

Effect of London Holiday.

The holiday in London perhaps contributed to the dullness, but the reports of King Edward's marked improvement helped to keep prices firm. Another factor in the situation was the cessation of demand in the exchange market for remittance to London, owing to the holiday, which caused the decline in the price of sterling, thus lightening the threat of withdrawal of gold. Considerable satisfaction was felt over the report of rain in the Texas cotton belt. The speculative influences at work in the grain markets made inferences as to the condition of the crops somewhat obscure. The coalers were entirely neglected and the coal miners' strike was not a visible influence in the market. There was some buying of the railroad stocks that was alleged to be for investment in anticipation of the funds to be disbursed after the first of the month.

There was very little doing in the bond market and the movement of prices was irregular. Total sales, par value, $3,025,000. United States 2s declined ⅛ and the new 4s ¼ per cent on the last call.

RITCHIE COUNTY PRESENTS NEW OIL FEATURES

Developments in Clay district, Ritchie county, W. Va., are increasing in interest. It now looks as though this section would furnish considerable new production. Three-fourths of a mile northwest of the development on Big Knot run, Trees & Co. have drilled a well on the Wagner farm and have a show for a 100-barrel producer. In the same district, one-half mile south of developments, the South Penn Oil Company has drilled its test on the F. P. Weekley farm into the Keener sand and has developed a strong gas pressure.

In the Stringtown district, Tyler county, the South Penn Oil Company has shot its No. 1 on the C. T. Hill farm and has increased its production to 150 barrels a day. In the same county, the Colonial Oil Company has completed its No. 6 on the White heirs farm and has a show for a 15-barrel pumper in the Big Injun sand.

On Richwood run, Wetzel county, the Carter Oil Company has completed and shot its No. 8 on the John Willey farm and has an 80-barrel producer from the Gordon.

In the Bealls Mills, fifth sand district, Lewis county, the South Penn Oil Company has drilled its No. 5 on the C. W. McCutcheon farm into the Gordon sand and has a show for a good producer.

In the Petroleum district, Ritchie county, Clark & Hinch have drilled their No. 4 on the Volcano Oil and Coal tract through the Big Injun sand and have a light gasser.

In the Yellow Creek development, Center district, Calhoun county, the Berea formation promises to cut some figure as a producer. In addition to the three good wells, Mallory Bros., the Yellow Creek Oil Company and the Lowther Oil Company's, previously reported, Gillespie & English have drilled their test on the Lora L. Bower farm into the Berea and have a show for a 50-barrel producer.

On Sugar Creek, Pleasants county, Ellsworth & Davis have drilled their No. 5 on the John Wagner farm through the Cow Run sand and have a show for a 75-barrel producer.

On White Oak run, Union district, Ritchie county, the Carter Oil Company has drilled its test on the Margaret E. Chapman farm through all sands, including the Berea grit, and has a duster. The same company has drilled its test on the Alex. Wright farm through the same formation and has a duster. This well is located near Lawford.

On Spruce creek, near Hazelgreen, the test on the L. C. Goff farm is a failure in all sands. Near Pennsboro the test well on the Creed Collins tract is deep in the Berea grit and showing for a duster.

The Ritchie Drilling Company has made the location for a test on the Thomas McDougal farm, on Brunnels run, north of the dry hole drilled by the same company on the L. P. Wilson farm. The last named test was drilled through all sands.

On the Ohio side, two miles north of the Harper pool, in Belmont county, the An[illegible] Company has drilled its test on the H[illegible] Douda farm into the Big Injun sand and plugged the hole.

In the shallow sand territory on [illegible] Creek, Morgan county, A. J. Lockard & [illegible] have drilled in their No. 12 on the J[illegible] Sheets farm and have a show for a 50 or [illegible] barrel producer. In the same district, Benedict & Co. have completed their No. 5 on [illegible] I. A. Randall farm and have a duster.

In the Joy district, same county, the M[illegible] land Company has completed its No. 156 on the E. R. Dale tract and has a five-barrel pumper. In the same district J. C. Schramm has completed No. 13 on the John W. Kuhns farm and has a close call for a duster.

In the Marietta district, Washington county, Henry C. Lord & Co. have completed their No. 7 on the Joseph Fisher farm and have a 5[illegible] barrel producer.

In the same district R. G. Gillespie has drilled his No. 6 on the Cone heirs' farm through the Cow Run sand and developed [illegible] good gas pressure and some oil. He will drill to the Reppert sand.

In the Payne district, Davis Bros. have completed their No. 3 on the Wadsworth farm and have a duster in the Cow Run sand.

In the Germantown district, W. C. Patterson & Co. have completed a test on the George Smith farm and have a 10-barrel pumper in the 500-foot sand.

McCormick & Crossley have completed No. 3 on the James McCormick farm and have [illegible] five-barrel pumper in the same sand.

In the Carson pool, across the line from Beaver county, Pa., in Hancock county, W. Va., L. Jones & Co. have completed a test on the A. F. Robinson farm and have a duster. There are 14 drilling wells and rigs up in the district and the production is increasing.

Dun's Weekly Review of Trade

COKE IS MAKING A GREAT RECORD DURING STRIKE

Furnaces Closed for Want of Anthracite Now Running on Connellsville Product.

TRADE WELL MAINTAINED

Domestic Financial Conditions Are Exceptionally Satisfactory, but Foreign Markets Are Badly Disarranged by King's Illness.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

New York, June 27.—R. G. Dun & Co.'s weekly Review of Trade tomorrow will say:

Foreign markets were badly disarranged by the sudden illness of the king, and there was much liquidation prior to the closing of British exchanges from Wednesday afternoon to Monday morning.

Domestic financial conditions are exceptionally satisfactory and trade is well maintained, although low temperature interfered with the distribution of midsummer specialties. Manufacturing operations have increased in activity, especially in the iron and steel industry and textile production, while the constructive work on new buildings and bridges is very heavy. Labor difficulties have not improved in the anthracite coal regions, but numerous settlements have been effected elsewhere. Railway earnings thus far reached for June exhibit an average increase of 4.6 per cent over last year and 17.7 per cent over 1900.

Where Coke Wins Out.

Most of the blast furnaces that were stopped by the scarcity of anthracite coal have resumed with coke, of which the ovens have established new records of output, and shipments have been still larger owing to the stocks accumulated during the car shortage.

Despite the vigorous pig iron production numerous contracts have been placed abroad, and still the machine shops, manufacturers of stoves and implements and consumers generally are seeking deliveries. Structural shapes of steel and other forms of railway equipment continue to lead the market, orders in these lines running far into next year. Bars and sheets are the least active divisions of the market, but even in these there is no tendency to weakness.

Eastern manufacturers of footwear report a larger volume of contracts, mainly for delivery in August and September. Leather has accumulated and some tanneries are closed, but belting butts continue in demand at full prices.

More activity occurred in cotton goods, although at some concessions in prices. The changes were a natural result of recent declines in the raw material, buyers having delayed orders on that account.

Better in Woolen Goods.

Woolen goods have been taken more freely, especially the better qualities, and clothing manufacturers are preparing for a large fall trade. Raw wool is in better request at eastern markets, but the new clip is held at a premium that limits trade.

Agricultural prospects are far above the average, and rapid progress is made with winter wheat harvesting. Injury in Texas has partially offset the splendid outlook in other cotton states, while the strong statistical position, together with liberal consumption and covering of short contracts at Liverpool, combined to cause a sharp rise in option prices and a moderate stiffening of spot cotton, but the advance was not maintained.

Failures for the week numbered 200 in the United States, against 204 last year, and 20 in Canada, against 23 a year ago.

BETTER GARBAGE SERVICE.

Promised by One Who Wants to Bid on City Contract.

At a meeting of the joint committee on finance of Pittsburgh councils, held yesterday, the ordinance authorizing the city recorder and the director of the department of public safety to advertise for bids for collecting garbage, dead animals and offal, was recommended favorably.

C. F. Miller, who represents a company which collects garbage, etc., in several large cities, addressed the committee and said his company wanted to bid on the contract, but that if his company secured the contract it would take it six or eight months to be in readiness to carry on its plan of collecting and disposing of the collections. He therefore wanted bids received as quickly as possible. Charles E. Flinn's contract, Mr. Miller stated, does not expire until July 1, 1903, but if his (Miller's) company gets the contract he will try and buy out Mr. Flinn. Mr. Miller assured the committee that his company would give a much better service than the city is now getting.

A number of ordinances fixing salaries of city employes were referred to the committee on revision of salaries.

llest Day of the Year in Local Stocks, the Market Being Easy

S AND DOWNS TOOK PLACE IN BANKING GROUP

Rumors of Big Combines and Extra Dividends, Probable Cause.

ELECTRIC SECONDS LOWER

Window Glass Was Very Dull and Lower — Steel Stocks Almost Stagnant—Fire Proofing Common More Active.

PITTSBURGH FEATURES.

Bank exchanges gained $1,426,-272 99.

Sales Pittsburgh stock exchange, 2,471 shares and $1,000 bonds.

First National Bank of Pittsburgh was $10 off at $625.

Second National Bank of Pittsburgh was $50 higher at $860.

Big private demand for Peoples National Bank stock. Sales reported at $395. Rumors of a "melon."

Westinghouse Electric seconds declined ⅝ to 105¼.

Window Glass was dull and ⅛ off at 64¼.

Crucible Steel common closed at 21⅝ and the preferred at 85⅝. Both very dull.

Fire Proofing common active and firmer.

Brewing common was ⅝ lower at 27⅝.

Westinghouse Airbrake lost ½ at 184½.

Bonds were very dull.

The market on the Pittsburgh stock exchange yesterday was duller than during any previous day of the year, the sales being not quite 2,500 shares. The tone, as a whole, was also easier and in some issues barely steady. The feature of the day was in the banking group, not alone because of what was done openly, but also for that which took place "on the quiet." The greatest change in values was in the Second National Bank of Pittsburgh, which sold seven shares at $860, a jump between sales of $50, but a gain of only $10 over the recent bids. First National bank declined $10 to $625 for 10 shares, the decline being probably due to the announcement of the board of directors that the capital is to be increased to $1,000,000 and 2,500 new shares sold at $800 each, the stockholders being asked to waive their rights in order that new interests may be attached to the bank. Commonwealth Real Estate & Trust Company was firmer and $1 50 higher at 223, a recovery of $8 from Thursday's low point. North American Savings Company was also firmer at 92 sales and bid. Real Estate Trust Company did not sell, but was firmer at 285 bid and 287 asked. It was asserted again that despite official denials the Real Estate Trust Company either has completed, or is completing, the details for the purchase of another banking institution, a state one, instead of national, as recent reports had it. The denials, however, were made as to a national bank, not as to a state one, and those who insist the deal is a "go" say the officials took advantage of the technicality in saying nothing of the kind was contemplated.

The private trading of the day, however, furnished the most important item. Peoples National bank was quoted at $380 bid without offers. Yet private sales were made at $390 and $395 and there was a considerable demand for the stock at $395. A private offer was made at $400, but the bid was not workable at that price. The advance is due to a well-based belief that the directors will next Monday, in addition to declaring the regular dividend of 2½ per cent, also "cut a melon" in the shape of an extra that will become a quarterly feature in the future. The earnings of the bank during the last six months have been exceptionally large. Official confirmation of the probable action of the directors was refused. Another item in connection with the Peoples National is the fact that a proposition has been made to combine it with another leading institution, but the matter was turned down in its incipient stage.

In the general list there was scarcely a point worthy of special comment. Electric seconds were easier and ⅝ lower at 105¼, 435 shares having come out at 105@105½. There are quiet tips going the rounds to "take on the stock," as the recent flight toward 150 is shortly to be resumed until that figure is reached. Window Glass was very dull and fractionally lower. The Steel shares were almost at a standstill. Fire Proofing common was firmer and more active, and the bulls are beginning to talk bigger dividends next month, which "talk" was a foregone conclusion. Brewing common was ⅝ lower at 27⅝, but the preferred was firmer and higher at 46¼ bid, no offers occurring under 46⅝. Philadelphia common was up ¼ and Westinghouse Airbrake lost ½. The remainder of the list was dull and without material change. Bonds were very quiet.

The following is a complete summary of yesterday's official transactions on the Pittsburgh stock exchange. It shows the change in the closing selling prices, compared with the last preceding sales, the total sales of each security, the opening, high, low and closing prices and final bids and offers.

At the opening of the market Hill & Co. were exclusive sellers of River Coal preferred, disposing of 285 shares at 42⅝. The buying was scattered.

J. P. Mahan sold 15 Lincoln National bank to A. J. Lawrence at 257. This is the first public trade on the stock on its present par and capital. The last recorded sale was at 140 for the old stock at $50 par, hence yesterday's price of $257, par $100, is a loss of $23.

At a meeting of the Pittsburgh Clearing House association yesterday morning the Mellon National bank and the Fort Pitt National bank were admitted to membership. This gives the Clearing House association 26 members, though some of the older ones will probably resign before long.

The annual statement of the Credit Lyonnais of Paris states that its profits for 1901, after deducting all charges, were $5,500,000. Dividends of $10 per share upon its 500,000 shares absorbed $5,000,000, leaving $500,000 for its surplus account. The value of bills passing through the bank for discount was $2,350,000,-000, an indication of the magnitude of the business transacted.

The members of the Pittsburgh stock exchange unanimously voted to close the exchange from Thursday, July 3, at 3 p. m., to Monday, July 7, at 10 a. m. All the leading stock and speculative exchanges in the country will be closed for the same period, including the Chicago board of trade, which practically always has kept open on Saturday when Friday has been a legal holiday.

F. M. Dick says: Attention is now drawn to the dividend on Amalgamated. Two industrials have passed theirs. What will Amalgamated Copper preferred do? In the last attempt to corner copper by the French syndicate it took them two or three years to work off their copper. What has become of the load the Amalgamated Copper preferred has been carrying? The way it acts it will sell lower.

A compilation of interest and dividend payments to be made next month shows that the total disbursements this season will run in excess of $123,000,000. This is considerably ahead of last year's large total, and thus undoubtedly breaks all records. Dividends on railroad securities show an increase over the same period last year of $2,137,000, while industrial dividends show a shrinkage of $4,-619,000. The latter is attributed largely to the disappearance of several large copper companies from the list.

The directors of the First National bank have recommended an increase in the capital stock from $750,000 to $1,000,000, the new stock—2,500 shares—to be put out at $800 per share. The merger of the Mechanics National bank was ratified, and it was announced that over 8,500 out of a total of 10,000 shares of the capital stock had been deposited and paid for by the First National bank. Oats Bring Highest Prices of the Season

PITTSBURGH PRICES FOR FARM PRODUCTS

Flour in Good Demand, but Weak—Canned Tomatoes Very Strong.

Hay, Grain and Feed.

While corn continues steady to strong, with quotations well maintained, prices even appearing to be a little firmer, the real excitement is in oats, where active markets throughout the country, coupled with unfavorable growing weather, have sent figures up to the highest point of the season. Nominal quotations for No. 2 white are about 60 cents, but it is questionable whether they could have been purchased yesterday at that price. Buyers are anxious for oats, and cost does not enter so much into the discussion as supply. Stocks are low everywhere and new oats are looked to as the only coming relief to the present stringency. If crops are not of goodly proportions there will be another winter of high quotations.

Receipts bulletined: Pennsylvania lines, 7 cars hay, 0 cars oats, 1 car oats and corn, 2 cars corn, 1 car feed; Baltimore & Ohio railroad, 5 cars hay; Pittsburgh & Western railroad, 2 cars hay, 1 car oats; total receipts, 28 cars.

Following are the official quotations for hay, millfeed, corn, oats and straw, corrected by the superintendent of the Pittsburgh grain exchange:

Straw—Oat, $7 00@7 50; wheat, $7 00@7 50; rye, $8 00@8 25.

Millfeed—White middlings, per ton, No. 2, $21 50@22 00; brown, $20 50@21 00; bran, $19 00@19 50.

Groceries.

The range of flour prices is unchanged, but quotations are weak. Concessions are freely made on attractive orders, where buyers are disposed to purchase in quantity. Trade is good, many retailers taking advantage of the opportunity to buy while it can be done to advantage. Sugar is unchanged, and shows no indication of advancing, although it is such an uncertain quantity the unexpected may happen any moment. Coffee is without much life and the market continues weak. Cereal products are very strong in sympathy with corn and oats, and the outlook is for higher figures.

Canned Goods.

Tomato prices are very strong, dealers expressing the opinion that quotations for standards should be advanced to $1 60 for spot, although no higher figures than $1 55 is as yet named. Unfavorable growing weather has made futures firmer. What will be the outcome of crops this summer no one can as yet predict, farmers in some sections having already made several plantings. The lateness of the season will, in any event, keep the spot market very firm.

Standard pie peaches, 80@85c; gallon pie peaches, $2 50@3 00; California L. C. peaches, $1 90@2 35; Maryland peaches, $1 25@1 75; California Y. Louisville onions declined 25 cents a barrel, and green corn went off 19 cents a dozen. Green string beans are lower. California cantaloupes are in better supply, other shipments having arrived and prices are lower. The single advance was made in Texas tomatoes, where a slight increase in figures is noted.

Oats Lead the Chicago Grains

RAPID ADVANCE AT THE OPENING OF THE MARKET

Liquidation Causes Some Reaction, but the Close Is at a Good Gain.

CORN ALSO TAKES A RISE

Wheat and Provisions Take Slight Drop at the Close—Guessing on Manipulation Seems to Be Chief Feature of the Market.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

Chicago, June 27.—Oats stood in the speculative limelight today. Influenced by a very strong cash situation and by liberal short covering, July new oats sold at 47c, a jump of 5c in two days. Other grains had bullish impulses and made good advances. In oats much of the gain was lost by liquidation. In wheat and corn selling came because of the guessing contests in the pits as to the manipulative situation. At the close July oats were 1@1½c higher, July wheat ⅛c lower and July corn ¼c up. Provisions lost 5 to 10c.

There was no mistaking the temperament of the traders in oats at the opening today. From an ordinary small and narrow business this pit developed a general trade that was of marked interest all over the floor. The situation was simply that brought on by a very strong cash demand. Statisticians report stocks being rapidly depleted by shippers absorbing practically all the mixed stuff that comes to market. Not a car of new oats came today. July new opened ¼c to ⅝c up at 44⅝c to 44⅞c, jumped to 46c, but on profit-taking and a break in other markets lost a good deal of its advance. July closed strong 1⅛@1¼c up at 32⅝c, but closed firm ⅜@¼c up at 33¼c. Receipts were small at 144 cars.

Wheat Is Top Heavy.

Wheat was top heavy on manipulation and broke after very good early strength. At the outset wet weather over much of the harvest country and grasshoppers in the northwest brought good buying. When it was seen that corn could not hold its own price the crowd turned bearish in spite of advices that were bullish. Stuff was sold freely and weakness ensued. July, which opened unchanged to ⅛c up at 73¼c to 73½c and sold to 73⅝c, fell off 1c and closed ⅛c down at 73c. September sold as high as 72⅝@72¾c, dropped to 72c and closed a shade lower at 72⅛c. Local receipts were 35 cars, four of contract grade; Minneapolis and Duluth reported 230 cars, making a total for the three points of 268 against 318 last week and 288 a year ago. Primary receipts were 520,000 bushels, compared to 458,000 bushels last year. Seaboard clearances in wheat and flour equaled 563,000 bushels. Argentine shipments were small at 280,000 bushels, compared to 738,000 bushels last week. Total Argentine shipments since January 1 were only 17,008,000 bushels, against 26,056,000 last year, which in turn were small compared with former years. The seaboard reported eight loads taken for export.

Big Day in Corn.

This was another big day in corn. Boosted by the fears of shorts and on wet, cold weather reports, July shot to 69¾c, a fresh record price. The undertone most of the day was strong, but fluctuations were erratic. In September buying was of such character and volume as to create much interest. The talk of the pit centers around the supposed leadership of John W. Gates as the bull in July and John Cudahy as the big short. Renewed selling by Cudahy in September after he was supposed to be the victim of Gates made the crowd believe that there was a private understanding between the respective forces. Closing prices were just firm, July ¼c up at 68⅞c and September ⅛c higher at 61@61⅛c.

Provisions ruled dull and unimportant today. Hogs were weaker and influenced fair selling. Prices accordingly closed weak in products. September pork was 10c lower at $18 45; September lard 5@7½c down at $10 55, and September ribs 5c lower at $10 60.

Estimated receipts for tomorrow: Wheat, 35 cars; corn, 205 cars; oats, 200 cars; hogs, 18,000 head.

PRESSED STEEL CAR COMPANY INVESTS $90,000

It Secures Seven Acres of Mary Darlington Property in Allegheny.

TO IMPROVE SWISSVALE

Bellevue Baptists Will Build New Church—Two Good Residences for Hastings Street—Real Estate Company Changes Management.

Another big realty deal that will no doubt be folowed by an increase in the capacity of one of Pittsburgh's largest industries, came to light yesterday. The transaction was handled by George Bros., and the amount involved was $90,000. By the deal the Pressed Steel Car Company gets possession of seven acres and 51 perches of the Mrs. Mary C. Darlington property in the Ninth ward, Allegheny. The plot has a frontage of 293 feet in Preble avenue and runs back about 1,300 feet to the Ohio river. Both the Pittsburgh, Ft. Wayne & Chicago and the Pittsburgh & Western railroads have switches to the plot. Near by is the old plant of the Baker chain works and the plant of the Schoen Pressed Steel Car Company is only a short distance away. Although no details could be learned yesterday, it is understood that the site purchased will be used for a large addition to the plant of the Pressed Steel Car Company, whose present holdings adjoin it.

Plenty Doing in Swissvale.

Swissvale is at present enjoying a real estate and building boom which speaks well for its future as a residence district. George W. Sherman, who purchased a large tract of frontage early in the spring, through the agency of John F. Baxter, has 20 modern brick houses under roof and will be ready to put them on the market in a few weeks. They will sell at from $5,000 to $7,000 each. A large force of men is at work now grading and laying foundations preparatory to building the remainder of the 125 residences which he originally planned.

On the opposite side of the borough the George H. Thomas & J. M. Loose Co. has started 10 of its first lot of 50 houses. Since April 1 this company has sold over 50 lots in the Milligan Manor plan, many of them to out-of-town purchasers.

Greensburg buyers are much in evidence of late and last Sunday a party of 140 from that town visited the plan and bought a number of choice lots. A majority of the purchasers are preparing to build this summer and nearly 100 houses are now in course of construction in the borough.

In addition to these, two three-story brick business blocks, owned by Otto Krone, are well under way and several store buildings are started. The new Carnegie library and Dickson casino are the best public improvements now in sight, and a site for them is likely to be chosen soon.

New Church for Bellevue.

At a meeting of the Bellevue Baptist congregation Thursday night it was voted to erect a new church building at once, and Architect W. J. Shaw was authorized to prepare plans for the same. The new house of worship will be built in Meade street in the rear of the Masonic hall and will cost $12,000. It will be a frame structure, large enough to accommodate 400 persons.

This has been a very prosperous year for Bellevue churches, two other congregations having built within the past 10 months. The United Presbyterian church is completed and the stone veneered building of the Methodist Protestants will be ready for occupancy in a few weeks. The congregation of the Reform church, which is largely made up of Bellevue people, is also planning to build in Allegheny in the near future.

The Standard Land and Improvement Company has completed the first 50 of the 100 houses which it planned to build at Monessen this summer, and the work of excavating for the second lot is now in progress. The company is putting up a good class of dwellings, containing from four to six rooms each, and because of the great increase in the number of employes of the mills there, such houses are selling rapidly at from $2,500 to $3,000 each. Another company, recently organized, will build 50 similar houses as soon as it secures its charter.

Buyers Made Known.

The final papers have been passed in the sale of 300 feet of frontage at the corner of Hastings street and the Beechwood boulevard, the sale of which was noted in The Gazette several weeks ago. It develops that the property was bought by William C. Erwin and George A. Barker, the former securing 100 and the latter 200 feet. The purchase price was $33,000, and the sale was made through the office of A. B. Hay, Jr., of Allegheny. Mr. Barker is preparing to build a modern brick residence to cost $18,000, and Mr. Erwin contemplates erecting a similar structure.

E. M. O'Neil proves to have been the buyer of the Wiley property at the corner of Wylie avenue and Elm street, which was sold through the agency of Samuel W. Black & Co. about a month ago for $14,500. The lot measures 42x150 feet and was bought for an investment.

On Monday the Pittsburgh Real Estate exchange will change its management, George T. McDonald having resigned as secretary and treasurer and sold his stock in the company to his brother, Harry McDonald, who will assume entire charge of the business if his health permits. The offices of the company will continue in the Fitzsimons building. George T. McDonald will engage in the real estate business independently, with offices on the fifth floor of the Times building.

Second Party Wall Makes Trouble.

The Farmers Deposit National bank has another squabble on its hands, this time the bone of contention being a party wall between the site of its new building and the property of C. C. Mellor & Co., in Fifth avenue. The latter concern has filed a bill in equity against the bank asking for an injunction to restrain the defendant from taking possession of any part of the company's property. This, the officials of the bank declare, has never been intended.
